MINISYMPOSIUM

The mini-symposium is dedicated to the memory of Professor J. Tinsley Oden in order to celebrate his lifetime contributions to the field of computational mechanics, and more broadly, to Computational Sciences and Engineering. We invite Tinsley's colleagues, students, friends, and the broader community, to honor the deep legacy of a visionary leader and celebrate his exemplary and legendary life. We anticipate contributions dealing with recent developments on broad topics in computational sciences and engineering and applied mathematics.
