Staff Contact: Kevin R. Phelps, City Manager

Staff Contact: Michael D. Bailey, City Attorney

Purpose and Recommended Action

This is a request for City Council to authorize and direct the City Manager to enter into a Settlement Agreement (the "Agreement") between the City, the Arizona Sports and Tourism Authority, the Arizona Cardinals Football Club LLC, the New Cardinals Stadium LLC, and the Stadium Development LLC.

In accordance with the Agreement, it is requested that the City Council authorize the City Manager to sign the Agreement and to make the payment to the a) Arizona Sports and Tourism Authority (AZSTA) and b) the Arizona Cardinals Football Club LLC, the New Cardinals Stadium LLC, and the Stadium Development LLC (collectively referred to as the "Cardinals") in a settlement amount not to exceed Fourteen Million Eight Hundred Seventy-Five Thousand Dollars (\$14,875,000.00). A total of five payments are scheduled to be made through July 1, 2020. The City may exercise its right to reduce the settlement amount to Fourteen Million One Hundred Thousand Dollars (\$14,100,000.00) if the final scheduled payment is made prior to July 1, 2019.

This is also a request for City Council approval for a budget appropriation transfer from General Fund, Contingency (1000-11901-510200) to General Fund, Non-Departmental, Professional and Contractual (1000-11801-518200) in the amount of Three Million Dollars \$3,000,000.00 which represents the amount due in the current fiscal year under the agreement.

Background

Since the inception of a May 27th, 2003, Parking License and Agreement, the City has been required to make parking available to serve the University of Phoenix Stadium ("Stadium"). On May 2, 2012, a notice of claim for breach of contract was filed by AZSTA and the Cardinals in the amount of \$66.7 million for the City's failure to provide adequate assurance for Stadium parking.

On October 13, 2015, the City acquired approximately 96 acres of property for parking around the Stadium. It was anticipated that the property would assist in the settlement of the claim.

Subsequently, AZSTA, the Cardinals, and the City agreed to enter into good faith discussions with the mutual goal of a) resolving the claim.

Analysis

With the goal of resolving the current claim surrounding the Stadium, the proposed agreement attempts to “settle, resolve, and put behind them any and all controversies, claims, actions, disputes, and matters, whether known or unknown, that the Parties have or may have against each other, relating to, arising out of, or connected with the Notice of Claim or the subject matter thereof and, in connection therewith, to amend, modify and supersede the Existing Parking Agreements (as defined below) to the extent provided in this Settlement Agreement.” Generally, the terms of the agreement outline the following:

- Settles the \$66.7 million claim
- Assures parking for the Stadium
- Assures access from parking to the stadium which addresses the changing load configuration
- Assures the efficient ingress and egress to/from the Stadium
- Assures the 95th Avenue infrastructure improvements are constructed which completes 95th Avenue from Bethany Home Road through Camelback Road.
- Assures a land exchange to facilitate the 95th Avenue infrastructure improvements

The total settlement amount is not to exceed Fourteen Million Eight Hundred Seventy-Five Thousand Dollars (\$14,875,000.00). A total of five payments are scheduled to be made through July 1, 2020. The City may exercise its right to reduce the settlement amount to Fourteen Million One Hundred Thousand Dollars (\$14,100,000.00) if the final scheduled payment is made prior to July 1, 2019. A summary of the settlement payments follows:

- November 17, 2016 (Three Business Days After the Settlement Effective Date) - \$3,000,000.00;
- July 3, 2017 (FY17-18) - \$3,000,000.00;
- July 2, 2018 (FY18-19) - \$3,000,000.00;
- July 1, 2019 (FY19-20) - \$3,000,000.00;
- July 1, 2020 (FY20-21) - \$2,875,000.00 - If this final schedule payment is made prior to July 1, 2019, it will total \$2,100,000.00.

As the 95th Avenue Infrastructure project is not budgeted, staff will seek Council approval in a subsequent Council Voting Meeting for the funding source and staff will seek Council approval for a budget appropriation transfer related to the project.

Community Benefit/Public Involvement

This agreement settles the \$66.7 million claim and resolves the issues surrounding the claim.

Budget and Financial Impacts

Staff is seeking City Council approval for a budget appropriation transfer from General Fund, Contingency (1000-11901-510200) to General Fund, Non-Departmental, Professional and Contractual (1000-11801-518200) in the amount of Three Million Dollars \$3,000,000.00 which represents the amount due in the current fiscal year under the agreement. Requests for subsequent fiscal year payments under this settlement will be made through the annual budget process.

STADIUM PARKING SETTLEMENT AGREEMENT

This Stadium Parking Settlement Agreement (“Settlement Agreement”) is entered into effective as of November ____, 2016 (the “Settlement Effective Date”) by and among Arizona Tourism and Sports Authority, d/b/a Arizona Sports and Tourism Authority (“AZSTA”), Arizona Cardinals Football Club LLC (the “Club”), New Cardinals Stadium LLC (“NCS”), Stadium Development LLC (“SD”), and the City of Glendale (the “City”). The Club, NCS, and SD are collectively referred to as the “Cardinals.” AZSTA, the Cardinals, and the City are collectively referred to as the “Parties” and singularly referred to as a “Party.”

RECITALS

WHEREAS, on May 2, 2012, AZSTA and the Cardinals filed with the City a Notice of Claim pursuant to A.R.S. § 12-821.01 (the “Notice of Claim”), by which AZSTA and the Cardinals gave the City notice of a claim alleging that the City had repudiated certain contractual obligations relating to the provision of parking for Events at University of Phoenix Stadium (the “Stadium”).

WHEREAS, as a result of the Tolling Agreement and the Litigation Standstill Agreement and the amendments thereto (collectively, the “Tolling and Litigation Standstill Agreements”), the Parties have agreed to toll for various periods the statute of limitations for filing a lawsuit based on the Notice of Claim, and to defer the filing of any such lawsuit, and as a result no such lawsuit has been filed or is pending.

WHEREAS, on or about November 16, 2015, the City acquired two parcels of real property located in the vicinity of the Stadium, as follows: (a) the parcel of approximately 22 acres, located generally at the southwest corner of 91st Avenue and Maryland Avenue (as described in greater detail on Schedule PN, the “PN Parcel”); and (b) the parcel of approximately 72 acres, located generally at the southwest corner of 91st Avenue and Bethany Home Road (as described in greater detail on Schedule PS, the “PS Parcel”).

WHEREAS, the Parties now desire, on the basis set forth in this Settlement Agreement, to comprehensively and finally settle, resolve, and put behind them any and all controversies, claims, actions, disputes, and matters, whether known or unknown, that the Parties have or may have against each other, relating to, arising out of, or connected with the Notice of Claim or the subject matter thereof and, in connection therewith, to amend, modify and supersede the Existing Parking Agreements (as defined below) to the extent provided in this Settlement Agreement.

AGREEMENT

For and in consideration of the mutual undertakings hereunder, and each Party intending to be legally bound, the Parties agree as follows:

1. **Recitals.** The recitals set forth above are incorporated into this Settlement Agreement and are made a part of this Settlement Agreement by reference.
2. **Definitions.** Capitalized terms not otherwise defined in this Settlement Agreement have the meaning set forth in Exhibit A.
3. **Amendments to Existing Parking Agreements; Ratification of Existing Parking Agreements.** This Settlement Agreement is intended to amend, modify and supersede the Existing Parking Agreements to the extent set forth in this Settlement Agreement. To the extent of any inconsistency between this Settlement Agreement and any of the Existing Parking Agreements, this Settlement Agreement shall control and the Existing Parking Agreements shall be deemed to be amended, modified and superseded to the extent of such inconsistency. Except as otherwise set forth in this Section, the Existing Parking Agreements shall remain in full force and effect and are ratified and confirmed.
4. **Modifications to the Stadium Parking System.**
 - (a) **PN Spaces.** It is acknowledged and agreed that the City has constructed the PN Spaces prior to August 12, 2016 and otherwise in accordance with Amendment Number Four to the Tolling and Litigation Standstill Agreements. At all times during the Term, all of the PN Spaces shall be fully improved parking spaces, paved in a manner typical of commercial grade parking, with reasonable lighting, landscaping and other reasonable accommodations. During the Term, the City shall not sell, lease, license (other than Permitted Licenses), pledge, encumber or otherwise transfer any of the real property on which the PN Spaces are located without the prior written consent of AZSTA and the Cardinals, which consent may be withheld in the applicable Party's sole and absolute discretion.
 - (b) **Improvement of PS Parcel; Condition of PS Spaces.** Prior to the Completion Date, at the City's sole cost and expense, the City shall construct the PS Spaces substantially in accordance with the specifications set forth on Schedule PS-P, and as otherwise reasonably agreed to by the Parties, acting in good faith. The parking spaces located on the PS Parcel are referred to as the "PS Spaces." At all times during the Term, all of the PS Spaces shall be fully improved parking spaces, paved in a manner typical of commercial grade parking, or turf parking and shall be provided with reasonable lighting, landscaping, pedestrian walkways to connect to the Pedestrian Infrastructure, and other reasonable accommodations. During the Term, the City shall not sell, lease, license (other than Permitted Licenses), pledge, encumber or otherwise transfer any of the real property on which the PS Spaces are located without the prior written consent of AZSTA and the Cardinals, which consent may be withheld in the applicable Party's sole and absolute discretion.

(c) Infrastructure Improvements.

- (i) It is acknowledged and agreed that (x) the modifications to the Stadium parking system contemplated by this Settlement Agreement will have a material impact on the patterns of vehicular and pedestrian traffic in connection with Events at the Stadium and (y) in order to accommodate such changes in vehicular and pedestrian traffic, it will be necessary to construct various infrastructure improvements, including the Pedestrian Infrastructure.

(ii) Pedestrian Infrastructure Improvements.

1. Prior to the Completion Date, the City shall cause the Pedestrian Infrastructure to be constructed and completed substantially in accordance with the design basis drawings set forth on Schedule PI (the “Pedestrian Infrastructure Plans”). Unless otherwise required to be selected and/or engaged by the City pursuant to applicable law, the Cardinals shall be responsible for the selection and engagement of the design professionals for the design and development of the Pedestrian Infrastructure, subject to the approval of the City, which approval shall not be unreasonably withheld, conditioned or delayed. The City (and the Cardinals in accordance with the provisions of subsection 2 below) shall cause the Pedestrian Infrastructure to be completed in a good and workmanlike manner, free from liens and defects.
2. After the Settlement Effective Date, the Cardinals shall prepare detailed design documents in form and substance necessary for public bidding for the general contractor based on the Pedestrian Infrastructure Plans. Within sixty (60) days after receipt of such detailed design documents, the City shall select the general contractor to construct the Pedestrian Infrastructure in accordance with A.R.S. § 34-101, *et seq.* The City shall cause such general contractor to commence construction of the Pedestrian Infrastructure in order to complete the Pedestrian Infrastructure prior to the Completion Date. From and after the date on which such general contractor commences construction of the Pedestrian Infrastructure, and to the fullest extent permitted by law, the Cardinals shall have the primary control over the installation of the Pedestrian Infrastructure, subject to the City’s input for the purpose of complying with local design and/or permitting codes, rules, regulations and ordinances, building safety requirements or procurement

requirements. The City shall have the primary responsibility for obtaining all easements and rights of way, including but not limited to easements on rights of way pertaining to the adjacent Salt River Project channels, necessary for completion of the Pedestrian Infrastructure, subject to the reasonable cooperation of each of AZSTA and the Cardinals to the extent reasonably necessary to assist the City with obtaining such easements and rights of way.

3. The City's maximum liability for the payment of the costs and expenses to construct and complete the Pedestrian Infrastructure shall be Three Million One Hundred Thousand Dollars (\$3,100,000.00) (the "City PI Amount"). The City shall take all acts necessary to waive any applicable City permit fees with respect to the construction of the Pedestrian Infrastructure, to the extent waivable. The Cardinals, at its sole cost and expense, shall be responsible for any amounts exceeding the City PI Amount necessary to construct and complete the Pedestrian Infrastructure.
4. As a condition precedent to the effectiveness of this Settlement Agreement, the City and the Cardinals shall have entered into a Construction Escrow Agreement in substantially the form attached hereto as Exhibit B (the "PI Escrow Agreement").
5. Upon completion of the Pedestrian Infrastructure, the City shall be responsible for maintaining, repairing and controlling the Pedestrian Infrastructure.

(d) Permanent City Parking Spaces. After the Settlement Effective Date and prior to the Completion Date, for all Events for which the City is obligated to provide the Shared Coyotes Spaces and Overflow Spaces under the Existing Parking Agreements (a "Stadium Parking Event"), the City shall provide parking spaces in the same numbers and in the same locations as were provided during the 2016 NFL season. After the Completion Date, for all Stadium Parking Events, the City shall provide eleven thousand (11,000) parking spaces in the locations and in the numbers set forth on Schedule X (Permanent Parking Layout). Except as expressly set forth below in Section 4(i) (Westgate MUDA; Requests for Conveyance) or Section 4(g) (Priority of Use; Arena Conflicts), the City shall have no right to change the location of any such parking spaces without the prior written consent of AZSTA and the Cardinals, which may be withheld in the applicable Party's sole discretion. If in connection with any Stadium Parking Event the City complies with this paragraph, the City shall be deemed to have satisfied its obligation to provide the Shared Coyotes Spaces and Overflow Spaces pursuant to the Existing Parking Agreements with respect to such Stadium Parking Event.

(e) Permanent Westgate Parking Spaces. After the Completion Date, for all Events for which the City is obligated to provide the Shared Coyote Spaces under the Existing Parking Agreements, as a portion of the Permanent City Parking Spaces, the City shall provide two thousand seven hundred eighty nine (2,789) parking spaces at Westgate, as follows:

<u>Westgate Parking Lot</u>	<u>Number of Spaces</u>
Lot B	540
Lot J	640
Lot G	1,169
Hotel Parking Garage	<u>440</u>
Total:	2,789

The parking spaces referred to in the foregoing table are referred to as the “Permanent Westgate Parking Spaces.” The parking lots in which the Permanent Westgate Parking Spaces are located are described in greater detail in Schedule PWPS. Except for a Permitted Transfer or as otherwise expressly permitted under this Settlement Agreement, during the Term, the City shall not sell, lease, license, pledge, encumber or otherwise transfer any of the real property on which the Permanent Westgate Parking Spaces are located without the prior written consent of AZSTA and the Cardinals, which consent may be withheld in the applicable Party’s sole and absolute discretion. To the extent AZSTA and/or the Cardinals have caused any of the Existing Parking Agreements (or any memorandum thereof) to be recorded against any other property at Westgate, AZSTA and the Cardinals shall cause such recordation to be removed of record promptly after the Completion Date.

(f) Operating Costs and Expenses; Insurance. The provisions of Sections 3.2 and 4.1 of the Parking License shall apply to the Permanent City Parking Spaces as if the Permanent City Parking Spaces were Shared Coyotes Spaces and Overflow Spaces.

(g) Priority of Use; Arena Conflicts. AZSTA or the Cardinals, as applicable, shall have an absolute first priority right to use all of the PN Spaces and PS Spaces during all Events for which the City is obligated to provide such parking spaces to AZSTA or the Cardinals under this Settlement Agreement, subject to Section 4(h) of this Settlement Agreement. Except to the extent, if any, prohibited by any agreements in effect as of the Settlement Effective Date, AZSTA or the Cardinals, as applicable, shall also have an absolute first priority right to use all of the Permanent Westgate Parking Spaces during all Events for which the City is obligated to provide such parking spaces to AZSTA or the Cardinals under this Settlement Agreement, subject to Section 4(h) of this Settlement Agreement. To the extent any agreements in effect as of the Settlement Effective Date contain any such prohibition, the City shall use commercially reasonable efforts to amend such agreements promptly to allow the City to provide to AZSTA or the Cardinals, as applicable, such absolute first priority right to use all of the Permanent Westgate Parking Spaces during all Events for which the City is obligated to provide such parking spaces to AZSTA or the Cardinals under this Settlement Agreement. After the Settlement Effective Date, the City shall not enter into any agreement (including any amendment or extension of any existing agreement) relating to the PN Spaces, PS Spaces, or Permanent

Westgate Parking Spaces (including but not limited to any agreement relating to the use or management of the Arena) that would restrict the City's ability to provide all of those parking spaces to AZSTA or the Cardinals, as applicable, for all Events for which the City is obligated to provide such parking spaces under this Settlement Agreement. This Section 4(g) shall supersede any conflicting provisions in any of the Existing Parking Agreements, including but not limited to Section 8.4 of the DDA. The City shall use commercially reasonable efforts to avoid any scheduling conflicts between the Stadium and the Arena.

(h) Scheduling of Events. Subject in all cases to Section 5, in the event (i) the City gives written notice to AZSTA of a proposed activity or event to be conducted by the City (a "City Use") on the PN Spaces, PS Spaces and/or Permanent Westgate Spaces (which notice shall describe the proposed City Use in reasonable detail) and (ii) as of the date which is ninety (90) days prior to such proposed City Use, there is no Stadium Parking Event scheduled at the Stadium on the date of such proposed City Use, then such City Use may proceed in accordance with the notice provided to AZSTA pursuant to this paragraph. Notwithstanding the foregoing, there shall be no City Use of the PN Spaces, PS Spaces and/or Permanent Westgate Spaces on any NFL Dates.

(i) Westgate MUDA; Requests for Conveyance. The City represents and warrants that as of the date of this Settlement Agreement, the MUDA is in full force and effect and has not been modified or amended. During the Term, except for a Permitted MUDA Amendment, the City shall not amend or modify Section 4.6 of the MUDA or waive any of its rights under Section 4.6 of the MUDA without the prior written consent of AZSTA and the Cardinals, which consent may be withheld in the applicable Party's sole and absolute discretion. In the event the City receives any Request for Conveyance (as defined in the MUDA) under Section 4.6 of the MUDA with respect to any of the parcels used to provide the Permanent Westgate Parking Spaces, (a) the City shall promptly provide a complete copy thereof to AZSTA and the Cardinals; (b) prior to responding to such Request for Conveyance, the City shall consult in good faith with AZSTA and the Cardinals concerning the related Replacement Parking Plan (as defined in the MUDA); (c) the City shall incorporate into its response to such Replacement Parking Plan any reasonable comments provided by AZSTA and/or the Cardinals; (d) the City shall not consent to any Replacement Parking Plan without the prior written consent of AZSTA and the Cardinals, which shall not be unreasonably withheld so long as such Replacement Parking Plan does not contemplate any reduction in the number of Permanent Westgate Parking Spaces and all of the replacement parking spaces are fully improved commercial grade parking spaces that are located at Westgate; and (e) at the Closing (as defined in the MUDA) of any transaction contemplated by Section 4.6 of the MUDA, the City shall cause this Settlement Agreement to be recorded against all parcels received by the City at such Closing (each, a "Replacement Westgate Parking Parcel"). From and after any such Closing (provided such transaction has been accomplished in accordance with this Settlement Agreement), (i) all of the parking spaces located on such Conveyance Parcel (as defined in the MUDA) shall no longer constitute Permanent Westgate Parking Spaces; (ii) all of the parking spaces located on such Replacement Westgate Parking Parcel shall be deemed to be Permanent Westgate Parking Spaces for all purposes of this Settlement Agreement (including without limitation the transfer

restrictions set forth in Section 4(e)); (iii) the table in Section 4(e) of this Settlement Agreement along with Schedule PWPS to this Settlement Agreement shall be deemed to be amended to reflect the foregoing clauses (i) and (ii); and (iv) the City is authorized to take any action necessary to cause this Settlement Agreement to be no longer recorded as an encumbrance against the applicable Conveyance Parcel.

5. Certain Restrictions on Use of PN Parcel; PS Parcel and Permanent Westgate Parking Spaces. Subject to the rights of AZSTA and the Cardinals under Section 4(g) (Priority of Use; Arena Conflicts) and the transfer restrictions set forth in Sections 4(a) and (b), at any time when the PN Spaces or the PS Spaces are not being used for Event parking, the City may use the PN Spaces or the PS Spaces for any purpose (including without limitation to provide parking for events at the Arena) except as otherwise prohibited under this Section 5.

(a) PN Parcel.

- (i) Advertising. There shall be no advertising on the PN Parcel at any time, except for temporary advertising during events held on the PN Parcel in accordance with this Agreement. All such temporary advertising must be submitted to the Cardinals for approval at least ten (10) days prior to the applicable event. Such temporary advertising shall not conflict with the Cardinals or any of its sponsors. Provided no such conflict exists, the Cardinals shall not unreasonably withhold such approval.
- (ii) Events. There shall be no events conducted on the PN Parcel, and no concessions or other items shall be sold on the PN Parcel, at any time when the PN Spaces are being used for Event parking, unless approved by AZSTA and the Cardinals. The City shall give AZSTA and the Cardinals thirty (30) days' prior written notice of any proposed event to be held on the PN Parcel. There shall be no events held on the PN Parcel that are Competitive with events held at the Stadium or Sportsman's Park unless approved by AZSTA and the Cardinals.

Any proposed City Use shall be deemed to be "Competitive" if such proposed City Use reasonably would be considered to: (A) conflict with or be competitive with (i) AZSTA; (ii) the Fiesta Bowl Foundation (or any then-current Fiesta Bowl sponsor); or (iii) the Cardinals (or any then-current Cardinals sponsor); (B) conflict with or be competitive with any activity or event that is scheduled to be conducted in the Stadium or Sportsman's Park within ten (10) days before or after such City Use; or (C) conflict with or be competitive with any recurring activity or event that has been conducted in the Stadium or Sportsman's Park on at least two (2) or more occasions in the three (3) year period preceding such City Use.

(b) PS Parcel.

- (i) Advertising. There shall be no advertising on the PS Parcel at any time when the PS Spaces are being used for Event parking, except as permitted by the Cardinals. There shall be no billboards or other outdoor advertising (i.e., advertising for offsite goods or services) on any portion of the PS Parcel, including any portion thereof not used for the PS Spaces, without the prior written consent of the Cardinals, which consent may be withheld in the Cardinals' sole and absolute discretion.
- (ii) Events. There shall be no events conducted on the PS Parcel, and no concessions or other items shall be sold on the PS Parcel, at any time when the PS Spaces are being used for Event parking, unless approved by AZSTA and the Cardinals. The City shall give AZSTA and the Cardinals thirty (30) days' prior written notice of any proposed event to be held on the PS Parcel. There shall be no events held on the PS Parcel that are Competitive with events held at the Stadium or Sportsman's Park unless approved by AZSTA and the Cardinals.

(c) Permanent Westgate Parking Spaces. Unless required under a pre-existing agreement that is listed on Schedule Y (a complete copy of each such agreement shall be delivered by the City to AZSTA and the Cardinals promptly upon written request), there shall be no advertising, sales of concessions or other items in the Permanent Westgate Parking Spaces at any time when the Permanent Westgate Parking Spaces are being used for parking during Events except as permitted by the Cardinals. There shall be no events conducted in the Permanent Westgate Parking Spaces at any time when the Permanent Westgate Parking Spaces are being used for parking during Events except as permitted by the Cardinals.

6. 95th Avenue Infrastructure. Prior to the Completion Date, at the City's sole cost and expense, the City shall cause the 95th Avenue Infrastructure to be constructed and completed.

7. Traffic Operations Minimum Standards. From and after the Settlement Effective Date, the City shall conduct traffic operations for all Stadium Events in accordance with the minimum standards set forth on Schedule TO (Traffic Operations Minimum Standards).

8. Cardinals Trademarks; Signage on City Streets During Stadium Events. The City shall make no use of the Cardinals logo or other trademarks without the prior written consent of the Cardinals, which may be withheld in the Cardinals' sole discretion. On the date of any Event, the City shall not display, or permit to be displayed, any non-permanent signage (other than (x) non-commercial signage required under applicable federal law, state law, or pre-existing municipal law or (y) temporary directional signage for Event purposes) in, on, above or adjacent to any City street or right-of-way located within a one-half mile of the AZSTA Parcel, including without limitation in, on, above or adjacent to Maryland Avenue, Bethany Home Road, 91st Avenue and 95th Avenue, without the written permission of the Cardinals and AZSTA.

9. Parking Fees and Charges. The City shall not impose any parking fees or charges for any Stadium Parking Spaces provided by the City for any Event. The City shall not offer or provide (and shall not grant any third party the right to offer or provide) any parking spaces in any other parking facilities owned or controlled by the City located within a one-mile radius of the AZSTA Parcel during any Event (except for parking spaces provided to City personnel who are providing services in connection with such Event); provided that the City may provide parking as reasonably required for Arena events (subject to Section 4(g) of this Settlement Agreement), but shall take all reasonably necessary action to ensure that such Arena parking is not marketed, offered, sold, leased, licensed or used as Stadium parking. The Cardinals shall have the right to impose, collect and retain parking fees or charges for any Stadium Parking Spaces for any Cardinals home game or any other Event held at the Stadium by the Cardinals, in the Cardinals' sole and absolute discretion. AZSTA shall have the right to impose, collect and retain parking fees or charges for any Stadium Parking Spaces for any other Event, in AZSTA's sole and absolute discretion. The Cardinals or AZSTA, as applicable, in its sole and absolute discretion, shall control the amount and manner in which any parking fees or charges are imposed and collected pursuant to this Section 9. This Section 9 shall supersede any conflicting provisions in any of the Existing Parking Agreements, including but not limited to (x) Section 2.3.3.2 of the Parking License and (y) Recital E and Section 3.6.1 of the FUF Agreement. The last two sentences of Section 3.2 of the Parking License are deleted.

10. PS Land Swap. It is acknowledged and agreed that a substantial portion of the 95th Avenue Infrastructure to be constructed pursuant to this Agreement is to be constructed across a parcel of real property currently owned by Farm 101 LLC, an affiliate of the Cardinals. Accordingly, in order to facilitate and expedite the construction of the 95th Avenue Infrastructure, promptly after the Settlement Effective Date, the City shall take all action reasonably necessary (including the prompt posting and publication of all necessary notices) to initiate the process of adopting an ordinance (the "Ordinance") in accordance with A.R.S. §9-407, approving the exchange of real properties between the City and Farm 101 LLC as in a Real Property Exchange Agreement (Including Escrow Instructions) in substantially the form of the documents attached to this Settlement Agreement as Exhibit C with any changes required under applicable law (the "Land Swap Agreement"). The City shall cause the Ordinance to be included on the agenda for the first City Council meeting after the Settlement Effective Date at which the Ordinance reasonably can be considered. Following the adoption of the Ordinance, the City promptly shall enter into the Land Swap Agreement.

11. Certain Payments by the City.

(a) Damages. The City acknowledges and agrees that AZSTA and the Cardinals have incurred substantial damages, costs and expenses arising out of or resulting from the AZSTA/Cardinals Released Claims. As compensation and full settlement for such damages, costs and expenses, the City shall pay AZSTA and the Cardinals Fourteen Million One Hundred Thousand Dollars (\$14,100,000.00), which shall be paid in accordance with the Settlement Payment Schedule attached as Schedule Z.

(b) Interest on Late Payments. In the event any payment required to be made by the City under this Agreement is not made when due and payable, the unpaid amount

of such payment shall bear interest at the rate of eighteen percent (18%) from the due date to the date such amount is paid and such interest shall be paid to the person to whom such late payment is payable.

12. Mutual Releases. Unless otherwise specified herein, the words "shall", "must" or "will" shall mean the mandatory obligations of the Party to whom such words apply.

29. No Partnership, Joint Venture, or Principal-Agent Relationship. Schedule PI

Stadium Parking Settlement Agreement

Schedule PI – Pedestrian Infrastructure Plans

General

- This establishes the design basis for the needed infrastructure to allow pedestrians to travel efficiently and safely from the new PS parking lot south of Bethany Home Road (BHR) to the existing Stadium site. The basic components include a pedestrian underpass, pedestrian bridges over the SRP Canal and Outfall Channel and needed ramps and sidewalks.
- The documents in this Schedule provide sufficient detail to document the intended scope. Where specific details are not possible, the documents provide a design standard or level of quality.
- The exact design and specifications of the infrastructure described in this Schedule may be modified at the discretion of the Cardinals provided that no such modifications may materially detract from the functionality of the infrastructure.

Drawings

- Drawings PI-1 and PI-2 labeled Schedule PI – Pedestrian Infrastructure prepared by Bowman Consulting and dated 8-19-16.

Additional Information - Underpass

- Underpass Cross Section – The selected cross section is shown on the Geometric Properties Mid-Span Series Form System B from Conspan Bridge Systems.
- The underpass floor slab shall be sloped away from the center. Area drains at the base of the ramps shall be connected to the existing storm drainage system.
- The exposed concrete surfaces of the underpass and ramps, except for the floors, shall be finished to a sufficient level so that they can be painted. Painting of these surfaces shall be included to a light color and with a product that is easily cleanable. All of this is being done to facilitate maintenance and the removal of any future graffiti.
- A median in the center of BHR above the underpass shall be constructed as shown on the Roadway Median Detail.
- The Underpass and ramps shall have stainless steel handrails against vertical walls as shown on the provided photo. Painted steel safety railings or wall extensions shall be provided as needed along the top of the ramp walls or roadway edges.
- The northern lane of the existing BHR roadway will be eliminated and the north curb revised to allow for the underpass and ramps. The roadway will be re-striped as shown. The exact length of the width reduction will be determined in conjunction with the City of Glendale, but will be returned to the current width at both 95th and 91st Avenues.
- Recessed junction boxes with connecting conduit shall be cast into the top of the underpass to be used for lighting or similar devices. Locate junction boxes every ten (10') feet. Linear strip LED lighting shall be provided with a vandal proof lens as shown on the provided photo. A lighting level of 3 – 5 foot candles shall be provided.
- The ramps shall be lit to a 3 – 5 foot candle level. A combination of recessed wall lights or pole mounted lights may be used.

Additional Information - Bridges

- The design objective is to have “on grade” crossings similar to the existing 95th Avenue bridges. However, these bridges are designed for pedestrian use only. Bollards shall be installed at 5’-0” on center (3 at each end) so that vehicles cannot cross the bridges.
- For the bridge over the SRP Canal the design must be approved by SRP.
- The bridges shall have cast in place concrete decks.
- The expectation is that the bridge over the Outfall Channel will have three (3) spans with the bridge supports coordinated with the improvements in the Outfall Channel. However, the designer may design alternate spans if there is clear evidence that it will be less costly. The clearance under the bridge structure shall match or exceed the current 95th Avenue bridge.
- The actual bridge may be prefabricated offsite or constructed in place. The designer should present their proposal to the Cardinals for approval. Reference examples of prefabricated bridges are provided with this document.
- Both bridges shall include 42” high safety railings and ADA compliant hand rails. They may be part of the prefabricated solution.
- The bridges shall be lighted to a 3 – 5 foot candle level. Pedestrian scale (16’ high) pole fixtures are recommended with a 40’ – 50’ spacing on each side.

rescind this Agreement based on Farm 101's feasibility analysis of the PS Development Property.

6. The City's Feasibility Approval. The City's obligation to consummate the transaction contemplated hereby or fulfill its obligations under this Agreement is subject to satisfaction of the conditions precedent (which the City may elect to waive, in whole or in part, in its sole and absolute discretion) contained in this Section 6.

(a) Status of Farm 101 Title. The City acknowledges that it has received and reviewed a current commitment for title insurance (the "95th Avenue Title Report") for the PS Development Property, disclosing all matters of record and other matters of which Escrow Agent has knowledge which relate to the title to the PS Development Property, and a legible copy of each of the instruments and documents referred to in the PS Development Title Report. Farm 101 acknowledges and confirms it has reviewed the 95th Avenue Title Report and that Farm 101 will satisfy the requirements (including those to be met by releasing or satisfying monetary encumbrances, but not those to be met solely by the City) applicable to Farm 101 on or before the date set for Close of Escrow. Notwithstanding anything herein to the contrary, in the event that an amendment to the 95th Avenue Title Report is issued shortly before Close of Escrow, and the amendment reveals an exception that can be objected to, Close of Escrow shall be extended if (and to the minimum extent) necessary: (i) to provide the City the period contemplated herein to object; and (ii) to provide Farm 101 the period contemplated herein to respond, if the City objects. Notwithstanding anything herein to the contrary, on or before Close of Escrow Farm 101 shall satisfy and remove all monetary liens from the 95th Avenue Property evidencing the payment of private debts (including any lien for HOA assessments, but excluding any lien for current taxes and assessments) and Farm 101 shall cure and cause to be removed all exceptions for rights of Parties or entities in possession or Parties or entities holding lease or option rights; and the City need not expressly object to any such liens or exceptions as may be disclosed on the 95th Avenue Title Report or any amendment thereto.

(b) Examination of 95th Avenue Property. The City acknowledges that it has had the right to survey and examine and conduct a feasibility analysis of the 95th Avenue Property and any improvements thereon, and acknowledges that the City is satisfied with its feasibility analysis of the 95th Avenue Property, and hereby waives any right to terminate or rescind this Agreement based on the City's feasibility analysis of the 95th Avenue Property.

7. Closing; Conveyances. At Closing, the City shall deliver the City Deed (as hereinafter defined) and all funds required to be paid by the City pursuant to this Agreement to Escrow Agent, and Farm 101 shall deliver the Farm 101 (as hereinafter defined) and all funds required to be paid by Farm 101 pursuant to this Agreement to Escrow Agent. Escrow Agent and the Parties shall close the transaction contemplated by this Agreement upon: (i) Escrow Agent's receipt all funds required to be paid by the Parties, (ii) Escrow Agent's receipt of the City Deed duly executed and acknowledged by the City, (iii) Escrow Agent's receipt of the Farm 101 Deed duly executed and acknowledged by Farm 101, and (iv) the satisfaction of each Party's express conditions closing set forth herein. The Properties shall be conveyed in pursuant to and subject to the following (as applicable):

(a) City Deed. The PS Development Property, including any and all rights, easements and privileges appurtenant thereto, shall be conveyed to Farm 101, upon Close of Escrow, by special warranty deed (the "City Deed") in the form of Exhibit "C" attached hereto and incorporated herein by reference, and any other instruments of assignment or transfer that may be necessary or appropriate, free and clear of all liens, restrictions, reservations, encumbrances and exceptions to title whatsoever, except only those matters that have been previously approved by Farm 101 pursuant to Section 5(a). Said City Deed, duly executed by the City and appropriately acknowledged, shall be deposited with Escrow Agent (together with the Affidavit of Value required by Arizona law) on or before the date on which Escrow is to close, with said City Deed to be recorded upon the fulfillment of Farm 101's obligations under this Agreement. The PS Development Property shall be conveyed "AS IS" and "WHERE IS," with no express or implied warranties or representations whatsoever, except as contained in this Agreement and in the City Deed.

(b) Farm 101 Deed. The 95th Avenue Property, including any and all rights, easements and privileges appurtenant thereto, shall be conveyed to the City, upon Close of Escrow, by special warranty deed (the "Farm 101 Deed") in the form of Exhibit "D" attached hereto and incorporated herein by reference, and any other instruments of assignment or transfer that may be necessary or appropriate, free and clear of all liens, restrictions, reservations, encumbrances and exceptions to title whatsoever, except only those matters that have been previously approved by the City pursuant to Section 6(a). Said Farm 101 Deed, duly executed by Farm 101 and appropriately acknowledged, shall be deposited with Escrow Agent (together with the Affidavit of Value required by Arizona law) on or before the date on which Escrow is to close, with said Farm 101 Deed to be recorded upon the fulfillment of the City's obligations under this Agreement. The 95th Avenue Property shall be conveyed "AS IS" and "WHERE IS," with no express or implied warranties or representations whatsoever, except as contained in this Agreement and in the Farm 101 Deed.

8. Non-Performance. In the event of a default by a Party under this Agreement, including the failure of any of the representations, warranties or covenants of such Party described herein, the non-defaulting Party as its sole remedy may (i) waive such default and Close Escrow, or (ii) institute an action for specific performance. Each Party hereby acknowledges that its Property is unique and that, accordingly, it would be equitable for any court of competent jurisdiction to order the specific performance by such Party of such Party's obligations hereunder.

9. Reserved.

10. City's Representations, Warranties and Additional Covenants. The City hereby represents, warrants and covenants (with the understanding that Farm 101 is relying on said representations, warranties and covenants) that:

(d) Except as may be disclosed by the PS Development Title Report, there exist no adverse claims by any person or entity (including but not limited to adjoining property owners) and no encroachments with respect to the PS Development Property.

(e) Escrow Agent may at its election, in the event of any conflicting demands made upon it concerning this Agreement, hold any money and documents deposited hereunder until it receives mutual instructions by all Parties or until a civil action shall have been concluded in a court of competent jurisdiction, determining the rights of the Parties. In the alternative,

Stadium Parking Settlement Agreement

Schedule PI – Pedestrian Infrastructure Plans

General

- This establishes the design basis for the needed infrastructure to allow pedestrians to travel efficiently and safely from the new PS parking lot south of Bethany Home Road (BHR) to the existing Stadium site. The basic components include a pedestrian underpass, pedestrian bridges over the SRP Canal and Outfall Channel and needed ramps and sidewalks.
- The documents in this Schedule provide sufficient detail to document the intended scope. Where specific details are not possible, the documents provide a design standard or level of quality.
- The exact design and specifications of the infrastructure described in this Schedule may be modified at the discretion of the Cardinals provided that no such modifications may materially detract from the functionality of the infrastructure.

Drawings

- Drawings PI-1 and PI-2 labeled Schedule PI – Pedestrian Infrastructure prepared by Bowman Consulting and dated 8-19-16.

Additional Information - Underpass

- Underpass Cross Section – The selected cross section is shown on the Geometric Properties Mid-Span Series Form System B from Conspan Bridge Systems.
- The underpass floor slab shall be sloped away from the center. Area drains at the base of the ramps shall be connected to the existing storm drainage system.
- The exposed concrete surfaces of the underpass and ramps, except for the floors, shall be finished to a sufficient level so that they can be painted. Painting of these surfaces shall be included to a light color and with a product that is easily cleanable. All of this is being done to facilitate maintenance and the removal of any future graffiti.
- A median in the center of BHR above the underpass shall be constructed as shown on the Roadway Median Detail.
- The Underpass and ramps shall have stainless steel handrails against vertical walls as shown on the provided photo. Painted steel safety railings or wall extensions shall be provided as needed along the top of the ramp walls or roadway edges.
- The northern lane of the existing BHR roadway will be eliminated and the north curb revised to allow for the underpass and ramps. The roadway will be re-striped as shown. The exact length of the width reduction will be determined in conjunction with the City of Glendale, but will be returned to the current width at both 95th and 91st Avenues.
- Recessed junction boxes with connecting conduit shall be cast into the top of the underpass to be used for lighting or similar devices. Locate junction boxes every ten (10') feet. Linear strip LED lighting shall be provided with a vandal proof lens as shown on the provided photo. A lighting level of 3 – 5 foot candles shall be provided.
- The ramps shall be lit to a 3 – 5 foot candle level. A combination of recessed wall lights or pole mounted lights may be used.

Additional Information - Bridges

- The design objective is to have “on grade” crossings similar to the existing 95th Avenue bridges. However, these bridges are designed for pedestrian use only. Bollards shall be installed at 5’-0” on center (3 at each end) so that vehicles cannot cross the bridges.
- For the bridge over the SRP Canal the design must be approved by SRP.
- The bridges shall have cast in place concrete decks.
- The expectation is that the bridge over the Outfall Channel will have three (3) spans with the bridge supports coordinated with the improvements in the Outfall Channel. However, the designer may design alternate spans if there is clear evidence that it will be less costly. The clearance under the bridge structure shall match or exceed the current 95th Avenue bridge.
- The actual bridge may be prefabricated offsite or constructed in place. The designer should present their proposal to the Cardinals for approval. Reference examples of prefabricated bridges are provided with this document.
- Both bridges shall include 42” high safety railings and ADA compliant hand rails. They may be part of the prefabricated solution.
- The bridges shall be lighted to a 3 – 5 foot candle level. Pedestrian scale (16’ high) pole fixtures are recommended with a 40’ – 50’ spacing on each side.

SCHEDULE PS-P

Stadium Parking Settlement Agreement

Schedule PS-P – PS Parcel Improvements

Background

- This establishes the design basis for the needed PS parking spaces, required access and internal circulation to be constructed on the PS parcel.
- The documents in this Schedule provide sufficient detail to document the intended scope. Where specific details are not possible, the documents provide a design standard or level of quality.
- The exact design and specifications of the infrastructure described in this Schedule may be modified at the discretion of the Cardinals provided that no such modifications may materially detract from the functionality of the infrastructure.

PS Parking Spaces

- The PS parcel will be developed with a total of four thousand eleven (4,011) parking spaces along with needed access points and internal circulation driveways. The general layout of the parking spaces is shown on drawing PS1.
- The parking spaces may be asphalt paved or turf subject to the design standards listed below.
- The entire parking area must have perimeter access control. This requires a combination of low (32" high) masonry walls or similar height decorative fencing along the perimeter of the lot. It also requires security control swing or sliding gates at the access points.
- Regardless of turf or asphalt spaces, the access points and internal circulation driveways must be asphalt pavements with lane striping.
- The PS parcel must be designed to accommodate any storm water retention needs. However, no parking shall be planned for any retention area.
- All utility infrastructure for lighting, storm water and turf maintenance must be constructed for the PS Parcel.
- If requested by AZSTA and the Cardinals, the parking spaces, required access and internal circulation shall be designed with reasonable accommodations to accommodate efficient rideshare drop-off and pick-up.

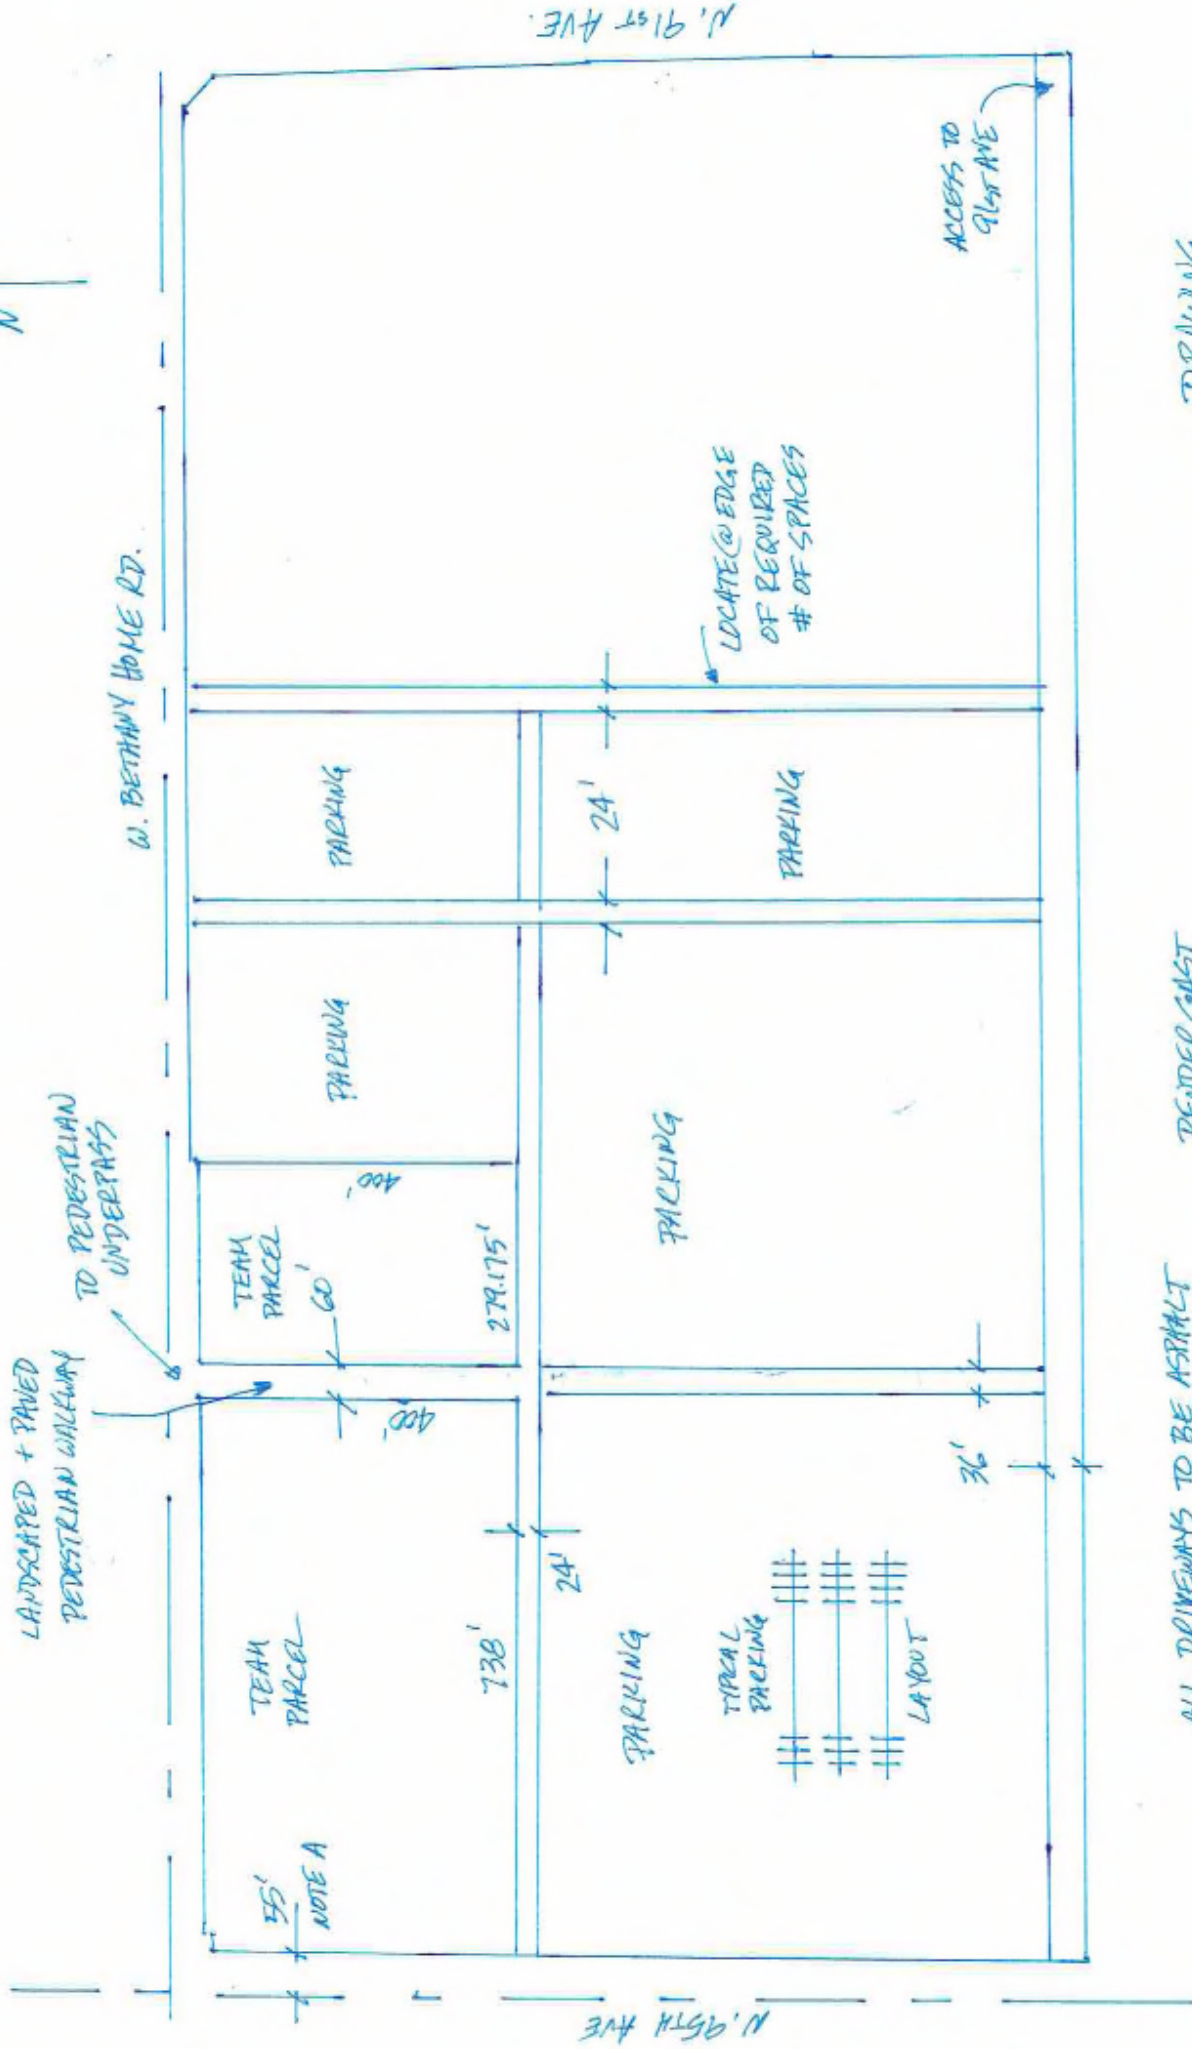

Turf Parking

- Turf parking spaces shall be constructed to the specifications labeled Airpave System Standard Details and Specifications dated January 1, 2016 and prepared by Lloyd Consulting Group.
- Turf parking shall be designed based on 10'-0" wide "spaces" as smaller spaces are not practical without striping.
- An in ground water sprinkler system must be installed to provide adequate maintenance of the turf. The main lines should be located under parking space centerlines and the valve boxes located in protected islands to reduce maintenance.
- Within large areas of turf parking, permanent lighting is not required. However, for all Stadium events that start or end after sundown, temporary lighting must be provided by the City to allow safe pedestrian and vehicular travel.

- As permanent striping is not possible in the turf parking areas, the design must include a large number of in-ground inserts. These will be used so that posts and flags can be inserted to identify the parking bays. The inserts should be at the ends of every parking aisle and at one hundred fifty feet (150') intervals within the parking aisle.

Asphalt Parking

- Asphalt parking spaces shall be constructed to the specifications shown on drawing PS3. An alternate specification can be proposed by the design engineer if it is consistent with commercially improved parking spaces and supported by a Geotechnical Engineer.
- The layout of the parking spaces will be developed jointly by the Cardinals and the City. The parking layout will include pedestrian pathways, landscaping and lighting consistent with the Paved Parking Spaces Design Basis.

 - 2. For turf pavers, provide materials nearly neutral in pH (range from 6.5 to 7.2) to provide adequate root zone development for turf.
 - 3. Material may be either "pit run" or "crusher run." Crusher run material will generally require coarse, well draining sand conforming to AASHTO M6 or ASTM C 33 to be added to mixture (20 to 30 percent by volume) to ensure long-term porosity.

4. Alternative materials such as crushed shell, limerock, or crushed lava may be used for base course use, provided they are mixed with sharp sand (20 to 30 percent) to ensure long term porosity, and are brought to proper compaction. Without added sand, crushed shell and limerock set up like concrete and become impervious.
- B. Porous Flexible Paving Units: AirPave Geocell Grass Paving Units.

PART 3 EXECUTION

3.1 EXAMINATION

- A. Before beginning installation, verify site conditions are as indicated on the Drawings. Notify the Architect if site conditions are not acceptable. Do not begin preparation or installation until unacceptable conditions have been corrected.
 - 1. Complete all hard surface paving adjacent to flexible paving areas, including concrete walks and asphalt paving prior to installation of flexible paving.
- B. Obtain approval of local fire authorities of sub-base prior to installation of base course for flexible porous paving.
- C. Ensure that sub-base Specified in Section 32 10 00 - Bases, Ballasts, and Paving is adequate to receive designed base course, wearing course, and the required design loads. Ensure that grading and soil porosity of the sub-base will provide adequate subsurface drainage.

3.2 PREPARATION

- A. Subgrade Preparation:
 - 1. Prepare subgrade as specified in Section 32 10 00 - Bases, Ballasts, and Paving. Verify subgrade in accordance with porous paving system manufacturer's instructions.
 - 2. Excavate area allowing for unit thickness and the engineered base depth (where required).
 - 3. Provide adequate drainage from excavated area if area has potential to collect water, when working with in-place soils that have poor permeability.
 - 4. Provide a subdrainage system as specified in Section 33 46 19.13 - Underslab Drainage Piping.
 - 5. Ensure in-place soil is relatively dry and free from standing water.
 - 6. Uniformly grade base.
 - 7. Level and clear base of large objects, such as rocks and pieces of wood.
- B. Base Course: Place base course material over prepared sub-base to grades indicated on the Drawings. Place in lifts not to exceed 6 inches (150 mm), compacting each lift separately to 95 percent Modified Proctor. Leave 1 inch (25 mm) of depth below final grade for porous paver unit and gravel fill.
- C. Base Preparation:
 - 1. Leave minimum 25 mm (1 inch) to 35 mm (1.5 inches) for porous flexible paving units and sand/sod fill to final grade.
 - 2. Spread all Sustane fertilizer mix at the rate of 25 kg per 100 m² (25 lbs per 1,000 SF) evenly over the surface of the base course with a hand-held, or wheeled, rotary spreader. Place fertilizer mix should be immediately before installing the porous flexible paving units.

3.3 INSTALLATION

- A. Paving Units: Install Porous Flexible Paving Units in accordance with manufacturer's instructions.
1. Install by placing units with connectors and the pinning platforms flush against the prepared subbase with the larger diameter clover openings (cup side down) and pinning platforms facing downwards (grid side down). Place the first unit panel to the field's upper left hand corner. Orient the paving unit materials with the integral indicator tab (painted yellow) to the panel's bottom left hand corner. Proper sequencing and orientation of panels will result in a more rapid installation.
 2. Install unit panels across the field in a rowed pattern. Staggering of rows will allow for multiple row completion by a multi-manned crew. Secure the first panel to the base with pins and commence with panels 1-2, 1-3 and so on with one directional pull to secure. After each one directional pull secures the panel connectors together, slightly push back each panel to allow for contraction space at each connector. Verify each integral connector is snapped in place with sufficient contraction room allowed as panel installation proceeds.
 3. Once the first row has progressed across the project, start with the second row. By maintaining proper panel orientation, the top edge panel connectors will drop into the previously installed panel receptors after the one directional pull secures the panel.
 4. Panels can be shaped to individual field areas as needed with an appropriate cutting device. If you have many parts to trim use a circular saw with a no melt, plastic cutting saw blades.
 5. Anchor units to base course on curves, slopes, high traffic areas and any other areas as required.
 6. Anchor units using paver unit anchors. Tops of clovers shall be between 6 mm to 13 mm (0.25 inch to 0.5 inch) below the surface of adjacent hard-surface pavements.
- B. Sand: Place sand in clovers by back-dumping directly from a dump truck, or from buckets mounted on tractors, which then exit the site by driving over clovers already filled with sand. Spread sand laterally from the pile using flat bottomed shovels and/or wide asphalt rakes filling the clovers. Use a stiff bristled broom for final finishing of the sand uniformly over the clovers. Compact sand by using water from hose, irrigation heads, or rainfall, with the finish grade no less than the top of clovers and no more than 6 mm (0.25 inch) above top of clovers.
- C. Grass: Coordinate with Section 32 92 26.13 - Stolonizing and in accordance with porous paving manufacturer's instructions.
1. Hydroseeding/hydro-mulching: Mix a combination of water, seed and fertilizer homogeneously in a purpose-built, truck-mounted tank. Spray the seed mixture uniformly onto the site at required rates. Following germination of the seed, areas lacking germination larger than 20 cm by 20 cm (8 inches by 8 inches) shall be reseeded immediately. Seeded areas shall be fertilized and kept moist during development of the turf plants.
 2. Thin Cut Sod: Install directly over sand filled clovers, filled no higher than the top of the clovers. Place sod strips with very tight joints, moistened and rolled to create good contact for growth. Fertilize and keep moist during root establishment (minimum of 3 weeks). Protect from any traffic for a period of 3 to 4 weeks or until the root system has penetrated and established well below the porous paving units.

3. Seeding: Place grass seed at recommended rates per grass type. Place a light dusting of commercial topsoil mix, not to exceed 1/4 inch (25 mm) above the clovers and seed mix to aid germination rates. Fertilize and keep moist seeded areas during development of the turf plants.

3.4 MAINTENANCE

- A. Remove and replace segments of porous paving units where three or more adjacent clovers are broken or damaged, reinstalling as specified, so no evidence of replacement is apparent.
- B. Maintain grass in accordance with manufacturer's instructions and as specified in Section 32 92 26.13 - Stolonizing Lawns and Grasses.

3.5 PROTECTION

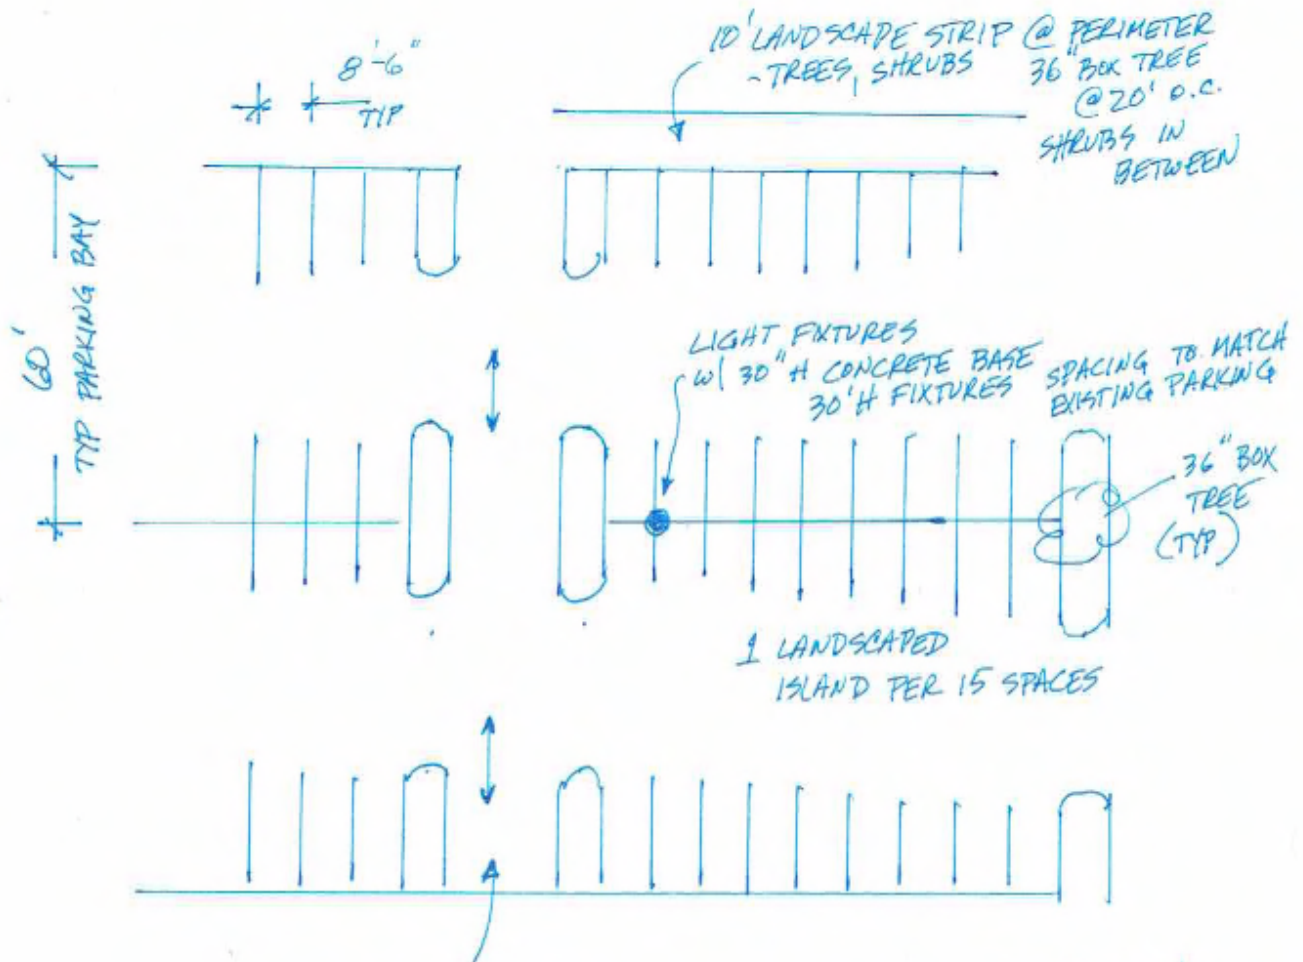

- A. Protect turf area from any traffic for a period of 4 to 8 weeks, or until the grass is mature enough to handle traffic.
- B. Perform cleaning during the installation of work and upon completion of the work. Remove all excess materials, debris, and equipment from site. Repair any damage to adjacent materials and surfaces resulting from installation of this work.
- C. Repair or replace damaged products before Substantial Completion.

SCHEDULE TO

Traffic Operations Minimum Standards

The following Minimum Standards shall apply to all Stadium Parking Events occurring after the Settlement Effective Date. The following Minimum Standards shall be updated from time to time as reasonably necessary to address changes in traffic patterns and other developments (including the changes in the parking layout contemplated by Schedule X), without any reduction in service levels. “Parking Operator” means the company engaged by the Cardinals to manage and operate the Stadium parking lots.

1. **Helicopter** – The City shall post an experienced & knowledgeable representative designated by the Parking Operator in the City traffic helicopter 60 mins prior to kickoff (or event start time, for AZSTA Events) through streets being cleared pre-game and 60 mins post game (or event) or until carparks/lots and streets are cleared.
2. **Staffing Levels** - Glendale Police will make every effort to provide, at a minimum, the number of officers to cover the intersections & roving positions noted on the attached Traffic Officer Position Map for both ingress and egress.
3. **Consistent Staffing** - Glendale Police shall provide the same officers, or at a minimum, a single consistent officer, at the intersections designated on the attached Traffic Officer Position Map.
4. **Pre-Event Briefings** - Glendale Police shall provide detailed event day briefings (that have been previously approved by the Parking Operator) for officers new to the Stadium and/or unfamiliar with the operations. The Parking Operator will participate and/or facilitate these briefings.
5. **Intersection Operations** - Police Officers/City Employees shall actively participate in the management and operation of each intersection when posted.
6. **Post Orders** - Glendale Police shall provide written post orders for every intersection to include ingress priorities/responsibilities, egress priorities/responsibilities, map of ingress and egress routes, map of parking lots with names, limo & rideshare locations, taxi locations, motorcoach/bus staging locations. The Parking Operator will create and provide orders for each event.
7. **Private Paid Lots** – Cash parking lots (in particular, at Westgate and the 91st Ave Church lot) create challenges with the overall traffic management plan as their limited staffing focuses solely on cash collection and not traffic movement. The City shall not provide special resources (e.g., officers, dedicated turn lanes) to these operations except as required under applicable law. The Parking Operator shall manage ingress and egress from these lots as part of the overall traffic management plan. The City should adopt minimum staffing and signage standards to minimize the impact these cash lots have on overall traffic management during Stadium events.
8. **Arena Roof Access** – Glendale will make every effort to provide access to the Arena Roof for up to (2) two employees of the Parking Operator (subject to a reasonable access agreement) 90 mins prior to kick off (or event start time, for AZSTA events) through streets being cleared pre-event and 90 mins post-event or until streets and lots are cleared.
9. **East Carparks Ingress, Egress and Traffic** – The City shall institute a traffic plan that encourages vehicles in the lots east of the Stadium to egress SB 91st Ave to continue south on 91st Ave to I-10.
10. **Traffic Signal Operations**– The City will make every effort to synchronize all traffic signals during ingress and egress, it being acknowledged that this is critical to the success of traffic management plan and reducing the wait times for vehicles in the parking areas and surface streets.
11. **Signage** – Signage on City streets shall be updated as contemplated by the letter agreement among the parties regarding such signage entered into on or about the Settlement Effective Date.
12. **Lane Control** -- The City shall provide lane controls in City streets reasonably consistent with past practice.
