TAINIO
BIOLOGICALS, INC.

BFMS® Biological Farm Management System™

PEPZYME CLEAR™
Enzyme Biostimulant

CONTAINS NON-PLANT FOOD INGREDIENTS

10% Concentrated liquid extract of non-living soil bacteria, yeast & fungi cultures
90% Distilled Water

APPLICATION

Apply Pepzyme Clear at the rate of **12.5 ounces per acre** or 1 gallon per 10 acres. Dilute with sufficient water to get uniform coverage of the soil.

Apply just before, during, or immediately after planting for maximum benefits. Apply on crop residues after harvest to promote decomposition and soil improvement.

Pepzyme Clear is designed for use on soils and canopied crops such as turf. It may be applied to the soil by aerial spraying, ground sprayer, shanked in with fertilizer liquids, through seed drill starter-fertilizer application, through sprinkler systems or by furrow or flood irrigation.

Pepzyme Clear can be applied with most liquid fertilizer, herbicides and pesticides. Always test first for compatibility. Consult a sales representative for more information.

Caution:

- Keep out of reach of children and pets.
- Do not swallow.

Compatibilities:

DO NOT USE with time-release fertilizers.
