## ABOUT

I am a teacher-turned-UX designer with a Bachelor's degree in psychology. My educational background and experience mean I understand users' needs from a psychological standpoint, and the strong sense of empathy I developed while teaching helps me design products that form an emotional connection with the user. My goal is to design products that make a lasting positive impact.

## WORK EXPERIENCE

### CO-TEACHER

Gan Yeladim Early Childhood Center | Oct. 2017 - March 2020

- Utilized knowledge of child development in designing class curriculum
- Organized and prepared developmentally-appropriate lesson plans for children aged 2 to 3 years
- Published detailed documentation of projects and activities
- Collaborated with other teachers on large-scale projects

### CO-TEACHER

Preschool of the Arts | Jan. 2016 - Aug. 2017

- Successfully planned, prepared, and implemented daily lessons and activities for children aged 2 to 5 years
- Fostered a nurturing environment to meet emotional, social, physical and cognitive needs of each child
- Developed strong, lasting relationships with parents and children
