Bluetooth Pairing

When removed from the charging case, GO pod LED blinks blue as it automatically searches for a previously paired device. If a stored device is not found, it then automatically enters pairing mode with LED blinking blue and red.

To enter pairing mode manually, Press the left and right touch area together for $\geq 2s$ until LED flashes red / blue.

The GO pod is able to store up to 8 paired Bluetooth devices. Manual reconnection may still be necessary.

Connecting to Bluetooth device

Turn on the phone's Bluetooth function, and select "GO pod" in your Bluetooth list.

GO pod Auto-connecting

The GO pod switch on and connect to each other automatically when taken out of the charging case. And the GO pod will flash blue lights to indicate that the GO pod are automatically interconnection to each other. Once interconnection successfully, the GO pod L +R will alternately flash the red light and blue light.

Single-GO pod Mode

Removing the right or left GO pod from the charging case, it will automatically turn on, and select "GO pod" (Left GO pod) or "GO pod" (Right GO pod) in the Bluetooth list to connect GO pod.

If the GO pod has not successfully connected to Bluetooth for more than 5 minutes, they will automatically shut down.

When the GO pod is placed back in the charging case it automatically switches off and goes into charging, the binaural hanging steady red light is always on until it is fully charged and then goes out.

Do not leave the left and right GO pod too far when you take out them from the charging case for pairing. The recommended distance is no more than 15 CM.

Set up your Bluetooth connection using our iFi-Gaia APP

Please search for "GO pod" within the Gaia app.

The Gaia app helps you to use all functions and settings of the headset, such as digital filters to adjust the sound, Resetting of GO pod.
