Santo Toribio de Mogrovejo
Catholic University

Santo Toribio de Mogrovejo Catholic University

Santo Toribio de Mogrovejo Catholic University is an educational institution which is promoted and sponsored by the Bishopric of Chiclayo and is located in the department of Lambayeque in the north of Peru.

This university is a community of professors and students who serve society blending faith and science as a norm of Christian life since its founding on October 14th, 1998. It has a first class technology and infrastructure, which facilitates personal and professional formation in accordance with the circumstances and motives, which exist in today's society.

The education imparted to students attending Santo Toribio de Mogrovejo Catholic University combines educational and scientific experiences with continuous modernization in demand by current social changes and trends. Thanks to the agreements that have been signed with important universities in America and Europe in recent years, the internationalization of our university has now become a tangible reality.

Consistent with our mission and axiology statements, Santo Toribio Catholic University makes a special effort to mold students during classes independently of their socioeconomic backgrounds and conditions. It is of the utmost importance to us to have students with adequate academic qualities for university studies. Furthermore, the scholarship program and the tiered tuition policy offered by our university give a lot of families from the northern region of our country the opportunity to enroll their children in our various programs.

In the words of its founder, Monsignor Ignacio Maria de Orbegozo y Goicoechea, Santo Toribio de Mogrovejo University seeks to mold people into professionals with a high degree of science and a profound Christian life.

Our university does not receive any government subsidies or private funding. However, in order to carry out specific work for the benefit of all those who are economically and socially marginalized, we do receive support from various institutions such as: Generalitat Valenciana via the Mainel Foundation, the Community of Madrid via Cooperación Social, the Italian government, the Roviralta Foundation and the Italian Episcopal Conference. All of these institutions are committed to our serious work.

Our main objective is to build character and mold students in becoming highly qualified professionals with sound Christian principles in order to produce a significant sociocultural change within our society.
