Föli bikes

Föli bikes are shared-use bicycles that can be used by everyone moving around in Turku. They are mainly meant for short-term use.

The city bike-share system consists of bikes for public use and bike stations that serve as pick-up and drop-off points. The user can pick up and drop off a bike at any station. It is also possible to leave the bike locked for a short time at a place other than a bike station—for example, when visiting a store.

To use the bikes, you must register as a user in the system.

You can buy the access right for Föli bikes for one day (EUR 5), or one week (EUR 10). If the bike ride is longer than 30 minutes, there will be an additional fee for each starting hour. You can use a city bike for up to five hours at a time.

For more detailed instructions, please read more here: <https://www.foli.fi/en/citybikes>
