

5th joint meeting

Date: 28th November 2018

Version: 1.0

Project 585186-EPP-1-2017-1-FI-EPPKA3-VET-APPREN

Co-funded by the
Erasmus+ Programme
of the European Union

under the grant agreement 2017 – 2019 / 001 - 001

Project partners:

Attendees

P1 Rauni Jaskari, Jassi Aho, Jouko Broman, Liisa Kairisto-Mertanen

P2 Johanna Vainio

P3 Esa Höglblom

P4 Kari Sillanpää

P5 Thomas Röhr

P6 Martin Grotjahn

P7 Ludger Schneider-Störmann

1. Introductions and choosing the secretary

Ludger Schneider-Störmann volunteered to be the secretary.

2. Schedules of next meetings

International seminar in Austria as part of the AASE Meeting. Partners have budget (Dissemination) for this trip. Date: AASE Meeting 15.05.2019; Radical Seminar ½ day on 15th of May and ½ day of 16th of May 2019.

Regional Seminars: Participants from France and Germany might be adding value to the regional seminar of RADICAL to get more students and companies interested into the new program.

Next regional seminar/workshop in Finland ideas: Graduated High School Students in January 2019, 14. February 2019 in Helsinki and in April 2019 maybe organized by the Technical University of Turku.

23rd January 2019 6th Joint Meeting

9th April 2019 7th Joint Meeting

3. Overview of the Engine Model

Rauni wondering how fast the student-company agreement can be settled.

Rauni presenting the actual status of the RADICAL Engine Model.

Comments:

- a) 3rd Years program
 - Martin from Hannover explaining, that mainly, the students already have assigned to such a program with a company before applying at the university.
 - Exchange for Hannover dual students is obligatory (Summer School in USA, 18 ECTS, cost covered by the companies about 3.500 € per student, duration about 6 weeks, but students staying about ¼ of a year, thus international experience is guaranteed).
 - Aschaffenburg students typically do internship in a sister company or department of the employing company abroad in non-German speaking countries.
- b) Model: within one week split between stay at the university and stay at the company
 - Martin mentioned, that this might be too difficult for some companies
 - Thomas explained, that a longer stay at the company has advantages for both, students and companies.
 - Ludger proposing to focus on a model accepted by the majority of Finish companies and later introduce more study program.
- c) Agreement: Minimum payment is still missing.

A few points are skipped. But Rauni will put the file on examples of curriculum on the Messi workspace. Comments are welcome.

Also, for the internship abroad model should be checked by the project team. Recommendation: Keep the possibility to change the company during engine study and to end it.

First student hired from company CarinaFour. Some more companies asking for students. All starting in January 2019 (3rd term students)

Case studies will be published.

4. Coming articles - discussion and agreement about co-writing AHFE in Washington.

Paper 1: Benchmarking

Paper 2: Creation of the Engine Model.

Messi platform for exchanging will be used.

Needed:

- Photo
- 100 Words individual vita
- Timo and Tero will be going to the conference
- Presentation will be compiled by Rauni and Ludger, given to Timo using Radical PowerPoint template

5. News, updates

Project dissemination at RekryExpo Fair 21.11.2018 in Turku.

6. Mentoring model discussion, Feedback for Half Year Report, Other Issues

To be handled in the next meeting in January 2019.
