Our Guys + Ideal Draft Using Redraft ADPs

	Josh	Hayden
Round 1	**Christian McCaffrey (7th).** Has been the RB1 or RB2 in scoring when healthy. And he's healthy.	**Jahmyr Gibbs (4th).** New OC tilts it 60/40 his way. Already RB3 overall in 50/50 split.
Round 2	**Nico Collins (14th).** Incredible athlete. Dynamic after the catch. Too powerful on tight window targets. Top 5 WR?	**Nico Collins (14th).** 94 YPG on 9.1 targets in his 11 healthy games. OC upgrade. Healthy.
Round 3	**James Cook (32nd).** This was Chase brown all summer, until he climbed into round 2. Love double dipping RBs.	**Tee Higgins (28th).** WR4 overall in expected half PPR points last year. Chase contingency.
Round 4	**Kenneth Walker (41st).** An ideal fit in a Klint Kubiak outside zone running scheme. Explosive. Tackle breaker.	**Omarion Hampton (39th).** Bellcow size, pedigree, draft capital. Don't trust Najee early.
Round 5	**Jameson Williams (55th).** Jamo has taken his game to the next level. Hit 1,000 last season on just 91 targets.	**James Conner (49th).** Captain in RB-heavy scheme. Off a career-best missed tackles. Dog.
Round 6	**Travis Hunter (67th).** Jags traded up to get Hunter to score more TDs. I'm expecting 80% offensive snaps.	**Jaylen Waddle (68th).** Tyreek uncertainty and Jonnu trade provide pathway to real targets.
Round 7	**Ricky Pearsall (87th).** Led the 49ers in yprr vs man coverage last season. He will get the free releases, too.	**Jakobi Meyers (83rd).** 158-target pace last year w/o Adams. Geno upgrade. Bad WRs.
Round 8	**Brock Purdy (91st).** 49ers have the easiest schedule, and CMC will force defenses into fewer Cover 2 looks.	**Brock Purdy (92nd).** The 49ers are 4th in projected points vs. easiest schedule. He runs.
Round 9	**Emeka Egbuka (98th).** Immediate starter at any of WR position. Rookie WRs define second halves of seasons.	**Matthew Golden (97th).** Round 1 21yo early declares from big schools ball out. GB WR1.
Round 10	**Tyler Warren (102nd).** Not a stretch to think the Colts passing attack will revlove around Warren.	**Colston Loveland (113th).** An elite receiving prospect who will earn more snaps late in year.
Round 11	**Rashid Shaheed (127th).** Underrated real life WR. Kellen Moore will scheme he and Olave more underneath.	**CJ Stroud (123rd).** Stack your QBs with your WRs and TEs when you can. Stroud can spin it.
Round 12	**Bhayshul Tuten (138th).** My motto all summer - take the cheapest swing on the Jags RBs. Was Tank, now Tuten.	**Keenan Allen (144th).** 2.14 YPRR with Herbert in their last two years. Let's see if he's washed.
Round 13	**Braelon Allen (146th).** He will take more of Breece Hall's work than many expect, especially near the GL.	**Ray Davis (156th).** Tackle breaker with size for work if James Cook ever misses. Dumb thiccc.
Round 14	**Keenan Allen (143rd).** With questions behind Ladd, the Chargers will turn to the old man in 2 WR sets.	**Bryce Young (168th).** OL returns. WRs are deeper. Canales is good. He scrambles. Year 3.
Round 15	**Jacory Croskey-Merritt (224th).** This ADP will climb quickly. Get in while you can.	**Will Shipley (176th).** Clear-cut RB2 behind Saquon Barkley, coming off historic season.
Round 16	**Kyle Williams (212th).** It might take some time, but his talent will rise to the top. His releases are undeniable.	**Chig Okonkwo (188th).** 100% of snaps in 1st preseason game. Year 3. Cam Ward's No. 2?
Round 17		**Darius Slayton (196th).** $22M guaranteed this offseason to start in 2-WR sets. Fits new QBs.
Round 18		**Dameon Pierce (215th).** Power rusher in a new scheme. Mixon foot lingers. Year 4.

Our Fades Using Redraft ADPs

Josh	Hayden
Puka Nacua (10th). I rank Puka highly. This is a Stafford issue. Not Week 1, but what happens in Week 7 or Week 11?	**Justin Jefferson (6th).** Just comes down to me liking CeeDee Lamb a little more. Entire Round 1 is safe.
Any Quarterback (22nd, 24th). I love elite QBs, but don't take Lamar or Allen before McBride, Ladd, Tee, Chase Brown etc.	**Josh Allen (23rd).** Opportunity cost of elite QB starts in Round 3. Expect OL + rushing TD regression.
Garrett Wilson (34th). I read how Wilson is going to rank high in target share. He already saw the 4th most targets. It sucked.	**Kyren Williams (27th).** McVay studied TB's committee, then drafted another RB. Stafford's back.
Breece Hall (44th). The constant drumbeat, from coaches and beat writers, is this will be a 3 RB committee. Listen to them.	**D.J. Moore (43rd).** Rome Year 2. Elite TE prospect. Potentially good slot. QB uncertainty. Lots of Qs.
D'Andre Swift (65th). Not anti-Swift this season. Just have no clue how the Bears distribute the ball. He's not a RZ TD scorer.	**D'Andre Swift (60th).** Can't be trusted. Just ask Ben Johnson. Can he see goal line? Will Bears be good?
Baker Mayfield (63rd). Absurd touchdown rate last season. No Liam Coen. Tristan Wirfs injured. Chris Godwin injured.	**Baker Mayfield (68th).** TD regression based on math. Then lost his OC, LT, WR3, and maybe CG.
Evan Engram (83rd). I like Engram this year. But he should not be going two rounds ahead of someone like Tyler Warren.	**Brian Robinson (73rd).** Just in case you've been outside. He's about to be traded/cut. Early-down RB.
Chris Godwin, Khalil Shakir. Godwin is severely injured. In Shakir you are drafting a floor player who is also injured.	**Tyrone Tracy (105th).** Committee profile on bottom-10 offense with a bellcow threat in Skattebo.
Travis Etienne (108th). My stance all summer is to take the cheapest option in this backfield. Etienne is the most expensive.	**Jayden Reed (97th).** 3-WR sets only with new targets added. Hard to predict when to play. Better in best ball.
Michael Pittman (112th). Daniel Jones does not get me hyped that he can support Pittman, Downs and Warren.	**Quinshon Judkins (105th).** No practices. No contract in sight. 6 game suspension? Then he's a f*ckin Brown???
Tyjae Spears (128th). I love Tyjae Spears the player. I hate how a high ankle sprain will impact a player who relies on quickness.	**Rachaad White (105th).** Doubtful to have standalone value. If Bucky misses, Sean Tucker creates committee.
Trey Benson (136th). I'm not into Benson's hesitant running style. It is the exact opposite of feature back James Conner.	**Jaydon Blue (105th).** Undersized and bad in pass pro. Not a goal line threat. Dallas wants a committee. Also, hurt.
Wan'Dale Robinson (171st). Wan'Dale just isn't the type of player I gravitate to in fantasy. Difficult schedule.	**Matthew Stafford (92nd).** When you're in the Austin Powers cryochamber, you end up on the fades list.
Roschon Johnson (181st). Preidction: Kyle Monangai takes Roschon's short yardage job early.	**Adam Thielen (170th).** The competition in the slot is heating up with Jalen Coker and Hunter Renfrow.
Miles Sanders (227th). What if Miles Sanders doesn't even make the roster? Haven't clicked his name once.	**Wan'Dale Robinson (170th).** 5.0 YPT is disgusting. Russ has never used a player like him before either.
	Dont'e Thornton (204th). 4th-round senior averaged 2.0 receptions per game. Risk of WR3/4 duties on LV.
	Brashard Smith (193rd). Blindly fade any 7th rounder with buzz. Developmental WR-to-RB prospect.
	Andrei Iosivas (206th). Added another TE. Burton still in the mix.
