

New Kenzen Vital Balance®

Food for Action, Food for Thought

A single scoop and you're ready to go! New Kenzen Vital Balance® Meal Replacement Mix is high in naturally-sourced vegan protein from organic pea, organic rice and organic sacha inchi. We added organic sacha inchi to this formula because it is a rich source of plant-based omega-3 fatty acids.

This high-quality protein blend contains all of the nine essential amino acids that the body needs to obtain through food sources. The new enzyme blend not only addresses protein digestion but also supports the breakdown and absorption of carbohydrates*.

New KVB contains branched-chain amino acids that are essential for muscle growth and repair. We added organic blue agave inulin to the prebiotic blend to create three times more fiber to benefit digestive health and support the probiotics. The probiotic blend works synergistically to help improve digestion, nutrient absorption and balance in the gut microbiome*.

A low glycemic index helps support healthy blood sugar levels*. New KVB is cholesterol-free and low in saturated fat to support heart health*. Medium-chain triglycerides (MCTS) serve as “brain food” to support cognitive sharpness, assist in burning fat, support metabolism and appetite*.

MAIN BENEFITS

Supports liver functions*

Promotes gut health and a strong immune system*

Helps support weight management*

More Benefits

- Low glycemic index supports healthy blood sugar levels*.
- Naturally cholesterol-free and low in saturated fat to support heart health*.
- Plant-based omega 3 fatty acids for heart health.
