MBA in Project Management

Overview

Our MBA in Project Management offers an in-depth understanding of strategic project management, project lifecycles, risk management, and quality control. You'll learn how to navigate the complexities of project coordination, cost control, human resources, and stakeholder management.

Learning Outcomes

- Develop a holistic understanding of project management principles and practices.
- Apply critical thinking and problem-solving skills to manage project risks and uncertainties.
- Lead and manage project teams effectively.
- Understand the ethical and legal implications in project management.
- Evaluate and apply appropriate project management tools and techniques.
- Drive change and innovation in project execution.

Admission Requirements

National:

To apply for the MBA in Project Management at UNIMA eCampus, Malawian applicants must provide a valid National ID (both sides), along with a correctly formatted mobile number and email address. Applicants must submit a CV, two reference letters, a bachelor's transcript, and hold a bachelor's degree from a recognised university. ACCA, CIMA, or CIM Level 6 qualifications are recognised as equivalent. Provisional acceptance will not be issued without these documents.

International Applicants:

International applicants must meet all the national requirements above, including valid passport, contact details, CV, two reference letters, transcripts, and a recognised bachelor's-level qualification. Degrees from foreign universities must also be verified or deemed equivalent by NCHE, Malawi.

Short Description

At UNIMA eCampus, we believe in preparing leaders of tomorrow. Our MBA in Project Management is more than a degree; it's a professional journey towards becoming a transformative force in the world of business.

Your Career

Graduates of our MBA in Project Management program find rewarding careers in diverse fields. They work in roles such as Project Manager, Project Consultant, Program Manager, Operations Manager, and Project Portfolio Manager, across various sectors like IT, manufacturing, finance, healthcare, and more.

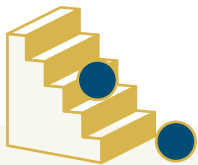

Course Structure

Our curriculum comprises core business administration courses, specialized project management subjects, and a final capstone project. This balance ensures you're equipped with a robust understanding of business principles and specialized project management skills.

Admission Criteria

Applicants should hold a bachelor's degree from a recognized university. Work experience, though not a prerequisite, could be beneficial. We also look for individuals who are driven, have a clear vision of their professional goals, and demonstrate leadership potential.

Shape The Future

Our MBA in Project Management is not just about gaining a degree; it's about gaining the skills and knowledge that will empower you to shape the future of businesses and societies. Join us and start your journey towards becoming a global project leader.

If you have any questions we're here to help.
