SPARK Turku Networking Afternoon, November 26th

Are you interested in commercialization and utilization of research results in medicine, natural sciences or health technologies? Have you made novel inventions in academic research or clinical work, which you would like to develop further? Or perhaps you are thinking about complementing your degree with bioinnovation and business courses?

SPARK can help you by providing support in increasing the maturity of your idea and proof-of-concept testing, business education, and wider opportunities in international environment. Come and join the SPARK afternoon to learn how you can become part of the global SPARK collaboration and education network, which originates from Stanford!

Join to learn more: Mauno Conference Center on 26th of November, 2019 at 12 o'clock noon.

More information and registration: Eeva Rainio (erainio@utu.fi) or Eriikka Siirala (eriikka.siirala@tyks.fi)
