

**Position:** Full Stack Engineer (Web Frontend & Backend)

**Period & Start date:** Full time - ASAP

**Location:** London or Remote

**Salary:** Competitive

**Experience:** Minimum 4 years

## About Treeapp

Treeapp is one of the fastest growing startups in the climate-tech space - working with 1,000+ organisations and growing a community of 100,000+ users!

We're a global tree planting organisation operating sites across the world, supporting both businesses & individuals to make a difference. We specialise in working with businesses to integrate tree planting directly into their offering as well as offset their carbon emissions. Treeapp also operates a leading mobile app which enables anyone to plant trees for free.

Have a look at our 2024 impact report [here](#).

## The role

You will work closely with colleagues across product and engineering to solve challenges and ship new products. This role will be focused on both our website & app:

- web frontend (HTML, CSS and JavaScript)
- web frontend (internal - Flutter)
- and backend (Go, GCP and PostgreSQL).

This role comes with a high degree of autonomy but still offers support of experienced colleagues to move forward as a team, operating in two week sprints.

## What we look for:

- Academic qualifications are not required
- 4+ years of experience in software engineering
- Strong proficiency in HTML, CSS, and JavaScript, with an in-depth understanding of web technologies and best practices
- Knowledge with backend technologies and system design, with ideally knowledge of Go
- Knowledge of CI/CD pipeline and GitHub
- Familiar with agile development methodologies
- Excellent problem-solving and communication skills
- Passion for our goal and strong desire to be part of the mission

## For bonus points:

- Good understanding and knowledge of Flutter and Dart
- Knowledge of PostgreSQL, Google Cloud Platform
- Proficient in TypeScript
- Experience in a scale-up environment
- Proven track record in solving problems in both B2B and B2C products

## What you'll get:

- Join one of the fastest growing startups in the climate-tech space
- Weekly drinks and regular team socials
- Free coffee, tea and beverages from the barista in the office
- Flexible work location (full remote working in August + other moments in the year)
- Competitive salary and future opportunity to get stock options in Treeapp
- Treeapp merchandise
- Pension scheme
- 32 days off (incl. bank holidays) + the day off on your birthday
- Make a personal impact by contributing to the restoration of the world's forests.

## Contact details
