

Point of Sale (POS) Systems Booklet.

Run your Business from anywhere with the cloud-based POS System “Revel”

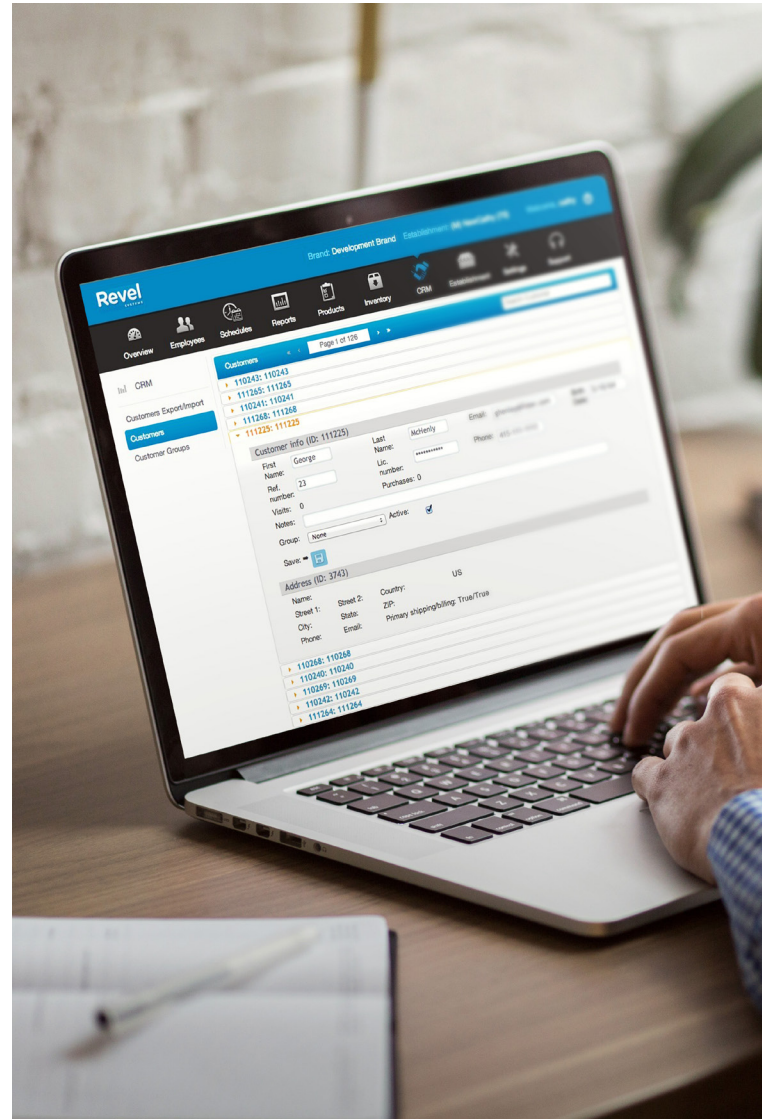

Revel Systems Overview.

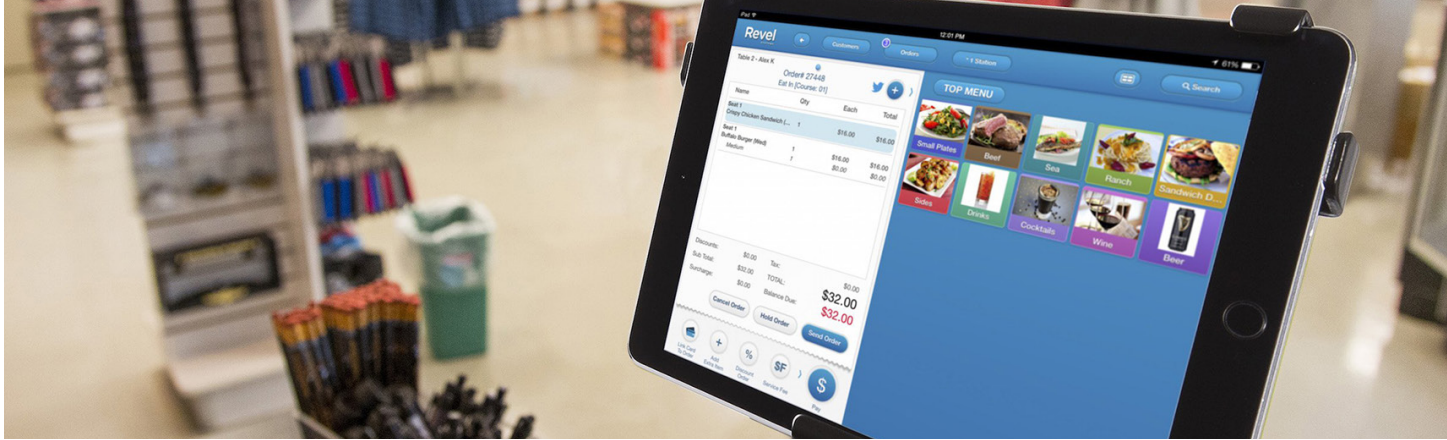

Revel POS system from trustangle is an easy-to-use, feature-rich, customizable point of sale (POS) system. This quick, intuitive, and secure platform is a solution for small, mid-sized, and multi-location businesses.

Revel POS system uses a scalable, iPad-based platform and includes menu, customer, employee, and inventory management features. Although a general retail version is available, Revel POS is designed for independent restaurants and small to large restaurant chains and has systems specifically for coffee & pizza shops.

It's designed to maximize security, stability, ease of use, and service delivery, Revel's eco-system replaces bulky, expensive legacy solutions with a quick, intuitive iOS-based POS platform that combines cloud-based technology and the mobility of the iPad.

Revel POS is for businesses from small merchants to global enterprises that are looking for: [modernize, future-proof their operations, and implement a system that adds value through incremental revenue, cost reduction, and a better experience for customers and employees.](#)

+ trustangle's vision

Why Revel POS?

Revel from trustangle: tracks your entire inventory, let you know what is to be ordered, enables you to create purchase orders and keeps count of the on-hand inventory. It also allows you to retrieve your customer product's history. With Revel POS you will avoid waste and loss of Data through its Inventory Management System. Human errors are also reduced because it automates a lot of your tedious manual tasks and data collection.

No matter what type of retail you are, implementing Revel POS (point of sale) system can assist you to avoid the daily challenges that are facing the retailers on daily basis such as: inventories that fail to match tallies, human errors, unrecorded sales and the time wasted on correcting them are all, such issues can easily avoided when using Revel POS system that accurately collects and records data, allowing you to really see how your business is functioning and how to continually improve it.

As well as Revel POS systems can also track staff themselves: the times and hours worked and the number of transactions completed.
