

CARBIDE

MADILINE
HANDBIKES

PROVEN IN BATTLE.
TRUSTED BY *CHAMPIONS.*

TAILORED FOR YOU

The adjustable fork offers precise tuning of both height and reach, allowing you to dial in your riding position to match your exact needs.

The result is a more efficient posture, enhanced control, and maximum comfort: for faster, more focused riding.

BUILT TO PERFORM

A quick release system engineered with precision and refined in every detail, delivering stiffness and security on every ride.

Compatible with UDH derailleurs thanks to the integrated interface.

RACE READY

Crafted from ultra-lightweight aluminum, precisely welded and anodized for enhanced durability, the grips are ergonomically shaped for perfect comfort and natural control.

The shift and brake levers are positioned exactly where your fingers expect them, making every gear change and brake application quick, smooth and effortless.

POWER MEETS CONTROL

The disc brake provides powerful and precise stopping performance without slowing you down, allowing you to push beyond limits with complete confidence and control.

*For tetraplegic athletes, options including elbow shifting and braking adaptations are available.

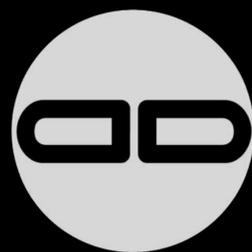

HOLD STEADY

The parking brake provides reliable stability during stops and transfers, delivering safety, independence and peace of mind.

COMFORT IN CONTROL

The carbon backrest is fully adjustable up, down, forward, and backward, allowing you to customize your seating position for maximum comfort, support, and performance.
