# MONO—

OPAL FLOOR, PENDANT AND SURFACE LIGHTS,  
FLASH CIRCLE, SQUARE AND RECTANGLE TABLES,  
FAT LOUNGE CHAIR, SPOT ROUND AND OBLONG LIGHTS

**It's a commonly held view that design is about creating stuff, adding to things or producing supplementary features. However, truth be told, designers spend most of their time removing, refining and simplifying and trying to reduce an object to its purest and least complex possibility. So that's what we have been working on with 2019's newest innovations.**

Let's look at FAT... A chair, a bar-stool and a lounge seat condensed to the barest of essentials. Four glossy black tubular legs, a semi-circular back rest and a generous marshmallow of a seat pad.

The extreme generosity of FAT's plump upholstered components, the overstated size of tubular legs, the precise positioning of the backrest (which allows for ergonomically positive lumbar support or alternatively creative slouching) – is a great example of Monochrome.

The theme of Monochrome is carried through into our latest lighting series OPAL, where the most satisfying of pure shapes; the sphere, is manufactured with a precision thin wall. Working with our German engineering partners, we have designed our own recipe of opalescent polycarbonate, resulting in a satisfyingly ethereal orb. We decided to remove the usual dangling

lightbulb and replace it with our latest LED ring, making an extremely powerful illuminating device. OPAL can be suspended from the ceiling in pendant form, fixed onto a carbon fibre pole as a floor lamp and cantilevered from a massive conical floor base to make a sculptural overreach lamp. The archetypal silhouette of OPAL allows for use in the most minimal of settings. The light's strong constitution of shatter proof polymer makes it indestructible in contract use and the soft glow makes it desirable in domestic decoration.

By using our austere palette of Black and White, whilst everyone around us goes crazy over a multicoloured rainbow of surface colouration, we hope to stand out by drawing attention to the extreme simplicity of this season's forms, creating monochrome archetypes for the near future.

FAT DINING, LOUNGE AND BAR STOOL

# FAT

Fat, our new upholstery chair range is designed to hug the body and allows for multiple sitting positions. Available as a dining chair, bar stool and lounge chair, the extreme simplicity of the components is a testament to form following function, whilst maintaining a humorous silhouette and a reductionist aesthetic. Quite a balancing act!

Fat is made from moulded foam with a metal leg launching in high gloss black lacquer and made to order upholstery. Manufactured in Europe, hand finished and upholstered by experienced craftsmen.

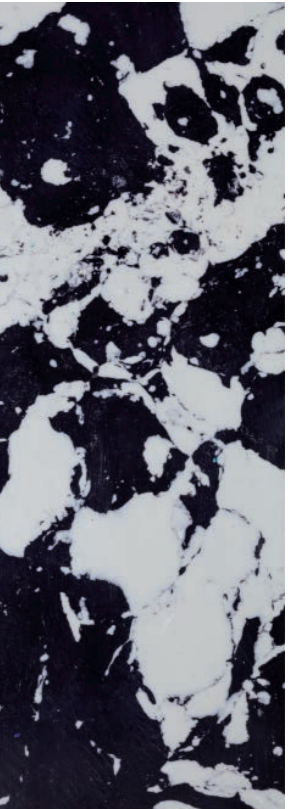

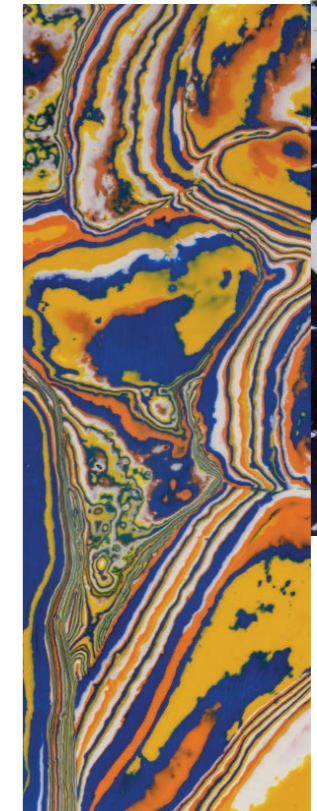

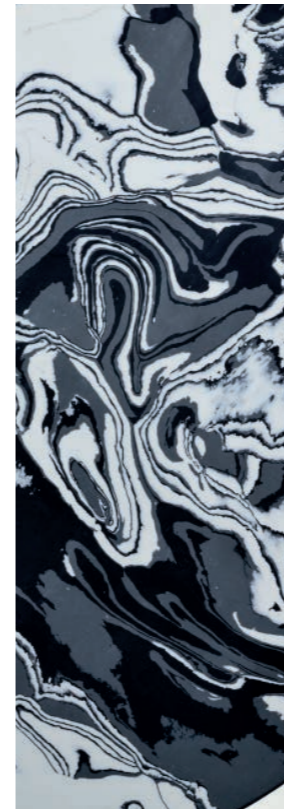

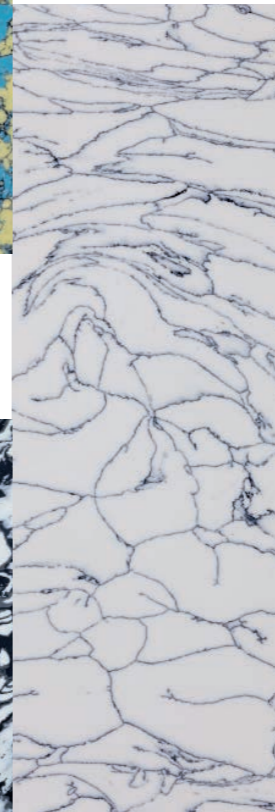

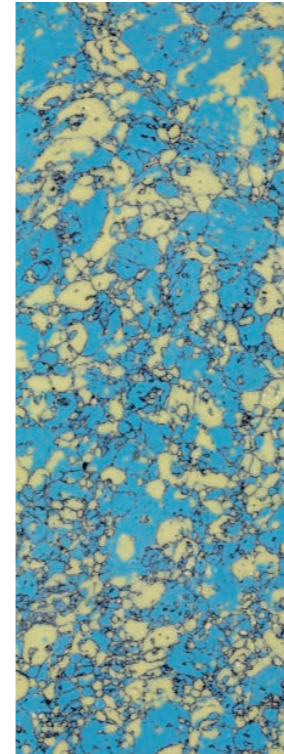

SWIRL LOW, MEDIUM AND TALL TABLES

# SWIRL TABLES

Swirl is a series of geometric forms stacked upon one another to create multidimensional, functional sculptures. The unique process involves recycling the powdered residue from the marble industry, mixed with pigment and resin to create blocks of material that can then be sawn, sliced and turned on a lathe. A family of tables, each with their own distinct silhouette, colouration and personality.

SLAB SIDE CHAIR, SLAB DINING TABLE, OPAL FLOOR, PENDANTS AND SURFACE LIGHTS

When we decided to design a dining chair that sat comfortably with the Slab range, we wanted something humble but with personality, modern yet looking like it had always existed, familiar yet unique – and on top of that stacking and comfortable!

So, it took us a long time, as that turned out to be a particularly challenging brief. But we think we have cracked

it with this chair that can sit proudly in many environments – an honest piece of skilled woodwork.

The Slab dining table joins the family this year; a 2.4m table available in natural, fumed and black lacquered finish.

PRIMAVERA TABLE TOP, TUBE WIDE BASE, FAT DINING CHAIRS, COPPER PENDANTS

Hidden between the deep gorges and snow-capped peaks of Yunnan's majestic landscapes, our oriental marble is quarried. An area that is rich in natural resources, the south-west province has the largest reserves of tin, lead, zinc and aluminium in China. Bordering Tibet, Myanmar, Laos and Vietnam, Yunnan province has the most diverse plant life in China.

Named Primavera but often described as a black, green and

white metamorphic conglomerate, the marble is unusual due to its extreme random figuring and bold pattern. The alternating bright green, which is ground with white inlays and thin black veining ensures that each table top is completely unique.

The Primavera range includes 1100mm and 1400mm table tops.

A simple, sleek table for all occasions, Tube is a versatile and elegant table base made from brass plated tubing. Available in brass and a new black finish, High and Wide join the Tube family, creating variation in height, dimension and weight. Tube is a sophisticated sturdy table component that can be customised.

WINGBACK CHAIR, FLASH TABLES AND FELT LIGHTS

NEW

Flash is a series of sophisticated tables with an uncompromising metallic surface. Available in brass and now black, the mirrored glass top and iron base form a table that is simultaneously sturdy, sleek and reflective.

PYLON TABLES AND CHAIRS

Originally created on a self-propelled mission to design the world's lightest metal chair, Pylon was made in a small series in Dixon's metal workshop in the early 90's. The lattice work of 3mm diameter steel rod is triangulated for maximum strength – an exercise in pure unadorned structure. The Pylon chair is now available in a white powder coat finish.

# PYLON

# WINGBACK

WINGBACK CHAIR, SCREW TABLE AND SPRING PENDANTS

Wingback was inspired by traditional 17th century Wingback and balloon-back archetypes and was developed for Shoreditch House Members Club. Thanks to its expressive sweeping curves, our statuesque Wingback is often seen in the centre of spaces as a sculptural intervention rather than a mere piece of seating. The exaggerated proportions of the wing allow the sitter to be enthroned against a grand backdrop or completely hidden from view.

FAN CHAIR AND STOOL WITH FELT FLOOR AND PENDANT LIGHTS

FAN DINING CHAIRS WITH FUMED OAK TABLE TOP

# FAN

Fan is a modern take on the classical Windsor chair. A British archetype converted to a contemporary silhouette, creating an exclamation mark in the home with a semi-transparent structure that takes up minimal visual mass for a large and imposing chair.

(L): SCOOP HIGH CHAIRS, MARBLE TABLE TOP WITH TUBE BASE, SWIRL CANDLEHOLDER, MELT LED PENDANTS AND MINI SURFACE LIGHT  
(R): SCOOP LOW CHAIR

# SCOOP

Originally developed for the Royal Academy of the Arts Restaurant in London, Scoop is all about comfort. It is fully upholstered and generously proportioned, with a rounded soft shell inspired by motor racing 'tub' seats which hug the contours of the body.

SCREW TABLES AND SPIN CANDELABRAS

Inspired by a rotating sculptor's table, Screw uses typical reinforcement details and functions, like a piece of traditional workshop equipment. In a nod to London's industrial past it is also made with materials and processes associated with the Industrial Revolution.

# MASS

MASS DINING TABLE, SCOOP HIGH CHAIRS, SPRING PENDANTS

MASS COAT AND BOOK STAND

Huge chunks of heavyweight, metallic, minimalism. Mass is confident, over-scaled furniture with real presence and instantly recognisable expressive minimalism. As it takes on the marks of time, Mass will develop a natural patina across its surface, meaning each piece will age like a prized bronze statue.

# SPUN

Generously proportioned curves of spun-sheet solid brass are hand polished to a mirror finish to create the Spun collection, bringing instant disco glamour to the cocktail bar, dining hall or living room.

# UPHOLSTERY

The MONOCHROME theme threads through to our new fabric selection for 2019. We have refined and simplified our range to include a collection of leathers, suedes, wools, velvet, linen and sheepskin from specialised textile houses; Kvadrat, Designers Guild, Bute, Sørensøn Leather and The Organic Sheep to ensure we bring uncompromising quality to our upholstery.

# LED

NEW

Mindboggling transformations are afoot in the world of illumination, where a new LED universe is being created. Brighter, flatter and cooler light sources that use a fraction of the energy have suddenly become affordable and trusted by consumers everywhere. But we haven't been watching this revolution from the sidelines. For years we have been experimenting with new ways to use the Light Emitting Diodes.

In 2019, we are introducing the latest in high performance LED

technology to our expanding lighting range. A custom-made Tom Dixon LED ring and driver module has been integrated into our existing best seller MELT and launches into two new collections, SPRING and OPAL.

The LED module offers the three key benefits expected of this technology - longer LIFE expectancy, ENERGY efficiency and improved PERFORMANCE resulting in more functional, flexible and convenient products.

OPAL CONE, ARC AND SURFACE LIGHT,  
FAT LOUNGE CHAIR AND FLASH TABLES

# OPAL

SLAB SIDE CHAIRS, SLAB DINING TABLE, OPAL PENDANTS AND CARVED VASE

Opal is a family of translucent globes using our own custom recipe of tinted white opalescent polycarbonate. Semi translucent, they maintain an ethereal ghostliness in the daylight and at night form a perfectly illuminated sphere. Coupled with our new Tom Dixon LED, the Opal range emits a soft, diffused and flattering light.

The softness of the lightbulb shape is achieved through a blow-moulded custom combination of opalescent plastic. This process works to achieve an organic form as well a delicate translucency. The Opal family includes two pendant lights, two floor lights and a surface light.

# SPRING

MASS DINING TABLE, SCOOP HIGH CHAIRS, SPRING PENDANTS BRASS

SPRING PENDANTS WHITE, SCREW TABLE AND WINGBACK CHAIR

Spring is a series of three pendant lamps made up of stainless-steel strips. Pliant ribbons of stainless steel have been arranged like a whisk around our custom-made Tom Dixon LED.

The semi-transparent shape thus created can be adjusted to a variety of silhouettes - from a flat arrangement reminiscent of a spirograph drawing, to a flying saucer configuration and on to a

fuller shape akin to a pumpkin.

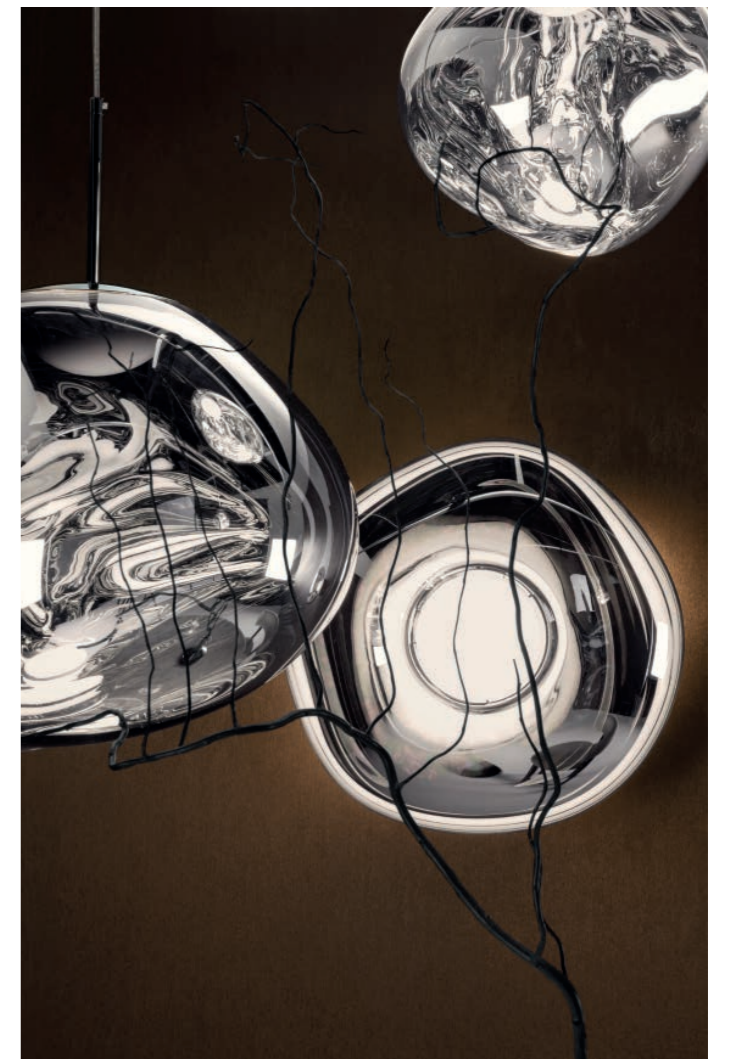

The shades are made from multiple bands of high-performance spring steel plated in an attractive white or brass finish. This engineering material has memory and dictates the form of the final shade. The nature of the spiral design allows the voluminous shades to be easily flat-packed for transportation.

NEW

FAT BAR STOOLS, MARBLE TOP WITH TUBE HIGH BASE, MELT LED PENDANTS AND SURFACE LIGHTS

Our bestseller, Melt is evocative of molten glass, the interior of a melting glacier or images of deep space. An imperfect, organic and naturalistic light that produces a mesmerizing melting hot-blown glass effect. Melt is now available with a new custom-made Tom Dixon LED module.

BEAT MEGA PENDANT SYSTEM, WINGBACK FAMILY, FLASH TABLES BRASS, BEAT VESSELS

(TOP): BEAT FAMILY WHITE, MARBLE TOP WITH TUBE BASE, SLAB SIDE CHAIR NATURAL  
(BOTTOM): BEAT FAMILY

# BEAT

Beat is a series of lights in six distinctive pendant shapes, inspired by the sculptural simplicity of traditional Indian water vessels. The Beat family is available in four finishes - black, grey, brass and now, white. All featuring a warm interior of beaten brass or silver plate. The collection includes pendants Stout, Flat, Wide, Fat and Tall as well as floor, table and wall lights.

FELT GREY DETAIL

FAN CHAIR WITH FELT WHITE PENDANTS AND FLOOR LIGHT

# FELT

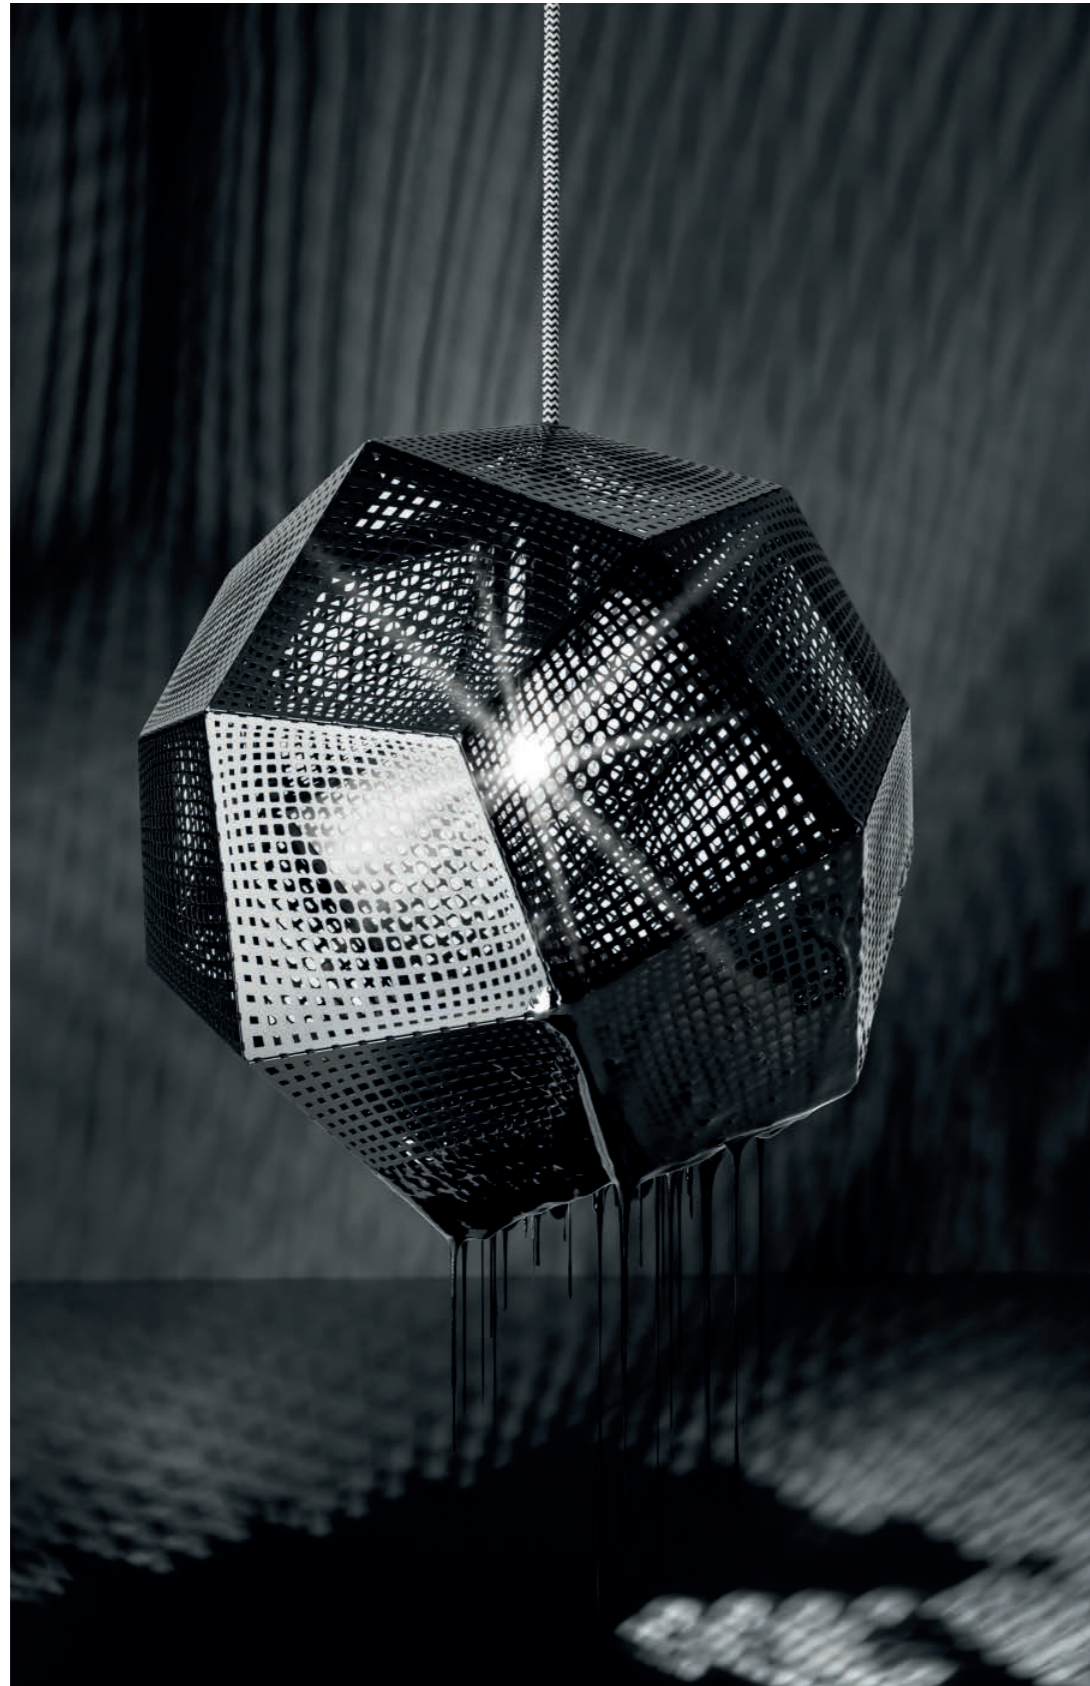

The Felt shade provides warmth to any space in both lightness and texture. Available in two different designs, pendant and floor light, Felt contrasts to the abundance of metal and plastic lights available in the market. Made from double layered felt, which is heat pressed into a soft organic shape, it features a grey exterior with a white interior and now an all-white finish.

# COPPER

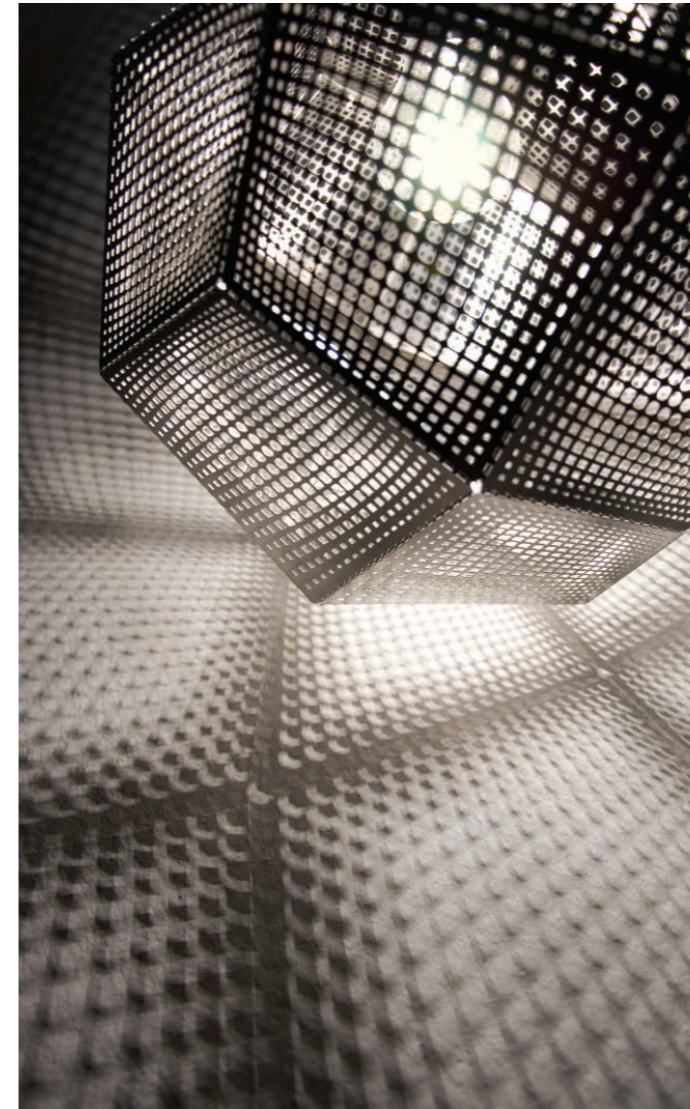

Copper is created by exploding a thin layer of pure metal onto the surface of a polycarbonate globe. Complimentary forms are created in the trademark mirrored copper, allowing clusters to be formed, lower ceilings to be illuminated or narrow corridors to be colonised by the Copper family.

ETCH PENDANT BLACK

ETCH PENDANT SILVER

ETCH PENDANT BRASS

# ETCH

Inspired by the logic of pure mathematics, the Etch range is a series of geodesic structures made of razor thin digitally etched metal sheets. The pendants and chandelier feature a detailed pattern which casts a mass of intricate shadows when lit.

# MIRROR BALL

SPUN TABLES, MIRROR BALL MEGA PENDANT SYSTEM,  
BIRD CHAISE, AND MELT STAND CHANDELIER

Sometimes your biggest failure could be your biggest success. The aim for Mirror Ball was to produce a completely spherical, highly mirrored object that would disappear into its surroundings. Instead it does the opposite and is an ultra-visible, highly reflective object referencing space helmets and disco balls.

VOID PENDANT STEEL, BRASS AND COPPER

VOID PENDANT AND SURFACE LIGHTS, STRIPE  
ROUND RUG WITH FAN CHAIR AND TABLE

# VOID

Inspired by vacuum flasks, Void is made from pure metal which is formed into a complex double-walled shade. A small but powerful halogen bulb deep inside the lamp creates a soft but directional light beam, while the exterior is polished to a highly reflective finish.

VOID SURFACE LIGHTS

STONE PENDANTS

STONE SURFACE LIGHTS

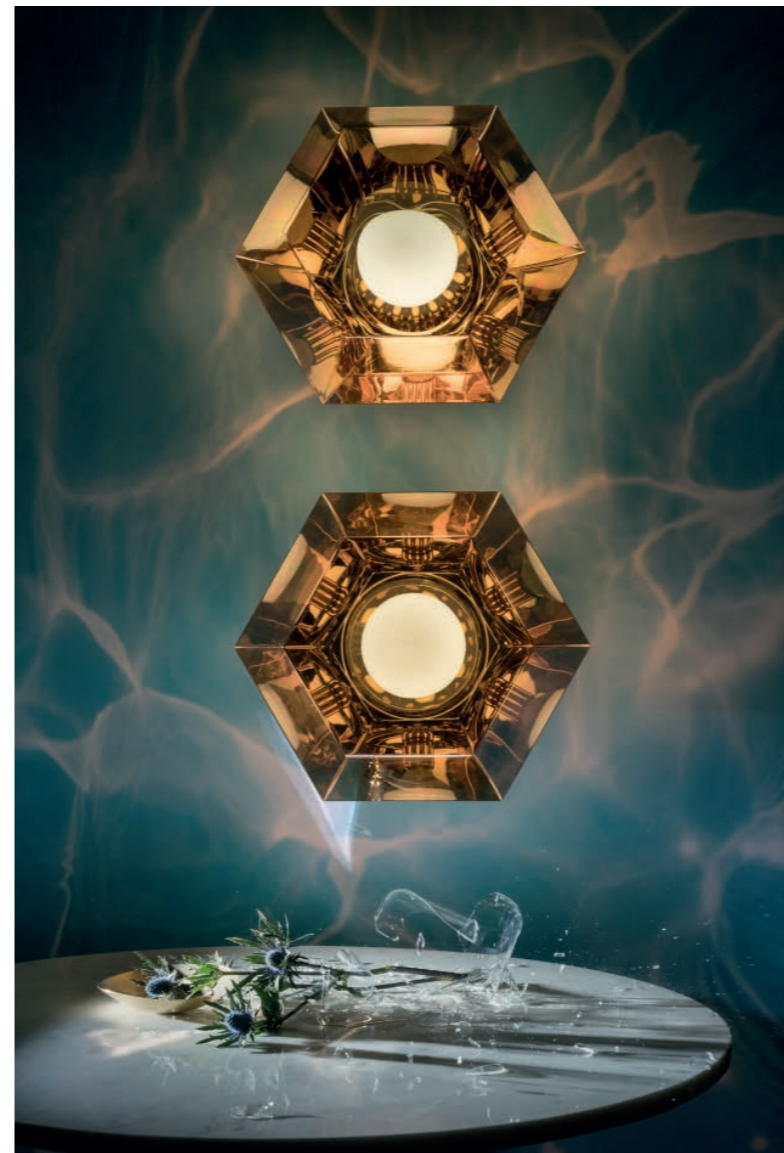

# STONE

Stone is a series of lighting and accessories inspired by the materiality of the marble used to build the Taj Mahal. This hard, semi-precious surface has transfixed architects, sculptors and designers for millennia. It is the dream material – tough yet tactile, heavy and long-lasting with individual personality.

# CUT

Futuristic and faceted, Cut is an exercise in optics. Its space-age mirror finish when off transforms to reveal a translucent kaleidoscopic gem when switched on. Hypnotising reflections of the luminous orb within repeat infinitely in the diamond cut, vacuum metallised interior. Produced in multiple finishes, short and tall, pendant and surface – these are the latest adventures in our endless fascination with reflectivity, luminosity and transparency. Cluster for maximum effect.

CUT SURFACE LIGHTS

BELL TABLE AND FLOOR LIGHTS CHROME, WINGBACK CHAIR

BELL TABLE LIGHTS, COPPER PENDANTS, S CHAIR AND SPOT SURFACE LIGHTS

# BELL

Bell is an exercise in reductionism. The hyper polished reflective surface allows it to take on the tone and characteristics of its surroundings.

# CARVED

Mouth-blown, double layered black and white glass has been acutely cut back to define a series of circular motifs. Artisanal glass makers in India carefully carved away layers of glass in a design process that explores the opaque, the translucent and the transparent. The intention was for the chunky and heavy glass to take on an ethereal lightness.

# STITCH

Stitch depicts defined monochromatic forms, which have been created through meticulous hand-embroidered techniques. The curvature of the shapes and free-flowing nature of the lines and stitch work produce a minimal aesthetic.

DASH THROW AND CUSHION WITH WINGBACK OTTOMAN LONG AND CARVED TALL VASE WHITE

NEW

# DASH

Dash explores the imagery of landscapes through bold, simple, expressive mark making. Inspired by topographic patterns, the composition is gestural and intuitive. The repetitive lines and stitches have been intricately machine knitted in Portugal.

SOFT CUSHIONS

# SOFT

Soft is a series of cushions fashioned by Dutch weavers and is composed of rare South African Angora goat hair, which is historically said to be as valuable as gold itself. European craftsmanship complemented with a generous filling of Danish duck feathers and superior pile height make for maximum indulgence and comfort.

BLOT CUSHIONS WITH COPPER WIDE PENDANT AND WINGBACK SOFA

# BLOT

Blot is probably best described as an insight into the chaotic workings of Tom's mind. Intrigued by the speed and precision of the new digital printing processes, Tom worked late into the night, fusing a childhood obsession with chromatography with an interest in Abstract Expressionism and Rorschach imagery. The result is an intuitively designed pigmented print which seeps through absorbent linen fabric.

NEW

ABSTRACT CUSHION GREY AND NATURAL

# ABSTRACT

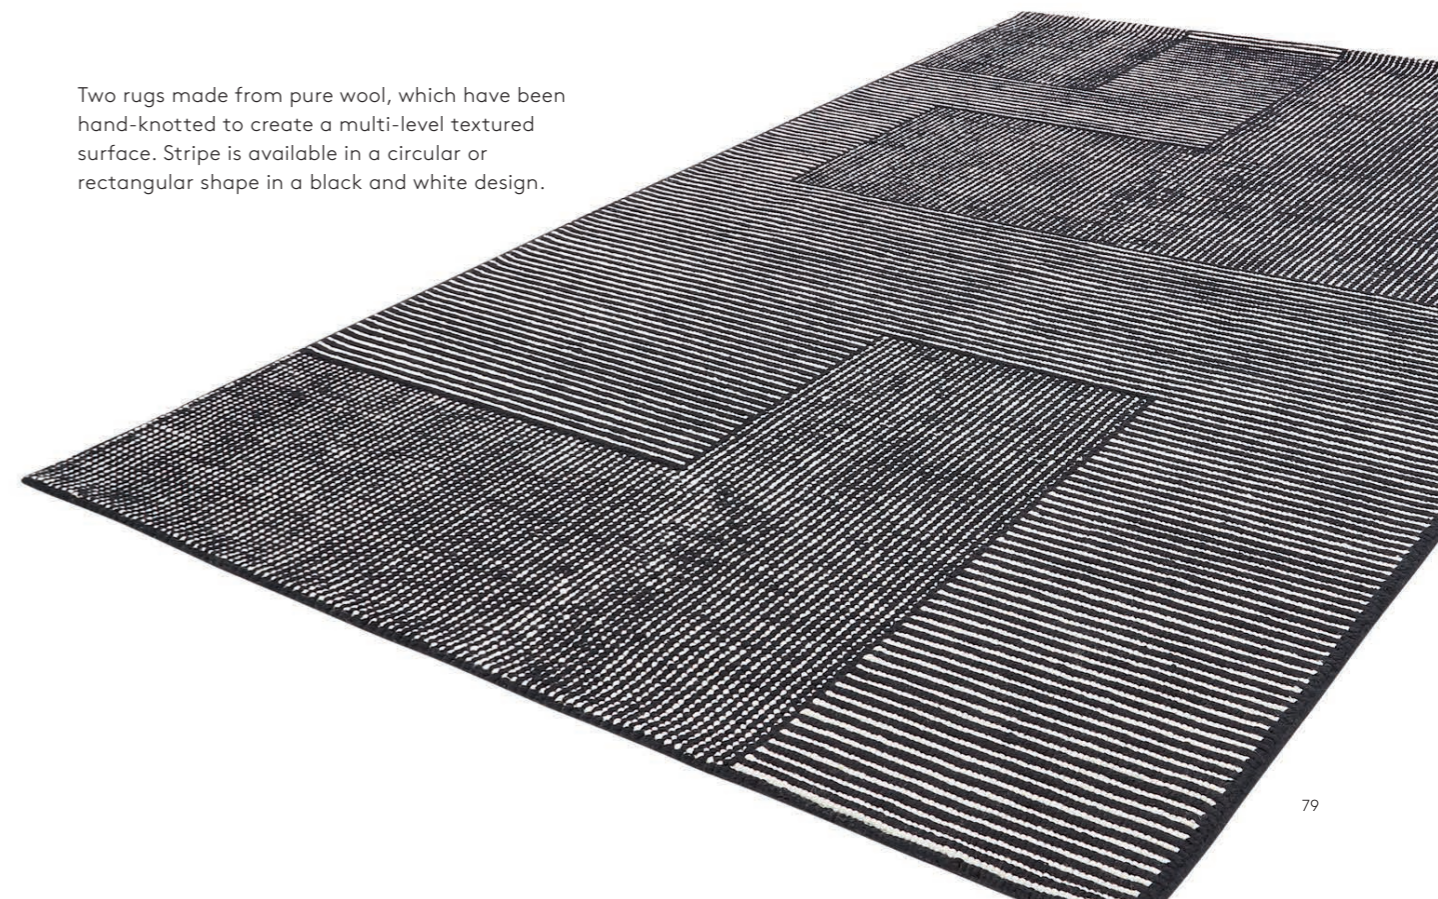

Thick, woolly, rugged and generally more substantial than most cushions, Abstract is hand tufted by extraordinary skilled craftsmen in India. Tactile and comfortable, the new Abstract designs are available in a neutral palette, which reveals the natural pigmentation of the wool.

STRIPE ROUND RUG WITH FAN CHAIR AND TABLE AND VOID PENDANT LIGHTS

# STRIPE

Two rugs made from pure wool, which have been hand-knotted to create a multi-level textured surface. Stripe is available in a circular or rectangular shape in a black and white design.

# BREW

Brew recognises the artistry of coffee making and coffee drinking as one of our few remaining contemporary rituals. Precision engineered from stainless steel with a polished finish, Brew is hyper reflective, functionally rigorous and designed to take pride of place on any kitchen counter, bar or occasional table.

Recognising that first impressions and memories are connected to the sense of smell, Tom Dixon's journey into the world of fragrance started with Eclectic; a collection inspired by the brand's origins as a true Londoner. The collection evokes historical memories of British life, of travelling and trading across the globe and returning to the familiar gritty smells of modern cosmopolitan London.

BUMP VASE SHORT

Bump is a family of minimalist, borosilicate vessels designed to serve as the ritualistic instruments of every day drinking and hosting. Delicately handmade with subtle levels of pink and grey tonal translucency, Bump offers an elegant approach to the alchemical processes of tea making, mixology and floral arrangements.
