

INVEST IN FLEVOLAND

THE EASTWING OF
GREATER AMSTERDAM

INVESTOR RELATIONS

FREE AND CONFIDENTIAL SUPPORT FOR INVESTORS

The Investor Relations Program aims to make it easier for foreign businesses to grow and thrive in Flevoland:

- **Advocacy**
- **Introductions to relevant parties**
- **Finding the right talent**
- **Access to subsidies**

Not only to new foreign investors, but also to existing foreign investors that already have one or more operations in the Netherlands. The invest in Holland network- a close collaboration of NFIA, regional development agencies and a number of large cities provides support.

COMPANY GROW
AND OVERCOME
ANY CHALLENGE

Lelystad City

WHAT HORIZON CAN DO FOR YOU:

Advocacy

The IR Program serves as a channel through which you can share your views and experiences concerning the investment climate in the Netherlands with the Dutch government. We collect your feedback, submit it to relevant government departments and use it as input for governmental decision-making.

Introductions to relevant parties

The IR Program can introduce you to Dutch government organizations at the national, regional and local levels and bring you into contact with commercial service providers, such as consultants, agents, lawyers, and a wide variety of regional, national and international networks that are relevant to your company.

Finding the right talent

The IR Program is here to help your company find the talent with the skills you need for your operations. We make sure any international employees have a soft landing in the Netherlands, by assisting with visas and work permits, providing cross-cultural advice and linking to international schools.

Benchmarks

The IR Program can be a valuable partner in helping you support your business case for expansion of international activities in the Netherlands. We provide tools and input for cost and location benchmarking, help recruit talent and promote your company's presence in the Netherlands to increase company recognition and brand awareness.

Access to networks

With the IR Program, you can gain access to dozens of national and regional events organized each year, ranging from seminars and conferences to networking dinners, roundtable sessions and individual update meetings with representatives from the Dutch government. We will even help you make individual arrangements for tailor-made support and advice.

Access to subsidies

The IR Program helps execute new investment and development projects, find and apply for subsidies, and assist expanding companies in many other ways. If you have any questions, our door is always open.

Research and skills

The IR Program is equipped to provide guidance on the network of public-private partnerships that flourish in the Netherlands. For example, we can provide insight into R&D incentives and direction on partnerships to maximize incentives. We also help link education, government and business for assistance in everything from pooling talent to addressing the need for technical skills.
