

Model: BARREL HF

Protection Class: I/C EH PR SR

Article: 0UL10224

ASTM Standards: ASTM F2413-24

Description:

U-Power safety shoes designed to ensure comfort, safety and strength in the workplace. The upper is made of fine, water repellent, pull-up leather, that is soft and hard-wearing, with a sturdy TPU support heel, to ensure stability and protection even in the most difficult conditions. The FiberToe toe cap ensures maximum protection without foregoing lightness, while the anti-perforation insole protects the foot against all risks of perforation plus flexibility and comfort throughout the working day. The PU/ PU Infinergy® sole provides excellent cushioning, impact absorption and a unique return of energy, thus reducing fatigue and improving posture.
