# Learning by experimenting
Template for documenting learning outcomes and impacts of experiments

## 1. Objective
What was the aim of the experiment?

## 4. Variables
What kind of variables? What was measured?

## 5. Expectations
What kind of impacts were expected?

"Experimentation is a way to gain knowledge about the usefulness and impacts of changes prior to their wider implementation."

(Design for Government 2015)

## 2. Exccecution
How was the experiment implemented?

## 3. Cooperation
What kind of partners were involved?

## 6. End results
Was the experiment succesful? Did it bring new knowledge?

## 7. Conclusions
What was found out? Were results reliable?
