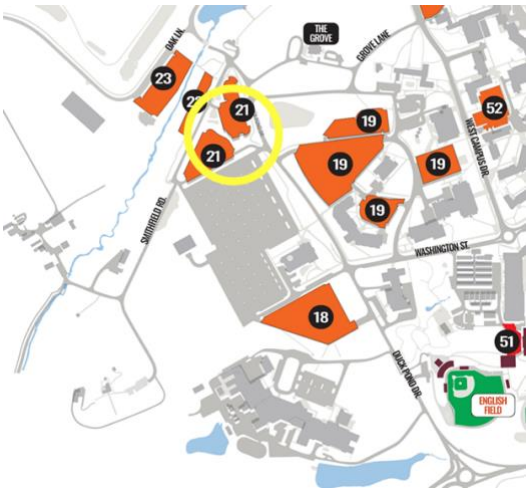
VIRGINIA TECH®
ATHLETICS

SPECTATORS

Spectators are **not permitted to park in the Chicken Hill or Cage (Duck Pond) lots.** All spectator parking is designated for **Lot 21**. Shuttles to the course will begin operating at **7:45 a.m.** Spectators are strongly encouraged to arrive early to allow sufficient time for parking, shuttle transportation, and the anticipated large number of attendees.

For additional parking information, please visit the Virginia Tech Athletics parking information page.



Important Spectator Access Restrictions

1. **No entry or exit through the corridor:** Spectators may not enter or exit the course through the corridor.
2. **Cage Lot entrance closures during races:** The Cage Lot entrance to the course will be closed once a race begins to prevent vehicle and pedestrian traffic conflicts as runners pass through this area. Spectators should plan accordingly and follow all posted signage and event staff instructions.

TEAMS

Team vehicles must park in the team lot, accessible via Southgate Drive at Lot 5 (listed as “Chicken Hill” on Google Maps).

A designated athlete drop-off loop will be available on both practice and race days. Buses must access the drop-off loop from Duck Pond Drive via Vet Med Lane. The loop will operate as a one-way traffic pattern and will be clearly marked with signage.

All passengers and equipment must be unloaded within the designated drop-off area. Buses may not remain in the loop once drop-off or pickup is complete.

After unloading, buses should continue through the loop and return to Duck Pond Drive. At the roundabout, buses should turn left onto Southgate Drive, as illustrated on the parking map (page 11). Upon entering Lot 5, drivers must

follow the directions of parking attendants, who will guide each bus to its designated parking location.

Please ensure all parking passes are clearly displayed on the dashboard and allow additional time for your team's arrival.
