

MANAGING YOUR TICKETS

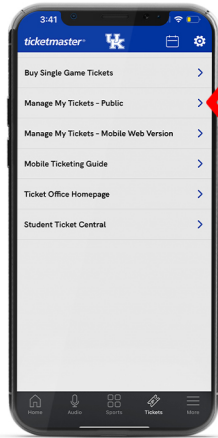

STEP-BY-STEP GUIDE

STEP 1

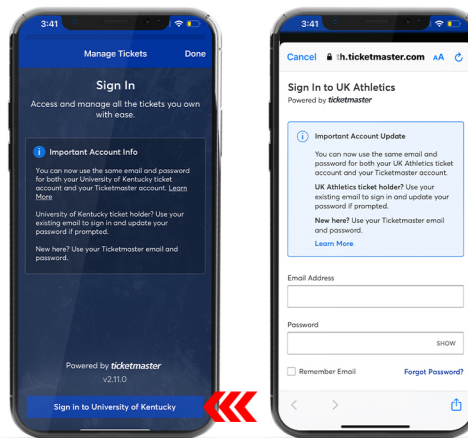

After downloading the UK Athletics App, open the app and select **Tickets** from the menu ribbon located at the bottom.

STEP 2

Select the **Manage My Tickets (Public)** option under the Ticket Page.

STEP 3

Login to **My UK Athletics Account** using the email and password associated with your season ticket account.

*Alternatively, if you purchased single game tickets on Ticketmaster.com, you may also login to Ticketmaster.

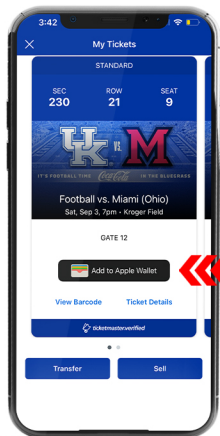

STEP 4

A list of your events will be displayed. Select an event to view your tickets.

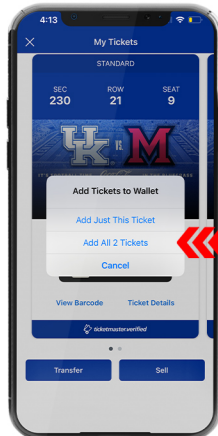

Parking passes will be displayed as a separate item. If you have tickets and parking, you will need to view each item separately. Be sure to add both your tickets and parking pass to your phone's wallet prior to game day.

STEP 5

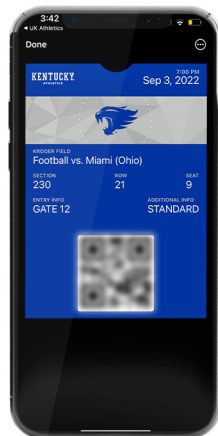

Select **Add to Apple Wallet** or **Google Pay**.

STEP 6

Select the number of tickets you would like to add to your Apple Wallet or Google Pay.

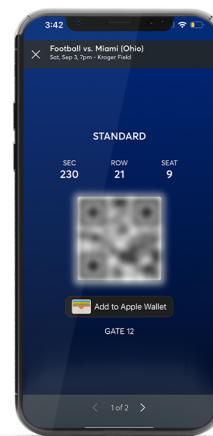

STEP 7

Your phone is your ticket on game day! Open Apple Wallet/Google Pay and select your UK ticket(s) and/or parking pass(es) to present your QR code(s) for entry. Be sure to charge your mobile device and turn the brightness on your phone all the way up prior to arriving at the venue.

OR

STEP 7: alternate

Although we highly recommend using Apple Wallet or Google Pay, you may also use the app to present your QR code(s) for entry.

STEP 7: Parking

Parking passes will be scanned at lot entry. Be sure to have your mobile pass ready prior to leaving home!

Following the correct pre-game traffic routes is important. Visit **UKAthleticsGameday.com** for directions into your lot.
