OBJECTIVE

The overall objective is to develop existing, though almost untapped defence historical resources into appealing and sustainable destinations by increasing the awareness and experience value.

RESULTS

1. Creating story-rich content: **videos, mobile app, marketing content, exhibitions**
2. Resolving shortages in infrastructure, supply chain and overall attraction management: **renovated and new touristic constructions, improved visitor experience, more accessible service chains**
3. Environmentally and culturally **more sustainable destinations**
4. A new **defence historical tourism attraction** with four suggestions

THANK YOU!
