Let's talk Balayage.....

Balayage is a French coloring technique that was developed in the 1970's. It is a freehand approach where the color or high lites are painted on by hand instead of using the traditional foiling manner. It allows for a sun-kissed natural hair color, similar to what nature gives us as children.

Let's Talk Ombre.....

Ombre, meaning to shadow, it is a seamless graduation from darker to lighter.
