

- 1: To wirelessly connect to the Mersive Solstice Pod, you will need to be connected to the 'eduroam' network. The basic instructions of how to connect a device to the Solstice Pod are displayed on the screen. If you do not have the Solstice App, you can download it from www.mersive.com or find it the relevant app store for your device. Laptops from Professional Services can download the app and Conference drivers from Software Centre. Laptops from other faculties may need to speak to their IT Teams to have the software installed.
- 2: To connect to the Mersive Solstice Pod, all you need to do is enter the 4 digit code displayed on the screen into the screen into the Search bar. You will now be connected to the Solstice Pod and able to start sharing content from your device.

- 3: To use the Mersive Solstice Pod as a Video Conference Device, select 'Room Camera + Mic', then press the button on the right, it will then connect the available camera and microphone to your laptop. These will then be available in Zoom, Teams, etc to use as the camera and mic for your meeting.

- 4: You will the select Share from the menu on your left, you can then choose to Share either your Desktop, or Just the individual app you want to Share.

- 4: For more information regarding the Solstice Pod, please scan the QR code.
