Profile

I am a **User Experience and Interaction designer** currently working as Freelance, I am passionate for creating meaningful and memorable product experiences for people with people. When I'm not working, I like eating Pizza 🍕, working out, playing the guitar, reading new books, and watching Netflix and Apple TV Series and films.

Career Summary

Product Designer UX Specialist

Freelance @Teamsystem s.p.a
10-2021 to present

As a Freelance Designer, my task is to support the Design team working on Team System's products.

My Role: Working side by side with the Design & Development Team, including UX Analysis, Design Wireframes, and UI, Usability Testing activities, and iteration on design products.

UX Designer

Freelance @Tangible S.r.l. SB
08-2021 to present

As a Freelance Designer my task is to support the UX Design team at Tangible on some projects, mostly on the Coop Alleanza 3.0 project.

My Role: Working side by side with the Tangible's Team, including UX Research & Analysis, Design, and Usability Testing activities.

UX Designer Consultant

Freelance @Assist Digital
03-2021 to 09-2021

As UX Consultant I work with Assist Digital's Service & UX Design Team, defining the project requirement and delivering the UX solutions, for Open Energy (ENI Gas & Luce Project). Including activities like workshops and co-design sessions and mapping out the operator experience, with stakeholders to define some customization about Microsoft Dynamics 365, the CRM software used in-house (ENI).
