Effective November 1, 2021 the Ontario government's Ontario Electricity Rebate will be changed to 17.0%. The prices here do not include other lines on your bill, like delivery. Power is Personal

You can choose your price plan and switch between Time-of-Use (TOU) and Tiered prices.

TOU

The price depends on when you use electricity. You can help manage your electricity costs by shifting your usage to lower price periods when possible.

Tiered

With Tiered pricing, you can use a threshold amount of electricity at a lower price. Once you exceed that limit, a higher price applies.
