

2020

Water and Wastewater Rates

Halton Region provides residents and businesses with safe, high-quality drinking water 24 hours a day, seven days a week. Our water quality reports continue to show that Halton's drinking water meets or exceeds all Provincial water quality standards (read about our excellent track record at halton.ca).

Halton Region's water and wastewater rates support:

- the reliable supply of safe, clean drinking water;
- wastewater services that meet the needs of the community and protect the environment;
- well-planned and sustainable infrastructure; and
- strategic reinvestment in the state-of-good-repair.

Combined water and wastewater rates

Effective January 1, 2020

(Charges in the tables below are in monthly terms.)

Fixed service charge based on water meter size*

Meter size	Residential (\$)	Commercial/Industrial/Institutional (\$)
20 mm or smaller (3/4" or less)	31.71	31.71
25 mm (1")	55.24	102.70
40 mm (1-1/2")	98.22	168.65
50 mm (2")	228.79	368.89
75 mm (3")	416.64	657.60
100 mm (4")	721.50	1,124.48
150 mm (6")	1,851.24	2,857.36
200 mm (8")	2,980.98	4,590.49
250 mm (10")	3,669.56	5,735.13

* The size of your meter is identified on your bill.

Usage charges per cubic metre (1 m³ = 1,000 litres)

	Residential (\$)	Commercial/Industrial/Institutional (\$)
Per cubic metre	2.6072	2.6072

The residential wastewater cap has been removed for 2020. Halton Region began phasing out the cap in 2017 to help ensure that resident's water and wastewater bills are straightforward and transparent.

Understanding your residential water bill

Halton Region's water and wastewater rates are based on the Council-approved 2020 Budget and Business Plan. These rates support the operation and maintenance of our water and wastewater system.

How your bill is calculated

The Region partners with your local hydro utility to produce a combined bill for your household's hydro and water charges. Your bill is calculated by adding your monthly fixed-service charge (based on meter size) to your consumption charge (based on your water usage). Bills are typically issued every two months for residential customers, and every month for industrial, commercial and institutional customers.

The table below illustrates an example of the bi-monthly charges for a residential customer who has a 20 mm water meter and has used 42 m³ of water:

	Rate (\$)	Quantity	Total (\$)
Fixed service charge	31.71 per month	2 months	63.42
Consumption charge	2.6072 per m ³	42 m ³	109.50
Total bill			172.92

2020 water and wastewater rate increase

How the 2020 rate increase will be used

Effective January 1, 2020, your combined water and wastewater rate will increase by 3.3 per cent. This increase supports:

- operations and maintenance to keep our drinking water safe and of the highest quality (0.9 per cent); and
- capital financing of the State-of-Good-Repair Program (2.4 per cent).

Halton Region emergency water services*

Halton Region provides emergency service 24 hours a day, seven days a week to respond to:

- Blocked sewer pipes
- Sudden loss in water pressure
- Watermain breaks
- Tap water quality concerns
- Leaks at your water meter
- Frozen water service lines

* Cost of repairs or replacements within property boundaries are the homeowner's responsibility.

Important water billing facts

Property owners are responsible for all water charges for their property, including their tenants' use.

Your water meter measures your property's water consumption. If the meter stops working or shows a low reading, your bill may be estimated until a new meter is installed.
