

August 24, 2020

Greetings everyone,

After routine testing yesterday of residents and staff in our Linden Health Center, we have one resident who has presumptively tested positive for COVID-19. The resident is asymptomatic and has been moved to accommodations that will allow them to safely isolate with continued care.

We have re-tested all residents in our skilled nursing neighborhoods, and will re-test the Linden Health Center residents and staff again next week to ensure our residents' and community's health and safety. We will continue to work with the Vermont Department of Health and keep our residents and their families updated.

Martha
