**Virginia vs. Georgia Tech**

**Charlottesville, Va. (Scott Stadium)**

### **Virginia Head Coach Bronco Mendenhall Quotes**

#### ***On offensive production***

"It starts with the coaching and our offensive staff. Robert Anae and Jason Beck and our offensive staff is doing a really good job. Then it goes to Brennan at the quarterback spot. Every play goes through him. Then between Dontayvion (Wicks) and Ra'Shaun (Henry) and Jelani (Woods), and KT (Keytaon Thompson) and Billy (Kemp) and Wayne (Taulapapa) and Devin Darrington, there's lots of production happening out there. It's really fun to watch, but it is designed super well, and our offensive staff is doing a great job using the resources we have."

#### ***On Keytaon Thompson and Dontayvion Wicks***

"Keytaon is doing an amazing job, and it just seems like every time he gets the ball, positive things happen. We're falling forward, we're moving forward, we're catching it with one hand, two hands. Regarding Dontayvion, ability is one thing, execution and production is something else and he's worked really hard to develop himself into a really skilled receiver."

#### ***On the national attention Brennan Armstrong receives***

"I don't read any of the media. I don't pay attention. It's nothing personal. I'm coaching my team and the rest I can't control. If he's not [in the national conversation], I don't know why not, and I don't know what else you have to do, or what other numbers you have to put up, or how else you have to lead a team."

#### ***On Keytaon Thompson playing with a broken hand***

"He's setting a bar that's so high and showing what's possible that it basically makes any other reasons that someone might not be performing as well just go away; it's great for our program."

#### ***If the scoreboard matters***

"To me everything matters, and I think that the way we've been working and the way that things have been addressed. As you look at four straight wins, that's not accidental. On- side kicks, that needs some work, but prevent and preserving victory, if you put it in that context, the rest of it looked to me like it just is a work in progress that's making progress."
