

Christopher M. Spadaccini, Ph.D. is the Materials Engineering Division Leader in the Engineering Directorate at Lawrence Livermore National Laboratory. He has over 75 peer-reviewed publications, 4 book chapters, more than 100 invited presentations, and over 50 patents. He started several laboratories at LLNL for advanced and additive manufacturing process development focused on micro and nano-scale features and mixed material printing. He was the founding Director of the Center for Engineered Materials and Manufacturing before becoming a division leader and co-led efforts to establish the Advanced Manufacturing Laboratory, a new facility in the Livermore Valley Open Campus. He received his B.S., M.S., and Ph.D. from MIT.
