friendly

Scalable

Secure

Flexible

Efficient

## Benefits of Shiji Infrasyss:

- **Increased Efficiency:** Our solution allows hotel staff to retrieve an item from anywhere within the hotel in a matter of seconds. This increases efficiency, eliminates unnecessary delays and helps you keep up with customer demands without affecting quality of service.
- **Improved Accuracy:** Our point-of-sale systems ensure accuracy in pricing, inventory handling, billing and overall guest payments. This means that there are fewer mistakes and better customer experience.
- **Automated Reporting:** Our reporting feature allows hotel staff to get an overview of the day's sales in real-time. This helps in making more informed decisions to increase revenue. It also helps in tracking sales trends as well as identifying gaps and areas of improvement.
- **Flexible Payment Options:** Shiji's point-of-sale solutions provide customers with several payment options like cash, credit and debit cards, gift cards, Apple Pay and more. This helps customers to choose the right payment option which is convenient for them and the hotel.
- **Automated Reordering:** Our automated reordering system ensures that the hotel never runs out of stock. It automatically orders from suppliers when the necessary products are running low and thus helps in eliminating chances of customer disappointment.

These are just some of the advantages that our POS solution offers for you. With our quality service and customer support, you can keep your customers coming back again and again. Contact us to know more about our solution and how it can help you.

Thank you for your interest in Shiji Infrasyss POS Solution. We look forward to working with you!
