

Position: Mobile Software Engineer

Period & Start date: Full time - ASAP

Salary: Competitive + Stock options

History

Treeapp (thetreeapp.org) was founded because our team realised the devastated state of the world's environment. Treeapp enables anyone to have an impact, just by doing a simple action on their phone every day. We chose trees, because deforestation is a pressing issue that needs to be addressed.

About Treeapp

Our vision is to let anyone come on our platform and start living a sustainable lifestyle by discovering / purchasing sustainable products and creating real impact by planting trees online / offline. Treeapp has been growing rapidly and has gained 65,000+ users and 200+ business partners, including L'Occitane en Provence.

The role

This role focuses on our core mobile app, written with Flutter. You will work closely with the product team and engineering team to ship new features whilst solving engineering challenges. You might also work on other projects using Flutter Web!

What we look for:

- 2+ years of experience in mobile development
- 1+ years of Flutter experience
- Passion for our goal and strong desire to be part of the mission

What we'd love to see:

- Experience building iOS/Android apps
- Knowledge of mobile engineering processes & practices
- Ability to collaborate with design team (improving design systems, communicating feasibility)

What you'll get:

- Work with the co-founders, serial entrepreneurs who founded businesses valued £30mIn+
- Monthly drinks on the founders (when quarantine is over!)
- Have your own personal impact on positively contributing to restoring the world forests
- Competitive salary and options to get equity in Treeapp
- Occasional Treeapp merchandise
- Pension Scheme
- 28 days off & day off on your birthday
