

## CUSTOMER SUCCESS

# Securely transferring data with Innovaccer

**Overview** The largest and most successful independent multi-specialty physician groups in Illinois has grown exponentially since its formation in 1999. One of the key reasons behind this is a physician-governed board that works to improve patient outcomes and provider performance, manage at-risk populations, reduce healthcare expenses, and increase patient access to care. The system handles more than 2 million patient visits annually with more than 100 locations with over 700 primary care and specialty physicians.

### At a glance

- Formed in 1999
- Physician-governed
- More than 100 locations
- 2 million+ patient visits annually
- More than 700 providers

### Challenges

- A lack of cost-effective options
- The risk of losing data
- Stored data was not standardized

### Solutions

- Cost-effective
- Meets requirements of all EMR technology platforms
- Measures to avoid data loss

# Challenges

Data is at the core of many healthcare organization and has only become more important with the growth of EMRs. Data archival is essential to a successful EMR transition, as losing data can impact clinical, financial, and operational outcomes. Before partnering with Innovaccer, the group faced the following challenges:

It struggled to find a cost-effective data archival solution

---

Different EMR technology platforms had different requirements for transitions.

---

Data from disparate sources in EMRs needed to be standardized.

---

There was a risk of losing data with other solutions.

## Solutions

Innovaccer's Data Archival solution fit the needs of the medical group and helped easily archive data and move it to the new platform.

The solution was significantly cheaper than the competition.

---

Innovaccer's solution was designed to keep EMR data at the center.

---

Unified patient records could easily be stored and standardized with the Data Archival solution.

---

Innovaccer's platform features security measures to avoid losing data.

## Results

With Innovaccer's solution, it was able to successfully transition from one EMR platform to another without losing any data. It realized an annual savings of \$400,000 in EMR services fees.

recurring savings from  
consolidating EMR service fees

successful and easy
