TABLES

Time Table	PP.	52, 57, 61, 62, 63
------------	-----	--------------------

Beauty is a necessity to be shared to satisfy the desire we feel and, at the same time, to cultivate its resurgence. Henge continues along its research path, daily renewing its sublime obsession for contrast, uniqueness, and perfect imperfection.

#21 collection is an opportunity to taste the appealing charm created by the brand together with Massimo Castagna, Ugo Cacciatori and the renowned architecture studio, Yabu Pushelberg.

An unstoppable journey that overcomes all physical and geographical boundaries. Henge pursues materials and their evolution with great instinct, looking for the rarest and most expressive ones, rooted in different cultures and in the most remote international landscapes, combining woods, stones, metals, glass, leathers, and fabrics.

Massimo Castagna renews some of his iconic pieces from recent collections such as the Downtown Sofa. A sofa that stands out for the harmonious balance between the simple geometry and the great comfort provided by the softness of its particular goose padding. The SR Tables see the encounter between the special Ice Onyx and the Swamp Olive Ash (dated from 421 AD) with the new H-Pale Gold Patina structure. A contemporary distinctive sign, which imposes itself with a presence of great attractiveness.

The new series of Test lamps by Ugo Cacciatori represent a new chapter of Henge in the interpretation of light. The large Test-One table lamp surprises at first sight. It evokes a modern cylinder finding its expression through the different materials: white like the moon in the polished Ice Onyx, mysterious as a dying star with the Rapolano travertine that shows glimpses from the stratified cavities. A series of lamps that are hardly missed.

The collaboration between Henge and Yabu Pushelberg is persisting after the success of the previous collections. The company and the design studio have been mutually attracted to each other by a common design philosophy, an appreciation for details, craftsmanship, beauty, and the strength of the natural world. From this admiration for organic forms, already explored in the past with the Mushroom and the Puddle tables, Yabu Pushelberg, for the first time, interprets lighting for the brand, conceiving a new product, the Maple Lamp, inspired by the seeds of the maple tree. The strong architectural imprint is embodied in the sand casted bronze structure that supports the harmonious shapes of the illuminated body in borosilicate glass. Another gem of design and technique enriching the Henge universe.

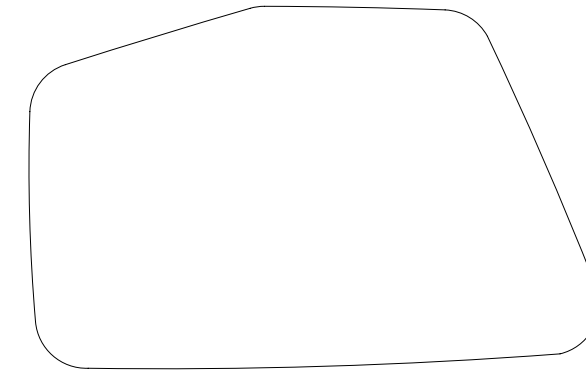

Technical information

Accessories

HIMALAYA SARTORIAL RUG

STRUCTURE

5 cm high hand-woven rugs on horizontal looms, finished with a knotting on the back. Made in Nepal using Himalayan wool, the most precious in the world, with only a limited production per year. Color obtained from the selection of the fleece of the sheep themselves. 100% natural, undyed wool. Spun, carded and knotted by hand, washed with sapid soap and hazelnuts that release a natural detergent. Edges tapered by hand on all sides. Completely organic product.
