

# 5 Tips to Raise Made Visits Rates

## Remind Your Patients

- Call patients, or use an automated texting service to remind patients of their upcoming appointment.

## Be Consistent in Scheduling

- Consistent appointments help patients set a schedule with their other obligations.

## Positive Appointment Reinforcement

- Reinforce the need for regular appointments during visits, and always give them proper discharge instructions that includes follow-up information.

## Look into Transportation Options

- Help your patients with unstable modes of transportation find options that can better work for them and their care plan.

## Review Cancellation Reasons

- Make a habit of reviewing the reasons behind cancellations periodically and address any issues that have occurred.

# We Support Wound Centers.

It's just that simple.

## We Support

- ✔ Wound centers
- ✔ Hospital Based Programs
