

Visiting Athletic Trainer:

I would like to welcome you and your team to Lexington and the University of Kentucky for this upcoming season. We want to make your visit here as simple as possible by providing the following information for you and your team:

You will have access to our athletic training room located in the Shively Sports Center, which is adjacent to the Cliff Hagan Baseball Stadium. It will be open several hours prior to and following the game. Please feel free to use as needed. If your team is traveling with a student athletic trainer or a non-certified athletic trainer, PLEASE SEND WRITTEN INSTRUCTIONS IN ADVANCE for athletes requiring treatment or taping. If your team is not traveling with an Athletic Trainer, please notify our staff in advance so that any necessary arrangements can be made. Student athletes will not receive any pregame ATR treatments without proper documentation. Our team physician will be available on site or on call. Emergency equipment (AED, vacuum splints, crutches) will be located in the home dugout (first base).

The following will be provided in your dugout located on the third base side:

- 2-10gal. coolers of water, cups, and towels
- Water bottles (for bullpen if needed)
- Small hydrocollator unit with pads
- 1 chest cooler with ice, ice bags and flexi-wrap
- Biohazard kit

The following link will help you with any visiting team information. <http://www.ukathletics.com/page/athletic-training-visiting-team-information>. If you need anything other than what is listed above, please do not hesitate to contact me directly. Once again, welcome to the University of Kentucky and good luck to you this upcoming season.

Sincerely,

Bryan Wells, MPA, ATC
Athletic Trainer
