

2018 ELECTRICITY RATES

New Brantford Power distribution rates and charges came into effect on January 1, 2018.

The impact on your bill will vary based on your individual usage.

For example, a typical residential customer consuming an average of 750 kWh of electricity monthly will spend approximately \$1.60 more each month.

A small business customer consuming an average of 2,000 kWh monthly will see an increase of approximately \$0.47 per month.

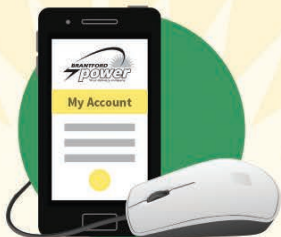

Brantford Power's distribution costs are reflected in the "Delivery" line of your bill.
