

Pump

Powerauto Mount Gear Pumps

For high pressure and flow applications. Ideal for cranes, load lifter and compactor applications.

POW

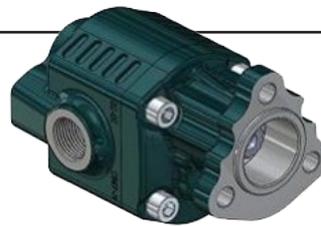

PUA

ISO/DIN and UNI Mounts

For moderate to high-pressure flows. Ideal for cranes, access equipment and tippers.

T Series

T Uni
Bidirectional Mount

Piston Pumps

Suited to applications requiring high pressure with confined spaces and available in Powauto ISO mount configurations.

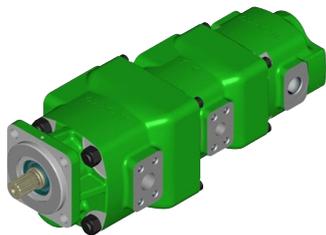

BENT Axis

Axial

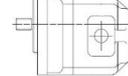

Hydraulic Gear Pumps

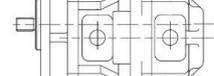

Q Series

High pressure up to 280 BAR. This is a modular design that can be assembled in a number of different configurations. This also allows for different housing frame sizes.
