Industrial Manipulators

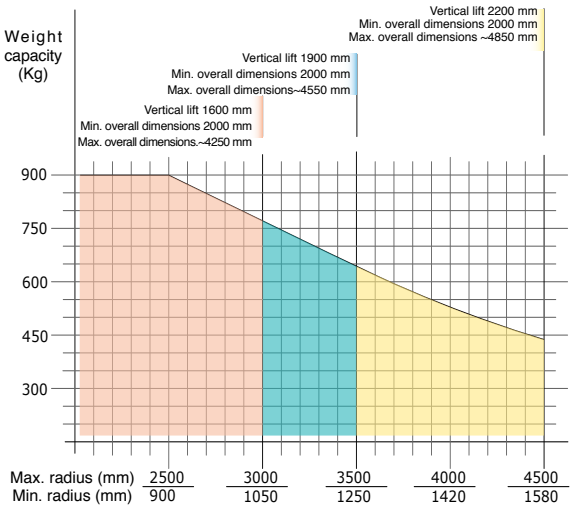

Pneumatic Manipulator MAXIPARTNER MX with articulated arms

MAXIPARTNER MX, designed and realized particularly for difficult handlings, meets the requirement to move heavy and off-set loads, in any direction, allowing the operator to work with the minimum effort in good ergonomic and safety conditions.
Its slim and strong structure eliminates the "drifting" effect.

MAXIPARTNER® - MX

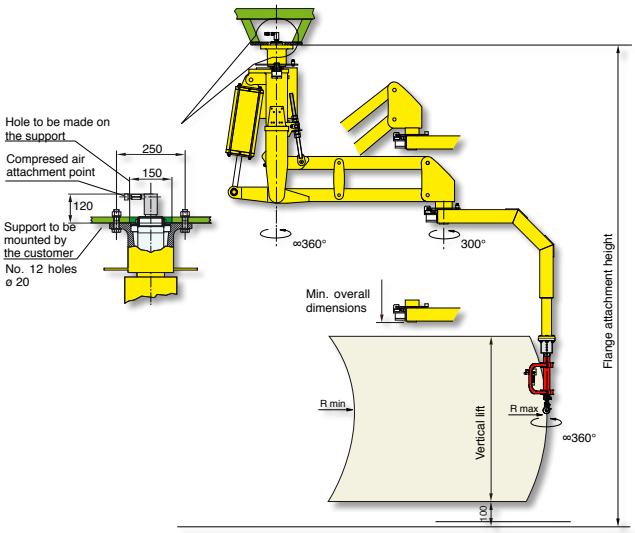

Maxipartner column mounted - MXC

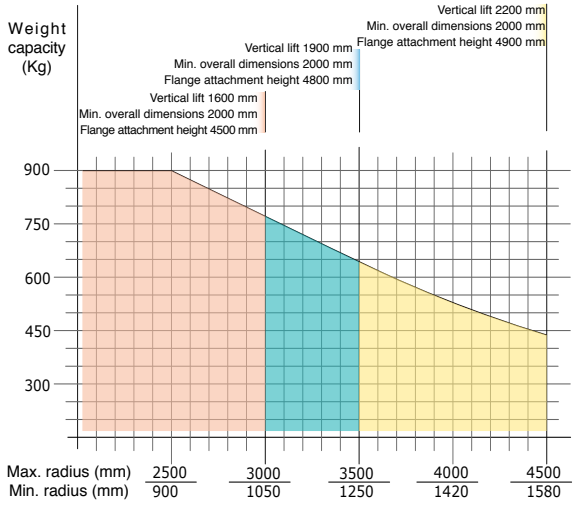

Structural versions: column mounted on fixed base-plate, autostable base-plate of our supply properly dimensioned or with autostable motorised trolley that translates on a simple profile track on the floor.

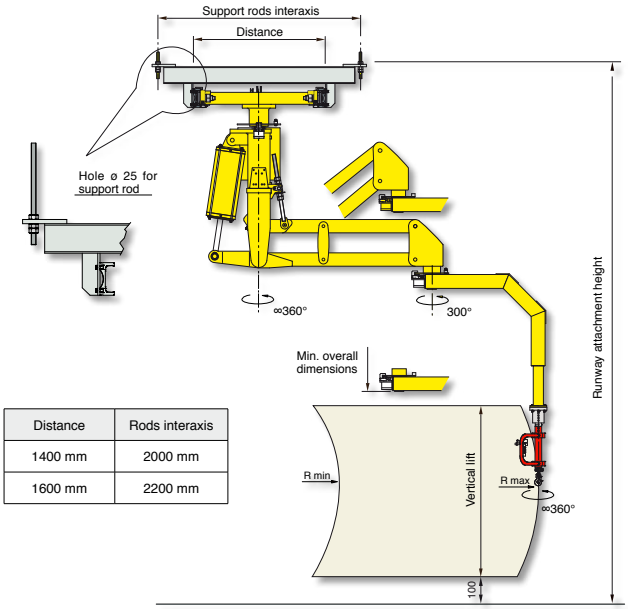

Maxipartner overhead mounted - MXF
