Dr. Saif Hossain

A message from CEO:
At LMCC, we are committed
in providing prudent nurses
for healthcare industry

Mission

We strive to meet the medical needs of our diverse community by instructing and developing qualified professionals with multilingual skills and/or multi-ethnic understanding. It is our intent to successfully train and prepare students by adhering to the philosophy of a “patient-centered approach” and to leverage the cultural and multilingual knowledge of individuals to train them for a successful career in the healthcare field.

Objectives

Lotus Medical Career College prepares and trains students with hands-on training essential to offering high-quality care to patients when working alongside other qualified health care professionals. Course study and practice in skills will be related to patient care and hands-on training and clinical is with local hospitals, nursing homes and home health agencies.
