Advertising in e-newsletters

Feeding into our thematic newsletters, you can reach our 197,000+ database directly.

Aligning with one of our newsletter themes, you can land a message that is relevant to our readers.

Our e-newsletters host six advertisements, which are designed as a single push. These drive reactive traffic to your business from a call-to-action.

Alternatively, you can choose to purchase a solus newsletter. Solus newsletters are in similar format to our weekly newsletters with a distinct difference that you do not share this advertising platform with any other advertisers.

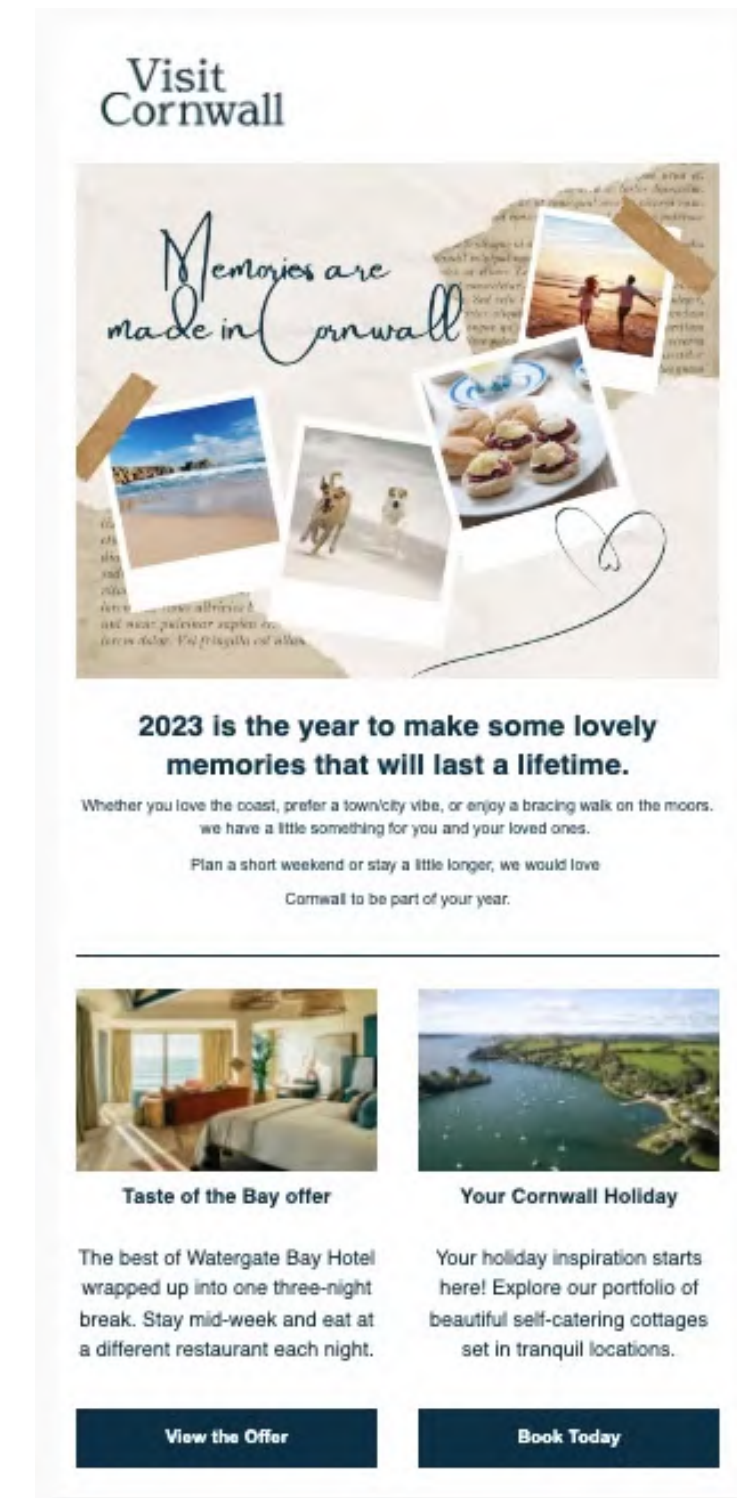

They are of your own design with content that you choose and typically limited to one per month.

This method gives a much more direct advertising presence which allows for customisation and content not normally available in the weekly bulletin.

Costs & Terms of Advertising

Single e-newsletter adverts are priced at £140, with a SOLUS e-newsletters priced at £903.40. Prices excluding VAT.
