Services

Standard Services

Financial Statement Preparation

From preparation to compilations to reviews, we have the experience you need. Every engagement that we perform is geared toward making certain your financial statements are accurate and portray you, the client, in the proper light.

Tax

When you sign your tax return, you want an industry leader standing behind it. With twenty years of experience, more than a hundred audits represented (most being no-change), IRS representation at every phase except tax court, experience preparing returns for every state and more than 2,000 clients that we serve, DAPCPA is that industry leader you can count on.

Bookkeeping and Bill Pay

Clients that need their bookkeeping done right the first time engage us. Everything from reconciling your checkbook to virtual controller services, we can free up your time so that you can go make more money. Our complete staff of bookkeepers can provide for the receipt and deposit of funds, recording and payment of bills (upon approval of the client) and complete recordkeeping of all financial data. Our system of tracking financial transactions helps our clients to know exactly what their financial condition is.

Premium Services

Monthly Cash Flow Budgeting and Analysis

Are you frequently surprised by cash shortfalls? We can help you and your business to plan and budget so that you can sleep easier. Cash flow budgeting can help smooth the peaks and valleys through the use of cash conservation and cash maintenance techniques. We help you become proactive instead of reactive in your planning.

Asset Acquisition and Disposition Planning

Selling property? Replacing equipment? Upgrading capacity? Because of both depreciation recapture, capital gains and accelerated depreciation, these can be tricky. We can help plan to achieve the best tax and financial benefits from these transactions.
