

Electricity Pricing Choice

If you're a residential or small commercial customer that pays Time-of-Use (TOU) electricity prices, you can choose to switch to Tiered prices.

These prices affect the 'Electricity Charges' section of your bill.

TOU Pricing

TOU Pricing depends on when you use electricity. You can help manage your electricity costs by shifting your usage to lower price periods when possible.

Tiered Pricing

Tiered Pricing allows you to use a certain amount of electricity at a lower price. Once you exceed that limit; a higher price applies.

Considering a switch? Visit haltonhillshydro.com/electricity-pricing for tools and information to help you decide.

You can also learn more by visiting OEB.ca.

Ontario Electricity Rebate (OER)

The OER reduces the subtotal of the electricity bill for most households, farms, long-term care homes and small businesses by 17%.

Starting July 1, 2022, eligibility for the OER has been expanded to include retirement homes, mobile home parks and common areas in residential multi-unit complexes such as condominium buildings.

If you have an account for one of these new categories, you will need to submit a self-declaration form to receive the rebate.

Visit our website at: haltonhillshydro.com/rebates/ to apply.

Enjoy the Convenience of Paperless Billing

Never miss a bill again. With paperless billing, you receive a monthly e-mail with your billing information and enjoy the flexibility to view your bills and account information through our secure AccountOnline customer portal any time.

Schedule of Rates and Charges

Effective
May 1st, 2022

Residential		Small Commercial	General Service 50-999kW	General Service >1000kW
Electricity Charge – The cost of electricity supplied to you during the billing period. The Ontario Energy Board (OEB.ca) sets Time-of-Use and Tiered pricing. If you have a contract with an electricity retailer, their price applies here.				
Time-of-Use Prices				
Off-Peak	8.2 ¢/kWh	8.2 ¢/kWh	Hourly Ontario Energy Price or Average Daily Market Price Administered by IESO (IESO.ca)	Hourly Ontario Energy Price Administered by IESO (IESO.ca)
Mid-Peak	11.3 ¢/kWh	11.3 ¢/kWh		
On-Peak	17.0 ¢/kWh	17.0 ¢/kWh		
Tiered Pricing				
Tier 1	9.8 ¢/kWh 1 st 600 kWh/month	9.8 ¢/kWh 1 st 750 kWh/month		
Tier 2	11.5 ¢/kWh Remaining kWh	11.5 ¢/kWh Remaining kWh		
Global Adjustment	If you have a contract with an electricity retailer, you will see a Global Adjustment line item which varies monthly.		Varies monthly – Visit the IESO website at www.ieso.ca for more information on the Global Adjustment.	
Delivery Charges - The cost to deliver electricity from generating stations across the Province to Halton Hills Hydro then to your home or business				
Monthly Service Charge	\$40.95/month	\$30.75/month	\$129.09 /month	\$288.00 /month
Distribution Charge	\$0.0052/kWh	\$0.0275/kWh	\$7.8966/kW or 90% of kVA	\$7.4856/kW or 90% of kVA
Transformer Allowance*	Not applicable	Not applicable	(\$0.60) CR/kW or 90% of kVA for customer owned transformers	
Interval Meter Fee	Not applicable	Not applicable	\$20.00 /month (if applicable)	\$20.00 /month
Transmission Network	\$0.0094/kWh	\$0.0083/kWh	\$3.6073 /kW (7-7 if applicable)	\$3.6073/kW (7-7 peak)
Transmission Connection	\$0.0065/kWh	\$0.0060/kWh	\$2.5373 /kW or 90% of kVA	\$2.5373 /kW or 90% of kVA
Adjustment Factor**	3.55%	3.55%	3.55% (2.51% for primary metered installations)	
*Transformer Allowance: applies to property owners who own their own transformer				
**Adjustment Factor: The delivery charge also includes costs relating to electricity lost through distributing electricity to your home or business. Equipment such as wires and transformers, consumes power before it gets to your home or business.				
Regulatory Charges - The cost of administering the wholesale electricity system, maintaining the reliability of the provincial grid and conservation programs.				
Standard Supply Service	\$0.25/month	\$0.25/month	\$0.25/month	\$0.25/month
	(N/A with an electricity retail contract)			
Market Service Charge	\$0.0039/kWh	\$0.0039/kWh	\$0.0039/kWh	\$0.0039/kWh
