

Room Instructions

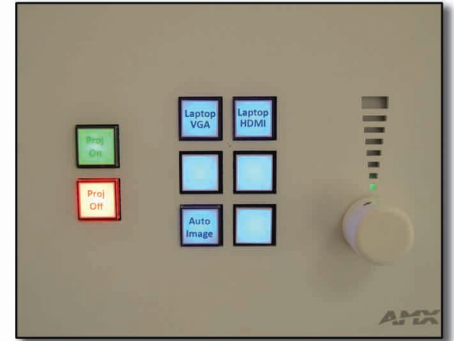

1: **To start**, connect your laptop with the **HDMI** cable provided, Some rooms also have a **VGA** cable if required. Note, not all rooms have VGA available.

2: Switch the projector on by pressing the **Proj On** button on the control panel.

3: The screen will lower automatically.

4: Now select the Input you are using from the control panel.

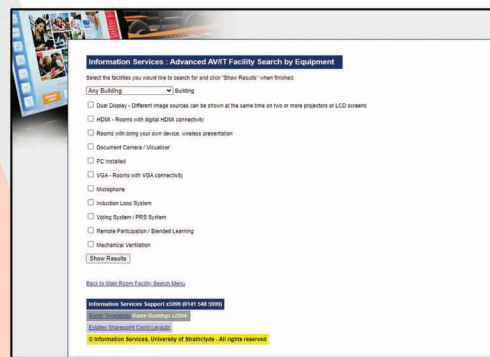

5: You should now see your desktop projected on screen. If you cannot see the image you may have to **“toggle”** your laptop.

On a Windows laptop press the Windows key  and 'P', then select Duplicate.

On a Mac laptop press the Command key  and F1 to Mirror the image

6: If you are using the **VGA** connection and you require audio, you must also plug the **mini-jack plug** into the **headphone socket** on your laptop.

7: Please **switch the projector off** when you have finished, using the **POWER OFF** button on the control panel.

New and upgraded teaching spaces only cable connection will be HDMI, there may be a PC or a Mersive Solstice wireless connection available.
