EXPERIENCE

2020: ED&U `Current Job`
- I work with complex systems of the army and Elbit
- I work in collaboration with designers, PMs, Developers and ergonomics engineers
- I led a process of building a design system from scratch up to the ongoing work

2019: Easy Bizy `Current Job`
- I work with the PM to improve the user experience
- I'm developing a new design system
- I built the UX based on user interviews, preliminary research and collaborative work with the customer service team

2019: Best Designers Ever
I worked as part of the Product Design team. I worked on complex systems in collaboration with other designers.

2017-2018: Tink Design
Responsible for social media design & branding

2014-2016: RM Studio
- During the work at RM-Studio I learned to manage time projects, working with large companies
- I was responsible from start to final production

STRENGTH POINT

- I lead processes of assimilation and building a design system
- I worked on products from UX Concept, UX Details to Design System and UI for the entire product.
- I get along very well with the team and with clients

Mentors Club

I participate as a mentor in the startup designers community
