

## USNCCM18 Sponsor and Exhibitor General Information

The *U.S. Association for Computational Mechanics* (USACM) will host the 18th U.S. National Congress on Computational Mechanics (USNCCM18) July 20-24, 2025 at the Chicago Marriott Downtown Magnificent Mile in Chicago, Illinois. USACM is a member of the *International Association for Computational Mechanics*, a worldwide organization with 32 affiliated organizations representing over 40 countries.

The USNCCM18 Organizing Committee is soliciting organizations interested in participating in our Sponsorship and/or Exhibitors Program. Based on the attendance at recent U.S. National Congresses, we expect over 1200 participants for the Chicago venue. Congress participants are drawn from industry, academia, and government with an approximate split of 20% from industry, 60% from academia, and 20% from national laboratories and government agencies. The participants have a broad interest in computational mechanics and other computational engineering and sciences.

Congress participants will be interested in viewing and discussing publications, software, hardware, and other materials, including educational, related to computational mechanics in our Exhibitor Area. The Exhibitor Area will purposefully be the focus of daily activities, e.g., refreshments, to provide maximum traffic for our exhibitors.

With attendees from over 40 countries and the U.S., exhibiting at USNCCM18 will provide a unique low-cost opportunity to present your product or service to a large international and national audience.

If you are interested in sponsoring and/or exhibiting, please download and complete the Sponsor and Exhibitor Intent Form and email it to [admin@usacm.org](mailto:admin@usacm.org).

For further information, contact Bethany Roicki at [bethany@usacm.org](mailto:bethany@usacm.org).
