How Does it Work?

Affiliate marketing is the process of earning a commission by promoting various Advertiser's products. Affiliate marketing is one of the most popular ways people make money online.

Each purchase your audience makes is tracked with a unique link or discount code that is connected to your profile.

For each sale you'll make a commission! 🎉

Basic Terms

Here are definitions for some of the terms you'll find in this guide.

Check our comprehensive Affiliate Terms Dictionary - [Part 1](#) & [Part 2](#).

Affiliate – A person (or group) who runs a social channel or owns a website, and earning commissions for sending leads or sales to an advertiser.

Advertiser – the merchant who creates and sells a product or service online. Advertisers pay commissions to affiliates. They can be big or small, local or worldwide companies.

Offer – An advertiser's commission marketing terms & conditions. Lists target markets, commission structure, cookie life, and activities you can/cannot use to promote. Offer types include CPA, CPS, CPL & CPI.

Tracking Link – A unique web address that sends a customer to an advertiser's website while crediting a commission to the affiliate who sent them. Learn more here.

Tracking Code – Discount codes you can share with your audience to earn a commission per coupon use. A.K.A. offline codes, coupon attribution, and coupon redemption.

Conversion – A sale or lead that results in a commission. **Pending conversions** need to be reviewed by the Advertiser. **Approved conversions** may be released for payment. **Rejected conversions** are not eligible for commission.

How to Get Tracking Links

Tracking Links Advantages

A special link with your ArabClicks ID that records traffic you send to an advertiser.

Many affiliate marketers prefer Tracking Links over Tracking Coupons. Here's why:

1.  **In-depth Data** - Data is collected for each link, which you can see in your Performance Report. Analyzing data such as conversion rate, ads performance, device, & customer location can help you plan more effective campaigns. **Learn more:** [Guide](#)
2.  **SmartLinks** - Sharing a 'SmartLink' (deep link) right to a specific product/page you want to promote to your audience - can result in 3 x more sales. **Learn more:** [Article/Video/Guide](#)
3.  **Banners** - Use affiliate-linked banner ads on your website to leave your main site content unbiased and promotion-free. Placing your marketing on the side can lead to a more authentic connection with your audience. **Learn more:** [Guide](#)

Tracking Links Advantages

4.  **Hyperlinks** - Tracked-hyperlinks throughout your text give your audience an opportunity to buy without using language that's explicitly "market-ey" - so you can focus on producing high-quality content. **Learn more:** [Guide](#)
5.  **Coupon Codes** - Lots of our exclusive discount codes only work together with your tracking link. So visit our Coupons Page, filter by 'Online Coupons' and collect a broad range of codes to share with your audience TODAY! **Learn more:** [Guide](#)
6.  **Cookies** - A small file stored in your audience's browser telling the advertiser to credit you when a purchase is made. Depending on the 'Cookie Validity' period, commissions can be earned weeks after the original click. **Learn more:** [Guide](#)
