President's Letter

Chance Beasley
Cornerstone Fine Homes
2022 TPBA President

I am so excited to welcome you to the 2022 Parade of Homes™ hosted by our Texas Panhandle Builders Association.

For as long as I can remember, I have attended the parade with my parents at an early age. It is surreal to see it come full circle now that I am a part of it myself with my own home entry. People come to the parade for a variety of reasons. Some are looking for inspiration for projects around their home while others are trying to find a builder for their next custom home. Many of you are like me as a kid that was just curious and excited to see the inside of beautiful new homes. Dreaming at its finest.

I want to personally thank our sponsors and our Platinum sponsor, Pinnacle by Rockrose Development, for continuing to invest and partner with us during the Parade of Homes™. I also want to thank our TPBA staff and our committee members for their hard work in putting on another successful Parade of Homes™.

Lastly, I want to remind everyone to visit every home this year so you have the opportunity to win our grand prize valued at \$6,000. Again, thank you for coming out to support the TPBA and we look forward to meeting you all.

Chairman's Letter

Mirna Fewell & Hanna Podzemny
MGroup
2022 Parade of Homes™ Co-chairmen

Welcome to the 2022 Parade of Homes™

We would like to thank you for visiting this year's beautiful homes in the Texas Panhandle Builders Association 2022 Parade of Homes™. We are so excited to host this event, showcasing 16 new homes and all of the latest trends in the Amarillo home building industry. As always, our local builders have outdone themselves and have built their best homes yet! Our builders, sub-contractors, and vendors offer high-quality homes that range from affordable to high-end luxury homes. Each builder and their knowledgeable team will be available to assist you and are all very eager to share their expertise and home building process. If you are looking for a new home, a builder, or just the latest trends, we invite you to tour each home. What better way to start the summer than by moving into a new home of your dreams found at the Parade of Homes™.

You **MUST** tour ALL of the parade homes to be eligible for the Grand Prize drawing to win a \$6,000 product giveaway generously donated by **Casey Carpet One** (\$3,000 in flooring) and **Marble Depot Inc.** (\$3,000 granite/marble tops).

For those who purchase a ticket, your ticket will go into a drawing for a \$3,000 entertainment & security system donated by **Sound By Design**.

Don't forget to Download the **FREE Mobile App "Amarillo Parade of Homes"** for detailed information and directions to each home.

Thank you to the Builders, Sponsors, Developers, Parade of Homes Committee members, the TPBA Staff, and other volunteers for making this event possible. We hope you enjoy touring this year's Parade of Homes™.

ABOUT THE BUILDER

Robbie Christie started building homes in Amarillo, TX. in 1996 as N & B Homes, Robbie continues to build about 120 homes per year and is also developing lots at Hunter Estates, The Greenways and Fox Hollow. Robbie has built many homes in Canyon, Time Square, Hillside Terrace and Heritage Hills as well as in Tradewinds through the many years of building.

N&B Homes started with a dream. When Robbie Christie saw that he could build a quality new home and deliver it to a homebuyer at a reasonable price by carefully thinking through the building processes, negotiating terms with suppliers, and building trademarked building systems for residential construction. Robbie and his wife Emily along with their staff continue to build homes in Amarillo and Canyon and they have 2 Children that have gone out on their own to build homes in Lubbock and the Dallas area and 1 in college at Texas Tech that will most likely follow their passion.

DIRECTIONS

Take I-40 East to US 287 Downtown exit. Continue on Buchanan. Exit towards St. Francis. Right on St. Francis. Left on Pavillard Dr. Right on Fox Terrior then left on Red Fox.

ABOUT THE BUILDER

Betenbough Homes, West Texas' number one new home builder, was founded in 1992 when father and son Ron and Rick Betenbough teamed up to deliver quality new homes at the most competitive price.

Betenbough Homes has built nearly 700 homes in Amarillo, Texas, and is committed to providing more home for less money. Betenbough Homes is an employee-owned company committed to build, serve and impact the communities it calls home. Ranked among the Top 100 Builders in the nation by Builder magazine and named a 2021 Guildmaster with Distinction by GuildQuality for superior customer service, the company has also received multiple awards from the Panhandle Builders Association Parade of Homes Committee since 2016. Betenbough Homes currently builds homes in Amarillo, Texas; Lubbock, Texas; Midland, Texas; and Odessa, Texas, with more than three families moving into a brand-new Betenbough home every day. Visit betenbough.com for more information on Betenbough Homes.

DIRECTIONS

From Coulter, turn onto Continental Pkwy. Left on New England. Right on Valcour Dr.

ABOUT THE BUILDER

Eric White was born in Humble, TX but has spent most of his life in the Amarillo area, graduating from Amarillo High School. He spent a few years at Amarillo College and Texas Tech University before finishing at Texas A&M University in College Station with a B.S. in Construction Science.

Eric spent most of his high school and college careers working in and around the residential construction industry. He has worked as an electrician, trim carpenter, cabinet maker, framer, land surveyor, supervisor, and assistant builder. His love of carpentry kept him busy through college making furniture and cabinets for various friends, family, and clients. These experiences, coupled with an education in Construction Science, allowed him to better understand the complexity of the high end home and how it comes together to form the finish product. Old World Construction was started in 2002 with the purpose of building one house on speculation. Since then he has built a business that has produced over 100 million dollars of homes in our area. Eric truly believes the finished products get better every year as we continue to learn something new every day.

OLD WORLD CONSTRUCTION

Est. 2002

Thank you Amarillo for 20 great years!

ABOUT THE BUILDER

Connally Construction is known for having impeccable taste when blending elements of style, product and craftsmanship. Founded in 1984, by Ron Connally our company was built on a foundation of integrity. We are dedicated primarily to building custom homes and are recognized as one of Amarillo's finest home builders. We also work in light commercial and remodeling projects. Ron Connally's commitment to the housing industry was proven by his leadership in serving as not only president of the local chapter, but also as the president of the Texas Association of Builders. He also served as a director on the National Association of Homebuilders. We recognize that the investment in a new home will most likely be the most significant financial investment a family will make.

Luxury home designs and trends may change over time, but what doesn't change in a Connally Construction home is the utmost level of quality and attention to detail. Adapting along with the ever-changing materials, technology, and products available for custom homes, Connally Construction maintains a superior level of excellence as one of the leading home builders in West Texas and the Amarillo area. Connally Construction, and the Connally family, are local to Amarillo, Texas. As members of the West Texas community, we value long-term relationships and take pride in contributing to our community.

A legacy of integrity, good communication, and adaptability was established by Ron Connally in the 1990's and continues with the current generation of the company's leadership, Brennan Connally.

Top Home Design Trends 2022

The pandemic shifted the way individuals work, play, and live at home. At the start of each year, the Best in American Living Awards (BALA) recognizes dozens of new projects from this past year featuring the most innovative layouts and eye-catching design elements. Functional and dazzling home features are reflected in the award-winning designs this year.

Whether you're looking to buy a new home, thinking about renovating your current one, or you're just interested in what's new in-home designs, here are some of the biggest trends you will see dominating in 2022.

Beamed and/or stained ceilings.

Different detailing overhead creates a wow factor for both low and high ceilings alike, while stains and tonal materials provide a more cohesive room palette. This trend is especially popular in kitchens.

More durable materials

As indoor and outdoor spaces continue to blend, materials that operate equally in both conditions are key to creating a smooth transition. This includes not only the doors or track systems to bridge the gap, but also selections such as ceiling treatments or flooring, where materials such as stone can provide a wow factor both inside and out.

Creative Outdoor Spaces

Post-pandemic design continues to utilize the outdoors to develop spaces for relaxing, entertaining, home office, or just taking in the views. Multilevel terraces, sunken living rooms with firepits, and indoor courtyards are just a few examples of these designs.

Improved Indoor/ Outdoor Connections

Emphasis on health and wellness has led to an increased focus on creating intentional, seamless transitions from indoors to outdoors. Material choices can play a large role by visually connecting adjoining spaces, but even details as subtle as skylights in the kitchen or glass walls to take advantage of the surrounding views can usher in these natural connections. Landscape designs are also improving to seamlessly blend the home with the surrounding area.

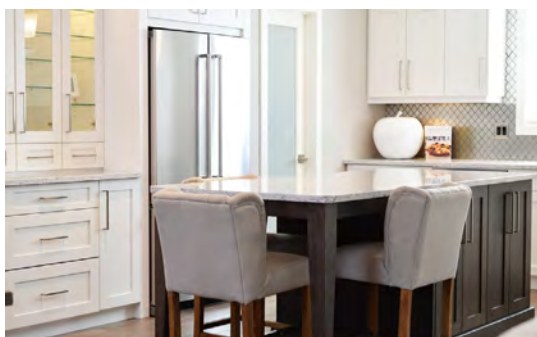

Resort-like amenities

More time spent at home means greater attention paid to features to enhance it, whether it's an outdoor lounge or a game room. Pets are very important, with designs increasingly incorporating areas such as dog spas, pet pads or dog runs.

Enhanced focus on function

Homes have had to work harder for their residents in recent years, and designs are adapting to incorporate more functional and multifunctional spaces use. Examples include wine storage, prep kitchens, mudrooms, and dedicated gym or workout areas.

Size doesn't matter

Spaces should get as much mileage out of their designs as possible, whether it's a remodeled great room/dining room/kitchen to improve functionality or a glass-encased room with doors to provide privacy when needed while remaining connected to the rest of the home.

For more information about the latest designs for your home, or to find a builder in your area to create the new home of your dreams, contact www.tpba.org.

Annie Miller

What year did you start your construction company? 2014

What did you do before starting your construction company? Worked for a local builder as a project & operations manager

Tell me about your company? Wyben Homes is family locally owned custom home building company. A husband and wife team, we strive to maintain the highest level of professionalism, integrity, honesty, and fairness in our relationships with customers, suppliers, and subcontractors.

When and why did you join the TPBA? Raymond has been an active member of the TPBA for over 20 years. He has a passion for our industry and strongly supports TPBA's efforts in maintaining residential standards and affordable housing across Texas.

What are the main details/ features of the home?
We challenged ourselves to create an open floor plan and design that combines functionality with the option to seamlessly entertain family and friends.

What benefits do you receive from being a member?
The knowledge that we are helping our community while also continuing our efforts to provide for the housing industry.

What feature(S) of your home is your favorite?
Gourmet kitchen & luxury master suite

What does it mean to you to be the TPBA Showcase home builder?

This build means so much more to us than just the ability to provide much needed funding to the TPBA. It has been our honor to build this home to raise funds for the Ron Connally building & to support the legacy of Ron Connally by helping to provide a new home for our TPBA membership. Ron Connally was a trusted mentor & friend to Raymond, and his impact on the building industry and the TPBA helped influence Raymond to become an active member on a local, state, and national level.

Favorite part of the TPBA?

Not only do we support the efforts of the TPBA, but what started as a place to network with others involved in our industry has now evolved into a place where we developed lifelong friendships.

THE MANY BENEFITS OF NEW HOMES

The Many Benefits of New Homes

WRITTEN BY NATIONAL HOME BUILDERS
ASSOCIATION
PHOTO BY PIXABAY & ISTOCK

It's no coincidence that people are generally happier in springtime. Compared to the colder, darker days of winter, spring is the opportunity for a fresh start. And for many Americans, it's when they plan on buying a new home.

As the momentum of the home buying season continues to grow, the home building industry celebrates New Homes Month in April.

At this time of year, millions of people are starting their search for a new home that's perfect for their lifestyle.

That is why we want to take this month-long opportunity to showcase the many advantages of owning a newly constructed home.

Many home buyers are seeking a unique new home that offers energy efficiency, spaciousness and warranties.

They also want the ability to select their favorite appliances, flooring, paint colors and other design elements to give their home a personal touch from the day they move in.

But those characteristics are just some of the countless advantages of buying a new home. There are many other benefits of owning a new home that might be less obvious, but are often found to be just as valuable.

Strong Sense of Community

One of the built-in benefits of many new homes is the new neighborhood. When families move into a new community at the same time, lasting bonds of friendship and

and neighborliness often form right away. Many home builders will host community block parties in these developments to help neighbors of all ages meet and connect.

Ability to Entertain

Older homes are often smaller and therefore more challenging in which to host gatherings with friends and family. Today's home builders are creating more open spaces with higher ceilings, larger windows and expansive great rooms for added convenience and modern living.

Clean Slate

When moving into a new home, you won't have to

spend hours stripping dated wallpaper or painting over an ugly wall color.

There are no oil stains to remove in the garage, no windows to replace, no walls to be torn down. Everything is already just the way you want it.

Peace of Mind

Building standards have changed a great deal over the decades, almost as fast as technology has evolved. New homes can accommodate today's advanced technology and be customized to meet the individual home owner's needs. And knowing that the home was built to the latest safety codes gives the owner added assurance.

ABOUT THE BUILDER

A small town Texas gal, Danielle Skaggs dreamt of a classic farmhouse, layered with intricate details. A beautiful space filled with function, and room for her 3 beautiful children to run freely in adventure. It was while building this home for her family that she fell deeply in love with designing and building homes. Encouraged by many people, she was determined to not let this be the only home she built. She chased the dream that set her soul on fire and founded Three Ale Custom Homes, LLC. The love of her children, Abel, Luke, and Edith, inspired her to build a big beautiful home and life for them. Danielle has humbly walked through the adventures of collaborating with clients to design, build and beautify their dream homes filled with unique details. Danielle would love the opportunity to collaborate with you on your dream home.

ABOUT THE BUILDER

Bella Vista Homes builder, Ivan Carnero, began his career in construction at a very young age. His background includes time spent on construction sites of different scale and type. During this time, he developed an eye for detail and learned the business side of being a custom home builder.

One of the things you will find outstanding is his desire to allow you to not only express your expectations but play an active role in those expectations coming to life. Bella Vista Homes started as a husband-wife duo, and it is expanding over the years. Working with Ivan and his wife you can be a big part of making decisions for your new custom home!

MAINTENANCE TIPS

For First-Time Home Owners

2022

As a first-time home owner, you now have a place to call your own. Routine home maintenance will help you enjoy your new home for years to come. Maintaining your home not only helps ensure your home is working at an optimal level, but helps to identify or fix problems before they become a larger issue. To keep your home comfortable and enjoyable, consider adding these maintenance items to your annual list of home activities.

Schedule an HVAC Tune-up. Annual HVAC checkups can extend the life of your unit, regardless of its age. Typically, a qualified professional will thoroughly clean your unit and identify if any leaks are present. Although an HVAC tune-up usually occurs annually, experts recommend changing your air filter every 60 or 90 days. Other factors — such as your home size, pets or allergies — can alter how often your filters should be replaced. Changing out your air filter will reduce the wear and tear on your unit, and improve the airflow in your home.

Check Your Smoke Detectors. Smoke detectors save lives. According to the National Fire Protection Association (NFPA), three out of five home fire deaths result from fires in properties without working smoke alarms. NFPA recommends testing all smoke alarms in

your home at least once a month. Simply press the test button to be sure the alarm is working. Follow the manufacturer's maintenance instructions if available. NFPA also recommends a visual inspection of the detector for damage. The detector should not be dirty or obstructed.

Recaulk Your Windows. If you have a drafty window or if you can see daylight around a window frame, then you may have an air leak. Caulk — a flexible material used to seal air leaks — can be found at any hardware store. There is caulk for exterior windows, which can withstand different types of weather, and interior caulk, which shouldn't emit any toxic fumes. According to energy.gov, the best time to apply caulk is during dry weather when the outdoor temperature is above 45 degrees and low humidity will prevent cracks from swelling with moisture.

Clean Your Gutters. Making sure water flows away from your home during a storm is critical. Your gutters protect your home's foundation, roof and walls by controlling the flow of rainwater from your roofline. Neglecting your gutters can lead to mold or water damage to the exterior or interior of your home. Although it may seem like a hassle, it is important to keep your gutters clutter-free. Also, make sure to read all warning labels and follow manufacturer instructions if you are using a ladder to clean your gutters.

Touch Up Exterior Paint. Eventually, the exterior of your home will endure wear and tear because of the elements. Adding a fresh coat of paint where needed not only enhances your home's curb appeal, it functions as an extra layer of protection to your home. A simple visual inspection around the exterior of your home once a year will help you identify problem areas. It is important to address any issues, such as cracking or peeling paint, before it gets worse.

Soncy(VFW Rd) and West Country Club Road.

ABOUT THE BUILDER

The idea for Smart Living Custom Homes was born out of an observation that more homes need features to enhance the homeowner's experience while keeping up with current technology trends. Recognizing this need, the company was created in 2021 by Pedro and Tanya Limas, founders of Sound by Design, which has served the Amarillo and surrounding areas for more than twenty years. They are using their two decades of experience in the home and technology industry to deliver an intelligent and sophisticated home.

Building, Buying, or Remodeling?

#7 5601 Hollow Landing

Built By: Chris Lyons
Home By Lyons
Listed By: Lyons Realty

What year did you start your construction company? 2016

What did you do before starting your construction company? Sold real estate and managed Lyons Realty

Tell me about your company?

HOME By Lyons is a 2nd generation build company that builds custom homes in the Amarillo, Canyon and Lubbock areas. We strive for amazing quality at an affordable price. We have an amazing team that walks clients through the process.

When and why did you join the TPBA?

Not sure the exact date but it was when I was selling real estate, the builders association is a great place to network so it was only natural for me to join.

What are the main details/ features of the home?

This HOME features 4 bedrooms and a unique kitchen/ living layout with a double sided fireplace.

What benefits do you receive from being a member? So many benefits of being a member, first is the relationships you make with other members. Second is the Builders Association provides a strong voice for us at a state level to keep building affordable.

What feature(S) of your home is your favorite?

Double-sided fireplace

What does it mean to you to be the TPBA Showcase home builder?

It's an honor and we love building the showcase home, this is our second time to be able to build one. We are excited to give back to the association that has provided so much to us.

Favorite part of the TPBA?

All of it, but have to say hanging out with close friends and for sure Beer with a Builder Events.

Photos from www.homebylyons.com

TPBA Showcase Home

For over three decades, the Texas Panhandle Builders Association began with a builder volunteer combined with multiple trade associates donating supplies and labor to construct a home from the ground up.

TPBA uses funds raised from the proceeds to maintain daily operations, and to live out our mission, which is

"We build relationships through outreach, education, and networking to advance the building industry in the Texas Panhandle."

Without the countless volunteers and donations of our members, it would not be possible to serve our community and its citizens.

JOIN THE TPBA

TPBA
TEXAS PANHANDLE
BUILDERS ASSOCIATION

WHY JOIN?

MEMBERSHIP IS ENCOURAGED AND OPEN TO ALL COMPANIES AND INDIVIDUALS INVOLVED IN THE HOUSING INDUSTRY. BELOW ARE SOME OF THE BENEFITS OF BECOMING A MEMBER AND BEING ACTIVE IN THE HOUSING INDUSTRY.

GOVERNMENTAL AFFAIRS

THE HOME BUILDERS ASSOCIATION (HBA) GOVERNMENTAL AFFAIRS REPRESENTATIVES WORK AT THE LOCAL, STATE, AND NATIONAL LEVELS TO SUPPORT PRO-HOUSING CANDIDATES THAT ALLOW HBA MEMBERS TO BUILD HOUSING CHOICES AND KEEP THE HOUSING INDUSTRY STRONG. THE POLITICAL ACTION COMMITTEE (PAC) GIVES MEMBERS THE OPPORTUNITY TO SUPPORT HBA EFFORTS AT ALL LEVELS OR IN THE AREAS WHERE THEY DO BUSINESS.

NETWORKING OPPORTUNITIES

GET TO KNOW OUR OTHER MEMBERS AT OUR SOCIAL EVENTS SUCH AS: GENERAL MEMBERSHIP MEETINGS, BEER WITH A BUILDER, THE HOME IMPROVEMENT SHOW, THE PARADE OF HOMES™, THE PARADE PREVIEW PARTY, GOLF TOURNAMENT, & OUR ANNUAL BANQUET.

MARKETING OPPORTUNITIES

MEMBERS CAN TAKE ADVANTAGE OF NUMEROUS OPPORTUNITIES TO PROMOTE THEIR BUSINESS AS SPONSORS AND ADVERTISERS OF EVENTS, PUBLICATIONS, AND THE WEBSITE.

INDUSTRY INFORMATION

RESOURCES KEEP MEMBERS UPDATED ABOUT THE INDUSTRY AND ASSOCIATION IN MANY WAYS INCLUDING THE BLUEPRINT NEWSLETTER, THE E-NEWSLETTER, AND ACCESS TO NATIONAL INFORMATION FROM THE NATIONAL ASSOCIATION OF HOME BUILDERS (NAHB).

BUILDER MEMBER: \$550

OPEN TO ANY PERSON WHOSE BUSINESS IS THE CONSTRUCTION OF HOUSING, OR LAND DEVELOPMENT.

ASSOCIATE MEMBER: \$525

OPEN TO ANY PERSON, FIRM, OR CORPORATION ENGAGED IN ANY ALLIED INDUSTRY OR PROFESSION.

We Close on Time

What a Concept!

Great LOCAL service
means on-time closings.

Truth is our closings are
TWICE AS FAST as the
national average.
