Dept. of Education Cost of Attendance Website Changes

A new federal requirement by the Department of Education -- that must be implemented immediately -- requires institutions to update all website pages on their domain referencing tuition and fees with a list of all Cost of Attendance components. UK's Office of Student Financial Aid and Scholarships has developed a website with the required Cost of Attendance information.

What does this mean for you?
To comply with this federal requirement, all colleges, departments and units must link to this university-wide Cost of Attendance page (https://studentsuccess.uky.edu/financial-aid-and-scholarships/cost-attendance) on your pages that reference tuition and fees, if applicable.

Please follow these steps:
1. Scan your websites for 1) tuition and fee rates listed and 2) any mention of "tuition" and "fees."
2. If you have tuition and fee rates listed, remove those rates and include the below content instead. (You may hyperlink these.)

Please refer to the websites linked below for relevant information for the current Academic Year.

- Cost of Attendance: https://studentsuccess.uky.edu/financial-aid-and-scholarships/cost-attendance. The total estimated expense to attend UK, including tuition, fees, housing, meals, books, supplies, transportation, and personal expenses.

- Tuition and Fees: https://www.uky.edu/studentaccount/tuition-fees. The specific charges for instruction and related services, excluding other living and personal expenses.

3. Additionally, on any webpage that mentions "tuition" or "fees," please include this content.
4. Submit this form once complete.
5. If you have questions or concerns regarding your specific website, email whitney.siddiqi@uky.edu.

Thank you for your assistance in ensuring compliance with this federal requirement.
