RECENT PROJECT

Most recently, I worked as a Creative Director in the product development of a Black history calendar app. I constructed the brand identity, personas, wireframes, and successfully led the design team in establishing a unique user experience for our client and users. Black History Calendar App

EXPERIENCE

UX/UI Designer

Redhouse Virtual Education

April 2020 - Present - Dallas, TX

Collaborated with product and development teams to define and implement innovative solutions for the product direction, visuals and experience. Conducted usability tests, using feedback to inform design decisions. Developed prototypes for eLearning platform, and Hololens applications.

Creative Director

WhaleboneMgmt

September 2020 - November 2020 - Dallas, TX

Supervised direction of overall strategic vision for client projects. Provided foundation for designers to produce excellent work. Shaped and guided creative paths. Collaborated in hiring talent to build design and development team.

Visual Designer & Consultant

Loum Designs

January 2018 - April 2020 - Dallas, TX

Worked on projects with over 20+ clients ranging from brochures, flyers, T-shirts, logos, mobile, and website design. Provided product design solutions that met user and client needs through clear and effective communication, research and planning, sketching, information architecture, visual design, and prototyping.
